placing risks or delivering policies or collecting premiums, but shall not include the officers and salaried employees of any such underwriter, who do not receive commissions. Every underwriter, incorporated or unincorporated, engaged in the transaction of any business of insurance within this state, upon the employment or termination of the employment of any person, partnership, association or corporation to act as its agent within this state, shall certify such fact together with the name and address of such agent to the superintendent of insurance; and shall also annually during the month of January, in such form as the superintendent of insurance shall prescribe, file with him a list of the names and addresses of all its agents authorized to act as such within the state. No person, partnership, association or corporation shall as agent act for any such underwriter in this state, unless such underwriter shall have fully complied with the provisions of this chapter nor unless such agent shall have procured an agent's certificate of authority from the superintendent of insurance. The superintendent of insurance shall file in his office evidence of the issuance of every such certificate to an agent, together with evidence of such agent's authority from each underwriter for whom he is to act. An agent's certificate of authority shall be issued only upon application filed with the superintendent of insurance, in such form as the superintendent of insurance shall prescribe. Every such certificate shall expire on the thirty-first day of December of the calendar year in which the same shall have been issued, but if the application for the renewal of any such certificate shall have been filed with the superintendent of insurance before January first of any year such agent may continue to act as such under such expired certificate until the issuance to him by the superintendent of insurance of a new certificate or until five days after the superintendent of insurance shall have refused to renew such certificate and shall have served notice of such refusal on such agent. Service of such notice may be made either personally or by mail, and, if by mail, shall be deemed complete if such notice is deposited in the postoffice, postage prepaid, directed to the applicant at the place of residence or business specified in his application. An underwriter, authorized to transact the insurance business within this state, who shall employ as agent any person, partnership, association or corporation not having an agent's certificate of authority from the superintendent of insurance authorizing him to act as agent shall not authorize or permit such agent under his contract of employment to solicit insurance or issue policies for such underwriter until such agent shall have procured a certificate of authority as required by this section. An agent's certificate of authority shall be revoked, or the issue or renewal thereof refused, by the superintendent of insurance if, after due investigation and a hearing either before himself or before any salaried employee of the insurance department designated by him whose report he may adopt, he determines that the holder of such certificate, or the applicant therefor, as the case may be, has vio-

lated any ² law, or has made a material misstatement in the application for such certificate, or has demonstrated his incompetency or untrustworthiness to transact business as an insurance agent, or has been guilty of fraudulent or dishonest practices. No individual, corporation, partnership or association whose certificate of authority is so revoked, nor any partnership, or association of which such individual is a member, nor any corporation of which he is an officer, shall be entitled to any certificate of authority under this section for one year after such revocation, or, if such revocation be reviewed by certiorari proceedings, for one year after the final determination thereof affirming the action of the superintendent in revoking such certificate. If any such certificate held by a partnership, association or corporation be so revoked, no member of the partnership or association or officer of the corporation shall be entitled to any such certificate for the same period of time, if the superintendent of insurance determine that such member or officer was personally at fault in the matter on account of which the certificate was revoked. The action of the superintendent of insurance in granting or refusing to grant or renew a certificate of authority or in revoking or refusing to revoke such certificate under this section shall be subject to review by writ of certiorari, at the instance of the applicant for such certificate, the holder of a certificate so revoked or the holder of any certificate or the person aggrieved. If the superintendent of insurance shall revoke or shall refuse to renew the certificate of authority of any agent issued under this section and such agent shall apply for a writ of certiorari to review such action, the certificate of authority of such agent shall be deemed to be in full force and effect for all purposes, including the right to renewal until the final determination of such certiorari proceedings and all appeals therefrom.

This section shall not apply to any contract of life insurance, nor to any contract of health or accident insurance, nor to contracts of insurance upon property located without this state, nor to contracts made by persons, partnerships, associations or corporations authorized to do business under articles five, six, seven and nine of this chapter.

Any person, partnership, association or corporation violating any provision of this section shall, in addition to any other penalty in this chapter provided, forfeit to the people of the state five hundred dollars.

Nothing in this chapter shall be so construed as to prevent any underwriter authorized to do business within this state from authorizing a broker to whom a certificate of authority has been issued under this chapter to act as agent of such underwriter for the collection of premiums.

§ 2. This act shall take effect immediately.

The tracks and structures of the Lehigh Valley railroad shall be removed from this strip for the full distance between the beginning of the dock wall and Clarissa street.

Upon the area so acquired there may be built a suitable warehouse and mechanical devices for the transfer of freight. The improvement provided for shall be made by the state in the method herein provided as to other improvements authorized by this act when the city of Rochester shall have ceded to the state the land it now owns lying between the face of the said dock wall and Plymouth avenue, and further when the city of Rochester shall have entered into and executed an agreement with the state stipulating that the said city of Rochester shall not sell, lease or otherwise dispose of any of the property which it now owns adjacent to the property hereinabove provided to be ceded to the state, and to reserve said land until needed for the future enlargement of this terminal. § 24-d. **Report of existence.** 1. Not later than the thirty-first day of December in the year nineteen hundred and twenty-two, there shall be filed in the office of the secretary of state by or on behalf of every stock corporation organized under the laws of this state prior to the first day of January in the year eighteen hundred and ninety-eight, other than a corporation which has paid a franchise tax subsequent to January first nineteen hundred and nineteen and other than a corporation organized by or under a special act and other than a banking, insurance, transportation or railroad corporation, a written report which shall state the name of the corporation and that said corporation is in existence. Such report shall be signed by an officer or director of the corporation who shall add the title of his office or the word "director," as the case may be, and his post-office address, to his signature. If the secretary of state shall discover that his records indicate that there are two or more corporations having the name stated in the report offered for filing, he may return the same and require the inclusion therein of additional statements to identify the corporation.

2. The secretary of state shall, not later than the thirty-first day of December in the year nineteen hundred and twenty-three, transmit to the governor the names of such corporations as appear by the records of his office and the records of the state tax commission to be included in the class of corporations which, by the preceding paragraph of this section, are required to report, and which have failed to do so. The names so transmitted shall be grouped in separate lists so that each list shall contain the names of such corporations as, according to the records of the secretary of state, have their principal offices in the same county. Those corporations as to which the secretary of state is unable to determine from his records the counties in which their principal offices are located shall be separately listed and transmitted.

3. Upon receipt of such lists from the secretary of state the governor shall issue a proclamation, under his hand and seal of office, as to the corporations whose names are included in each list, declaring such corporations dissolved and their charters for-

feited by reason of their failure to report as required by this section. The original proclamations shall be filed in the office of the secretary of state who shall cause a copy of each proclamation to be published once in a daily newspaper published and circulating in the county wherein the principal offices of the corporations named in such proclamation are located. The secretary of state shall cause a copy of the proclamation covering those corporations as to which the county in which their principal offices are located is unknown to him to be published once in the state paper at Albany.

4. Upon the publication of any such proclamation in the manner aforesaid, the corporate existence of such corporation named therein shall immediately cease and it shall be deemed to be dissolved.

5. The names of all corporations dissolved as aforesaid shall be reserved for a period of three months immediately following the publication of the proclamation, and during such period no corporation shall be formed under a name the same as any name so reserved or so nearly resembling it as to be calculated to deceive, nor shall any foreign corporation, within such period, be authorized to do business in this state under a name the same as any name so reserved or so nearly resembling it as to be calculated to deceive.

6. At any time before the expiration of said period of three months from the date of publication of the proclamation, a corporation whose name is included in the proclamation as published may cause to be filed in the office of the secretary of state a certificate that the corporation desires to continue its corporate existence. Such certificate shall be executed by one of its officers, under its seal, with proof of execution in the form prescribed by section three hundred and nine of the real property law. The filing of such certificate shall have the effect of annulling all of the proceedings theretofore taken for the dissolution of such corporation under the provisions of this section, and it shall have such corporate powers, rights, duties and obligations as it had on the date of the publication of the proclamation, with the same force and effect as if such proclamation had not been made or published, and as if such corporation had made the report required by subdivision one of this section. The secretary of state shall collect a fee of twenty-five dollars for filing such certificate unless it shall appear that the name of the corporation was improperly included in the proclamation by the fault or error of the secretary of state, in which case no filing fee shall be collected. The secretary of state shall not accept any such certificate after the expiration of such period of three months.

§ 2. This act shall take effect immediately.

§ 2. Subject to the provisions of this act, such corporation is hereby authorized to construct, in accordance with plans and specifications to be approved by the state engineer and surveyor and the commissioners of the Palisades Interstate Park, across the Hudson river about three and one-half miles north of the village of Peekskill, from a point adjacent to the Anthony's Nose tunnel of the New York Central railroad to the foot of Bear mountain just south of the mouth of Popolopen creek, a suspension bridge, approximately sixteen hundred and fifty feet from tower to tower, with a clearance of one hundred and thirty-five feet above high water, and having thereon a roadway at least twenty-two feet in width and sidewalks at least four feet in width. The work of construction of such bridge shall begin within one year, and shall be completed within three years, after all necessary consents of federal authorities shall have been obtained; provided, however, that if such consents be not obtained and construction begun within thirty months from the time this act takes effect, all rights and privileges granted hereunder shall cease and determine. The piers and anchorages of such bridge shall be of concrete, and the towers, stiffenings, trusses, floor system and anchor bars shall be of structural steel. The cables and suspenders shall be of wire rope. The sidewalks and pavements on such bridge also shall be of concrete. The sidewalks shall have a loading capacity of fifty pounds per square foot. The roadway shall have a loading capacity of seventy pounds per square foot or of a moving load of thirty tons. Such company, during the time when it has control of such bridge, may use for approaches thereto a parcel of state land three rods in width on the east side of the river extending from the easterly end of such bridge along the southerly side of Anthony's Nose to make connection with the Albany post road north of Annsville creek, and a parcel of state lands three rods in width, on the west side of the river, extending from the west end of such bridge for a distance of about three hundred yards to, and connecting with, the state highway through the Palisades Interstate Park. Such company shall construct upon and along such approaches a roadway conforming to the standard of construction adopted by the state department of highways for the construction of state routes and shall maintain such roads in good repair at its own cost at all times during its control of such bridge. Such company may acquire by condemnation under the general condemnation law any real property or rights therein except lands of the state of New York necessary for the construction of such bridge, approaches, toll-gates and buildings appurtenant to the use and maintenance of the bridge, except that it may take possession of such property and rights therein upon the appointment and qualification of the commissioners of appraisal. If the state shall not have purchased such property at the expiration of twenty-five years after the completion of such bridge, such bridge, improvements on approaches, buildings, toll-gates and appurtenances shall be and become the property of the state at the expiration of thirty years from the completion of such bridge, without cost or expense to the state, and the right, title and interest of such company therein shall then cease and determine. The state may exercise any such option to purchase within one year after the expiration of any such period of five years or multiple thereof above specified. Nothing herein contained, however, shall impair the right of the state to take such property at any time, for a public use, upon payment of just compensation, in the exercise of its right of eminent domain. Such just compensation shall be fixed at the cost of such bridge, all improvements in connection with the approaches, and all buildings, gates and appurtenances of such bridge, together with ten per centum of such cost, less such sum for amortization as shall have been earned, and fixed by the public service commission.

§ 4. When such bridge shall have been completed it shall be kept open to the public at all times upon payment of tolls at or below the maximum rates hereinafter provided. No fees or costs shall be exacted in advance from the plaintiff.

There shall be endorsed upon the copy of the summons served upon the defendant a statement in substantially the following form: This action is brought to recover a penalty of ten dollars according to the provisions of section one hundred and ten of chapter forty-eight of the laws of nineteen hundred and twenty-two, for failure or refusal to obtain a license for a dog or dogs owned or harbored by you during the current dog license year. If you obtain such license from your town or city clerk before the return day named in the summons herein, and pay the fees and mileage provided by the justice court act, for the issuing and service of such summons, this action will thereupon be discontinued; otherwise judgment will be taken against you by default for such penalty, together with costs of the action, unless you duly appear and answer the complaint of the plaintiff herein.

If the defendant shall before the return day procure such license and pay such fees and mileage, the action shall be discontinued; otherwise it shall be prosecuted to judgment. Except as other-

wise provided in this section, the proceedings in such action shall be governed by the provisions of the justice court act.

All moneys collected as judgments and costs in such actions shall be remitted to the county treasurer on or before the tenth day of the calendar month following such collections, and the justice or court shall at the time of such remittance transmit to the commissioner a summary statement in the form prescribed by him, showing the final action taken in such penalty actions.

All persons entitled to fees for services or mileage in such actions shall present a verified claim therefor, in the form and manner prescribed by the commissioner, to the board of supervisors or other county auditing officers of the county where such actions were brought, and upon allowance thereof, the county treasurer shall pay such allowed claims from the moneys collected under this article.

§ 120. **Amount of damages to be paid by the county; assignment of claim to county.** The owner of horses, cattle, sheep or swine attacked, chased, worried, injured or killed by a dog or dogs shall within ten days after discovery thereof and before such animal shall have been disposed of or buried give notice of claim to any assessor of the city or town where such animals were so attacked, chased, worried, injured or killed, that he will make a claim therefor and request that the damages be ascertained. Such notice of claim when filed shall set forth the facts, as claimed, including a description of such animals, the time and place where the claimant believed they were attacked, chased, worried, or injured or killed, and such other circumstances in connection therewith as may be within his knowledge. The assessor receiving such notice of claim shall immediately give notice thereof to the other assessors of such claim so made. The assessors, or a majority of them, shall, within three days, at a time and place to be designated by them, inquire into the matter, and shall examine the animal or animals alleged to have been injured or killed and, if necessary, examine witnesses in relation thereto. If after such inquiry they shall determine that such animals were so attacked, chased, worried, injured or killed by a dog or dogs, they shall make a report of such fact, the number and kind of such animals, and the amount of damages, if any, caused thereby. Such report shall also specify the amounts of their fees which shall not exceed three dollars each for all services and five cents for each mile necessarily traveled in connection with one claim. The difference between the value of the animals before and such value after the occurrence of the acts on which the claim is based, shall be the measure of damages. Such report shall be filed immediately in the office of the county treasurer. Upon receipt of such assessors' report the county treasurer shall transmit a copy thereof to the claimant by mail. Within twenty days after the date of the mailing of such copy of such report the claimant or the county treasurer may file a petition with the clerk of the board of supervisors for a review by the board of supervisors of the determination of the assessors. The board of supervisors

shall cause an investigation to be made of the facts upon which such determination was based. It may appoint a committee to conduct such investigation. The board of supervisors, or such committee if appointed, shall cause reasonable notice of the time and place at which the hearing on such investigation will be held to be given to the claimant and the county treasurer in such manner as it may direct. The said board of supervisors may approve, reject or modify the determination of the assessors. The board of supervisors shall render a decision on such review and cause a copy of such decision to be filed with the county treasurer and a copy thereof to be transmitted by mail to the claimant. If at the expiration of the period of twenty days after the mailing by the county treasurer to the claimant of such copy of such report of the assessors no petition for review has been filed in his office, or if a petition for review shall have been so filed, then upon the filing in his office of the decision of the board of supervisors, the county treasurer shall execute a certificate in triplicate containing the name of the owner of such animals and the amount of the damages which have been ascertained as herein provided. One of such certificates shall be filed in the office of the county treasurer, one transmitted to the department of farms and markets and one transmitted immediately by mail to the claimant. If additional or increased damages are claimed on account of a flock of sheep being attacked, chased or worried, accruing subsequent thereto and not apparent at the time of the first appraisal of damages to the flock, a supplemental notice of claim for such damages may be given to one of the assessors who had jurisdiction of the original claim, at any time within six months from the discovery of the original damages. Such supplemental notice of claim shall set forth the facts required to be specified in the original notice and also the facts upon which such additional or increased damages are based. The same proceedings shall be had thereon as in the case of an original claim. The person to whom a certificate allowing any damages shall be issued, or his assignee or legal representative, may present the same for payment and the amount thereof shall be paid to such person or his assignee or legal representatives, by such county treasurer, and the county treasurer shall also pay the assessors their fees as provided herein for passing upon such claim, out of any moneys available therefor, upon a proper receipt being signed by the person or assessor entitled to such payment and upon the presentation of an assignment to the county of the claim for damages against the owner or owners of the dog or dogs causing such damages. The form of such assignment shall be prescribed by the department of farms and markets. If the owner of such animals attacked, chased, worried, injured or killed shall not present to such county treasurer the certificate above mentioned within six months after the execution thereof, he shall be deemed to have waived compensation from the county for the damages incurred, and shall be liable to the assessors for their fees, and the amount thereof shall not be paid by the county; except that such fees shall be paid by the

county if such person fails to pay the same within one year from the time such certificate is filed with such county treasurer.

Any decision of a board of supervisors made under the provisions of this section where the amount of the claim stated in the notice of claim presented to the assessors equalled or exceeded the sum of one hundred dollars may be reviewed by certiorari in the manner provided by article seventy-eight of the civil practice act.

Such rules shall be the minimum standard required and shall supersede any special law or local ordinance inconsistent therewith, and no local ordinance inconsistent therewith shall be adopted, but nothing herein contained shall prevent the enactment by local ordinance of additional requirements and restrictions. Such rules of the industrial board shall constitute the "State standard building code" for the construction and equipment of places of public assembly, shall be subject to the procedure set forth in sections twenty-nine and thirty of this chapter, may be limited in their application to certain classes of buildings or to the conditions under which they are operated, and some or all of them may apply only to those buildings or places to be constructed, maintained or conducted in the future. § 473. **Certificate of compliance with requirements of law.** The enforcing authority shall ascertain by inspection whether places of public assembly conform to the requirements of this article and the rules adopted thereunder. If such places are found to so conform, he or it shall issue a certificate of compliance to that effect. Such certificate shall be upon a form approved by the industrial commissioner or furnished by him and shall be conspicuously posted on the premises. Before any certificate of compliance shall be issued to a place erected after the first day of October, nineteen hundred and twenty-two, plans for such building shall be filed with the industrial commissioner or with the local enforcing authority for approval, and such plan shall not be approved unless they conform to the provisions of this article and the rules adopted thereunder.

A fee not to exceed ten dollars may be charged to and collected from the owner, lessee or person conducting the place of assembly for the approval of plans and for each inspection, but not more than twenty dollars in any one year may be so charged or collected, in respect of the same premises.

ch. 62,
§ 182, as

L. 1916,
ch. 833,
amended.

Section 1. Section one hundred and eighty-two of chapter sixty-two of the laws of nineteen hundred and nine, entitled "An act in relation to taxation, constituting chapter sixty of the consolidated laws," as last amended by chapter three hundred and thirty-three of the laws of nineteen hundred and sixteen, is hereby amended to read as follows:¹

§ 182. **Franchise tax on corporations.** The term "corporation" as used in this section shall include any business conducted by a trustee or trustees wherein interest or ownership is evidenced by certificates or other written instruments. For the privilege of exercising its corporate franchises in this state every domestic corporation, joint stock company or association, and for the privilege of doing business in this state, every foreign corporation, joint stock company or association, shall pay to the state treasurer annually, in advance, an annual tax to be computed upon the basis of the amount of its capital stock, employed during the preceding year within this state, and upon each dollar of such amount. The measure of the amount of capital stock employed in this state shall be such a portion of the issued capital stock as the gross assets employed in any business within this state bear to the gross assets wherever employed in business. For purposes of taxation, the capital of a corporation invested in the stock of another corporation shall be deemed to be assets located where the physical property represented by such stock is located.

Every corporation, joint stock company or association, subject to taxation under this section shall, in any event, pay a minimum tax of not less than ten dollars nor less than one mill on each dollar of such a portion of the net value of its capital stock, which net value for the purposes of this section shall be deemed to be not less than five dollars per share, as the amount of its gross assets employed by it in its business in this state bears to its gross assets wherever employed by it in its business. The term "net value" as used in this section shall be construed to mean not less than the difference between a corporation's assets and liabilities and not less than the average price at which such stock sold during said year. But if the dividends made or declared on the par value of any kind of capital stock during any year ending with the thirty-first day of December amount to six or more than six per centum, the tax upon such kind of capital stock shall be at the rate of one-quarter of a mill for each one per centum of dividends

¹ Section materially amended.

made or declared upon the par value of the capital stock during said year, unless such a tax be less than the minimum tax hereinbefore provided in this section, and the tax commission shall, for such purpose, make a fair and equitable apportionment of the assets of the corporation, joint stock company or association, between the different kinds of stocks.

If such corporation, joint stock company or association shall have more than one kind of capital stock, and upon one of such kinds of stock a dividend or dividends amounting to six or more than six per centum upon the par value thereon, has been made or declared, and upon the other no dividend has been made or declared, or the dividend or dividends made or declared thereon amount to less than six per centum upon the par value thereof, then the tax shall be fixed upon each kind as hereinbefore provided.

The dividend rate for a corporation having stock without nominal or par value shall be determined by dividing the amount distributed as a dividend or dividends during the year by the net value of its assets, as of December thirty-first.

Reports under this section for the year ending December thirty-first, nineteen hundred and twenty-two, shall include all dividends made or declared between October thirty-first, nineteen hundred and twenty-one, and January first, nineteen hundred and twenty-three, and such combined dividends shall be used in determining the rate to be applied to capital stock on which the dividend or dividends are six per centum or more.

Upon written application the state tax commission may, in its discretion, extend the time in which to make report, but not beyond the fifteenth day of March⁶ succeeding.

by any such municipality and of the water works of any water works company or of any person supplying water to them or any of them and such other matters, if any, as may be prescribed by the rules and regulations of the commission. The petition shall also state at what location or point in or for each municipality it is desired to have water supplied by works to be constructed.

Upon the receipt of such petition, the commission may in its discretion, and if it has funds available for such purpose, cause preliminary investigations, surveys, maps and plans to be prepared. If the commission thereupon finds that the physical conditions are unfavorable for the acquisition of a water supply and the construction of works for the supply of such union water district, or that the same would be excessively expensive, it shall so report, and in that case may in its discretion decline to take further action on such petition. If the commission shall deem it advisable so to do, it may make final investigations of the proposition and cause final surveys, plans, estimates of cost and specifications to be made and take any other steps incidental thereto.

Upon completion thereof the commission shall furnish the board of trustees of said union water district with copies of its report therein. Thereupon the commission shall set a time and place for a public hearing upon the petition and on such report and shall hear allegations and proofs for or against the same and after such hearing the commission shall determine whether an adequate supply of pure and wholesome water is obtainable at reasonable cost for serving all the municipalities within such union water district. In making such determination the commission shall consider the present and future necessities of municipalities and the inhabitants thereof not parties to the petition but whose sources of water supply might be affected or impaired by the project under consideration. The determination so arrived at shall be reported by the commission to each such municipality.

The purpose of such project shall be to supply water to central distributing points for each municipality. All reservoirs, standpipes, mains, pipes, valves, hydrants and appurtenances for the storage and distribution of water from such central points to consumers shall be such as may have been heretofore or may be hereafter constructed by or for each municipality as otherwise provided by law. The ownership, construction and maintenance of such municipal works, and the distribution and sale of water after the same leaves such central points shall be and remain under the duly constituted officers of each municipality as is now provided by law. All water shall be metered at such central points under the direction and control of the commission. The report of the commission if in favor of the project shall determine what proportion of the whole original cost of establishing¹³ water works for such union water district for delivery of water at such central points shall be borne by each municipality.

¹³ Word "conservation" omitted.

The pendency of a proceeding on the part of any municipality or water district for procuring an independent supply of water under any statute, shall not prevent such municipality or water district from taking part in the formation of a union water district as herein provided.

§ 532. **Submission of proposition.** Upon receiving from the commission the report, maps, plans, estimates of cost, and other information aforesaid, the board of trustees shall consider and either adopt or reject the same. If the board adopts the same, such adoption shall be certified by the board to each municipality included within such union water district, and thereupon there shall be submitted to the electors of each such municipality a proposition for issuing its bonds for its proportion of the estimated cost aforesaid. Such proposition shall be submitted within thirty days after receiving such certification from the board of trustees.

In case of a city, except as herein otherwise provided, such election shall be conducted according to the statutes applicable to the submission of a proposition for the establishment of an independent water supply for such city or for authorization of a bonded debt. In case of a village, except as herein otherwise provided, such election shall be conducted in the manner provided by article nine of the village law. In case of a water district, except as herein otherwise provided, such election shall be conducted as provided in article thirteen of the town law, but only electors resident within the water district shall participate in the election. Such proposition shall be deemed adopted by a municipality if a majority of all the votes cast at said election shall be cast in favor of the proposition. Except as otherwise provided herein, a municipality, when the issuance of such bonds has been authorized as herein provided, shall issue and sell the same in the manner now provided by law for the issuance and sale of bonds, except that the limitations now provided by law upon indebtedness of municipalities shall not apply to a debt incurred under the provisions of this section except as otherwise provided by the constitution of the state.

It shall be the duty of the proper authorities of such municipality to levy annually, in the manner now provided by law in case of bonds authorized to be issued by such municipality, such sum or sums as shall be necessary to meet the principal and interest upon the bonds issued as provided herein, or for the establishment of a sinking fund on account of the bonds so issued.

An affirmative vote in any municipality at an election held as aforesaid shall be binding for a period of two years. A negative vote in any municipality shall not be final as to said municipality, but the same proposition may be resubmitted not more than three times to the electors thereof and in such case not more than four months shall elapse between such resubmission unless an affirmative vote shall result. If the vote of any such municipality shall be in the negative four times, then such union water district shall cease to exist, except that in such case the municipalities voting in

the affirmative may through the said board of trustees apply to the commission to certify the proportion of cost which each such municipality should bear of such project, as the same should be modified by reason of the elimination of the municipalities voting in the negative, and on a report by the commission of such estimate, a proposition based thereon shall be submitted to each such municipality in the manner herein provided for the submission of an original proposition and in that case the provision aforesaid as to the issuance and sale of bonds shall apply as so modified. If in such case any municipality shall vote in the negative, no further proceeding shall be had upon such petition and said union water district shall cease to exist.

Upon the issuance and sale by a municipality of bonds as herein provided, the proceeds shall be deposited in a national or state bank or in a trust company by each municipality separately, but to the credit of the commission, and such moneys shall be used and paid out by the commission for the purposes herein provided. Such municipality shall select the depositories which shall agree to pay the highest rate of interest upon such deposit and the deposit shall be secured by bonds to the municipality approved by the commission. The interest accumulating upon such deposit shall be credited to the municipality making the same and shall be used by it in paying interest on its bonds issued as above provided. In withdrawing such deposits, the commission shall withdraw not more than one-half of the amount so deposited by any one municipality until one-half of the separate deposits of other municipalities shall have been withdrawn.

Upon concurrence of a sufficient number of municipalities by affirmative votes on submission of the proposition aforesaid and the deposit of an aggregate amount of money equal to the estimate of the cost reported as herein provided, the commission shall proceed to construct water works, as described in its report or as the same may after such hearing be modified, subject only to such minor changes in the design as circumstances may from time to time in the opinion of the commission require. Such works shall be known as union¹⁴ water-works.

§ 533. **Acquiring of lands.** The commission or its members or agents, and such other persons as may be necessary for the execution of the powers and duties herein provided,¹⁵ may enter upon any land or water for the purpose of making surveys, examinations and investigations for preparing the maps, plans, specifications and reports herein provided for, and the persons damaged thereby shall be entitled to file claims therefor with the court of claims and recover against the state such damages.

The commission shall have the power to purchase and take possession of in the name of the people of the state of New York and to be held by said people for the purposes authorized by this article or to acquire in the same name by condemnation as here-

inafter provided for such purposes, all lands above or under water and structures and to acquire and take in the same name and manner and divert and use waters, public or private, deemed by the commission to be necessary for said purposes. If the commission shall be unable to agree with the private owner of lands and properties for the purchase thereof or with private owner of frontage along waters for acquiring of the right to divert such waters or to agree with the private owner of lands for acquiring of easements in, over or against such lands, the same may be acquired by the commission by condemnation as follows:

An accurate survey of the lands so acquired or of lands in, over or against which any easement is so required, shall be made and a map thereof shall be prepared accompanied with an accurate description of the said lands, rights and easements so required, which description shall state the volume of water to be taken or diverted where less than the whole flow of any stream or water is to be taken or diverted and of the period during which such lands are to be held or such waters used or diverted and a sufficient description of any other easements in, over or against such lands, so as to describe with common certainty the lands, rights or easements to be taken, and the same shall be certified by the commission and filed in the office of the commission¹⁶ and a duplicate thereof made and recorded in the office of the clerk of the county within which any lands taken or affected are situated. Thereupon the commission may apply to the supreme court within the judicial district containing such lands for the appointment of commissioners of appraisal to determine the amount of compensation to be paid by the commission for the property to be so appropriated and, except as otherwise provided in this article, the provisions of title one of chapter twenty-three of the code of civil procedure known as the condemnation law shall apply to and govern the procedure on such application and regulate the fixing and payment of the compensation to be made. The commission may in its discretion unite in one petition to said court, applications to acquire several such properties or all the separate properties sought to be taken for any one project carried on under this article.

Such petition shall be accompanied by a duplicate of the map and descriptions of the properties to be taken and required to be filed as aforesaid.

On the appointment of commissioners of appraisal and the taking and filing of official oaths by them as required by the condemnation law in case of such application, the commission may enter upon and take possession of and use, for the purposes herein authorized, the lands and properties described in such petition and the said maps and statements accompanying the same. Said petition and the said duplicate map and statements filed therewith shall be conclusive evidence of the boundaries of the lands to be appropriated and of the extent and nature of any rights and easements described therein to be taken. This provision for compensation shall not be construed to require pay-

¹⁶ Word "commission" substituted for words "state engineer and surveyor."

ment of compensation except to the extent of the legal rights of such private owners and according to the legal measure of damages and there shall be no presumption that the lands and property rights so described are privately owned.

In case any lands or rights as hereinbefore described are owned by the public not including the lands and waters of the canals and lands within the forest preserve, and the acquisition thereof for the purposes herein described shall be necessary, the same may be entered upon and used by the commission and if the same were at the time of such taking the separate property or under the jurisdiction of any county or other municipality or other civil division of the state or contain improvements made by them, a just and fair sum on account of such taking may be agreed upon by the commission and the governing board or body of such county, municipality or civil division and the amount thereof shall be paid over by the commission to the proper officers of such county, municipality or civil division on the execution and delivery to the commission of an appropriate conveyance describing the lands and rights so taken and in case such amount cannot be agreed upon the same shall be fixed and determined by three commissioners to be appointed by the supreme court within the judicial district where said lands affected are located on application either by the commission or the proper authorities of such county, municipality or civil division on notice to the other and when the determination of such commissioners shall be confirmed by said court the sum so affixed and determined upon shall be paid by the commission.

Any diversion right now exercised for private purposes and under which public waters are diverted under any gratuitous franchise, express or implied, or franchise terminable at will as against the user, shall be and be deemed to be revoked when and to the extent that the waters subject to diversion are in the opinion of the commission, to be so certified by order to be made by it, needed for public water supply as herein provided. The commission shall have the right, subject, in case of state improved highways, to the approval of the state commission of highways, to relocate highways which are within lands to be flowed by works constructed hereunder and shall have the right to lay pipes or conduits for conveyance of water along or across any highway or other public place and across any railroad, canal, transmission or other way devoted to public use, but the same shall be restored to its former condition of usefulness. The commission shall have power to apply in behalf of the state under any law of congress for permission to divert waters from any Indian lands when required for furnishing public water supply for a union water district.

Whenever it shall be necessary to appropriate lands occupied by graves, burial places, cemeteries or other places of interment of human remains, the same may be acquired in the same manner as other lands as herein provided and where the same is to be acquired by condemnation, service of notice of the time and place

of presentation of the petition upon a person, corporation or other governing board, body or officer having possession, ownership or exercising control thereof, or service thereof in such manner or upon such other persons as shall be specially directed by the court, shall be sufficient. But such lands shall not be entered upon by the commission in such case until after judgment adjudging that the condemnation thereof is necessary for the purposes herein specified shall be rendered, nor until the special provisions of such judgment as to the removal and reinterment of the human remains in said lands shall be complied with by the commission and the judgment shall require that such remains be removed to some other appropriate lands or places to be specified in said judgment including the removal and replacing of all marks distinguishing the persons so interred and the removal, transportation and reinterment of such remains shall be made in accordance with the provisions of the public health law and the local rules or ordinances of any city, village or town wherein the lands containing such remains or lands in which they shall be reinterred are located. Upon completing the work of reinterment the commission shall convey an appropriate right and title in the lands acquired by it for such reinterment, to the person, corporation or governing board or officer, if any, formerly owning possession or controlling the property from which said remains were removed. If there be no such person, corporation or other governing board or officer, the commission shall, as part of the expense of the project prosecuted by it, maintain the property acquired for such reinterment as a cemetery. The lands required for such reinterment shall be deemed to be required for the purposes of the project authorized by this article.

Before any lands are acquired by purchase or any condemnation proceedings instituted or any expenditure made for excavation or construction hereunder, the commission shall cause a general map to be made and filed in the office of the commission¹⁷ and furnish a certified copy thereof to each municipality a member of a union water district, which map shall show the lands necessary to be acquired and waters necessary to be diverted, and shall show the lands needed for rights of way and for the location of reservoirs and central points of delivery of water, and the commission shall cause general plans of all construction and excavation work to be made and filed, and copies thereof furnished in the same manner.

§ 534. **Letting of contracts; construction work.** All excavation and construction work shall be performed under contracts based upon maps, plans and specifications and estimates of quantities made by direction of the commission as hereinbefore provided, and any contract for performance of the whole work to be done or material, based upon any one petition or any contract for any part of such work or materials shall be let to the lowest responsible bidder after public notice of such letting, to be given by advertising the same once in each week for four weeks immediately preceding the day fixed for the receiving of bids and one such notice

shall be published in a newspaper printed within each of the counties wherein any part of such work is to be performed. The requirements of the state finance law and the labor law as to the form and contents of public contracts in respect to the requirements of bonds from contractors to secure faithful performance and completion of the work shall apply to all contracts let under the provisions of this article.

If in the judgment of the state engineer and surveyor any work is not being performed according to the contract or for the best interests of the public, he shall so certify to the commission and the commission shall thereupon have power to suspend or stop the work under such contract while it is in progress, and to provide for completion of the same in such manner as will accord with the contract specifications and for the best interests of the public, or the contract may be cancelled and readvertised and relet in the manner herein prescribed and any excess in the cost of completing the work beyond the price charged for which the same was originally awarded, shall be charged to and paid by the contractor failing to perform the work.

If at any time in the conduct of the work under any contract it shall become apparent to the state engineer and surveyor that any item in the contract will exceed in quantity the engineer's estimate by more than fifteen per centum, he shall so certify to the commission and the commission shall thereupon determine whether the work in excess thereof shall be completed by the contractor under the terms and at the prices specified in the contract or whether it shall be done by the commission or whether a special contract shall be made for such excess in the manner above prescribed. Every contract made hereunder shall reserve to the commission the right to suspend or cancel the contract as above provided and to complete the work or readvertise or re-let the same as the commission may determine and reserve to the commission the right to enter and complete any item of the contract which shall exceed in quantity the engineer's estimate by more than fifteen per centum or to make a special contract for such excess as the commission may determine. All excavation and construction work shall be performed under the supervision of the state engineer and surveyor, and all payments upon contracts shall be made upon estimates to be made by him.¹⁸

§ 535. **Maintenance and operation of works.** Upon completion of any union¹⁹ water works as provided hereunder, the commission shall maintain and shall operate the same and shall guard the waters from contamination. The commission shall cause records to be kept of the quantity of water delivered to the central points and the same shall be measured by meter to each municipality and the commission shall render to each municipality in a

union water district annually as of the first day of January a statement of the quantity so delivered for the calendar year last preceding.

If the quantity of water so delivered exceeds the aggregate quantity due to a municipality based on the rate of one hundred and twenty-five gallons per diem to each actual inhabitant thereof as shown in the petition herein provided, then a charge shall be made to such municipality for such excess and at such rate per million gallons as the commission shall determine. Payment for such excess by such municipality shall be made on or before July first of each calendar year to the commission. The commission shall annually apportion the whole sum so received among the municipalities in proportion to the amount which each has contributed to the cost of the union¹⁹ water works and shall promptly pay to each municipality its share thereof. Upon the completion and placing in operation of such water works, the commission shall employ such superintendent and assistants as it deems necessary for the proper and economical operation and administration thereof, and shall purchase and supply such materials and labor as are necessary in the maintenance, repair and operation. The commission shall cause an accurate account of all such expenses to be made and kept and shall report the same annually in the month of January for the calendar year last past.

The commission may from time to time, upon temporary loan certificates to be issued by it, borrow such sums as may be necessary to carry on such operation and maintenance. Such certificates shall bear interest at the rate of six per centum and shall be sold at not less than par and each municipality within a union water district shall be liable for its share of such expense in the proportion which it contributed to the original cost of the works. The annual amounts for such expenses, as apportioned by the commission, shall be paid by each municipality on the first day of March following the calendar year in which the said expenses were incurred. Interest to March first shall be included in the sum annually reported by the commission for such expense. A member of the board of trustees of a union water district shall be reimbursed by his municipality for his actual and necessary expenses and disbursements paid or incurred by him in the performance of his duties, upon vouchers audited and approved in the manner provided by law for other claims against such municipality.

§ 536. **Cost and expenses.** If the cost of a union¹⁹ water works exceeds the original estimate of the commission, the excess shall be borne among the municipalities according to the proportion which each contributed to the estimated cost and the same shall be raised by each municipality in a manner to be determined by it and the said sum paid over to the²⁰ commission. If the total cost of such construction shall be less than the cost as estimated and as raised by the municipalities, such excess shall be refunded to said municipalities by the²⁰ commission ratably as the same was

contributed, and when so refunded, the same shall be used by said municipalities to retire the bonds issued by them or paid into the sinking fund for the retirement of said bonds.

All costs and expenses on the part of the state of New York, including the expense of engineering or other professional services incurred on account of the construction of union²¹ water works or the acquiring of lands and diversion rights shall be deemed a part of the cost thereof to be borne by the municipalities in a union water district, and shall be estimated as part of the expense and shall be paid from the funds raised by said municipalities for said purpose.

§ 537. **When other municipalities may participate; regulations.** Any municipality originally eligible to membership in a union water district and not a member thereof, may on a majority vote of the governing board or body of such municipality, or in case of a water district, the town board may apply by petition to the commission and to the trustees of such union water district to become a member of such union water district. If the commission and the board of trustees approve the petition the commission shall estimate and determine the cost of additional construction to provide for service of water to such municipality from the union²¹ water works, and shall likewise estimate and determine what share of the original cost thereof should be paid by such petitioning municipality and shall report the same to it and to the board of trustees. Such municipality shall thereupon in the manner hereinbefore provided in the original formation of a union water district determine whether it will issue bonds to cover the aggregate amount so reported and if the same is determined in the affirmative, bonds shall be issued and sold by such municipality and the proceeds raised and deposited and taxes imposed for the retirement of such bonds issued, in the same manner as in case of the original organization of a union water district. The proceeds of such bonds issued shall be deposited to the credit of the commission for the purposes of this act in the manner hereinbefore provided. Upon the deposit of such funds, such municipality shall thereupon become a member of such union water district and shall be supplied with water from such union²¹ water works.

The funds so deposited by said municipality shall be disposed of as follows: The estimated cost of the additional construction due to each municipality becoming a member of a union water district shall be deducted; the remainder shall be apportioned to each municipality in the district including the municipality thus last added thereto, in the proportion in which each has contributed to the cost of the union²¹ water works, and the commission shall as soon as possible pay to each municipality its share thereof. All sums so received by each municipality shall be applied by it to the payment of the principal of any outstanding bonds which it may have issued for the construction of union²¹ water works.

²¹ Word "union" substituted for word "conservation."

§ 538. **Sale of water by commission.** The commission, with the unanimous consent of the board of trustees of a union water district, may sell water by meter to water works companies or others, exclusive of municipal corporations, provided such water is for use or resale in territory outside that of any municipality in such district and provided that no additional construction connected with the union²¹ water works shall be necessitated by reason of such sale, except for the installation of meters to measure water so sold and for meter houses and for not exceeding five hundred feet of pipe lines for connections to each of such meters.

Contracts for such sale shall be limited to periods of five years from the time of making the same, and upon the expiration thereof, new contracts so limited may be made in like manner.

The receipts from such sales shall be applied, first, to the installation of meters and appurtenances above named, and the remainder shall be distributed among the municipalities which are members of the union water district, and in the proportion in which each has contributed to the cost of the union²¹ water works.

§ 539.²² **Definitions.** The term "chief executive officer of a municipality" as used in this article shall in the case of a city be deemed to refer to the mayor thereof; in case of a village, the village president; in case of a town, the supervisor; in case of a water district, the supervisor of the town within which such district or the major part thereof is located.

§ 4. Sections five hundred and forty-one, five hundred and forty-two, five hundred and forty-five and five hundred and forty-seven of said chapter, as amended²³ by chapter five hundred and fifty-one of the laws of nineteen hundred and twenty, are hereby amended to read as follows:

§§ 541,
542, 545,
547, as
added by
L. 1920,
ch. 531,
amended.

§ 541. **Municipal corporations must apply for approval of project.** Any publicly owned water supply project involving the construction of a reservoir on forest preserve lands must be submitted for approval to the²⁴ commission as provided in article nine of this chapter, and the procedure on such an application shall be as therein set forth except as to the additional requirements and further procedure required by this article.

§ 542. **Petition for approval of project and procedure thereon.** The petition for approval of such a project must state that it is desired to construct a reservoir on state owned forest preserve lands, giving a description of the location and extent of the lands to be occupied or flooded, and shall be accompanied by a map, based on accurate surveys, showing the boundaries of such land and the high flow line of the water to be impounded thereon. The public notice given pursuant to section five hundred and twenty-two of this chapter shall state that it is proposed to construct a reservoir on state owned lands within the

forest preserve. In addition to the determinations required by section five hundred and twenty-two of this chapter, the commission shall also determine whether the needs of the applicant for a supply of water are such as to require the proposed public use of said lands, whether the plans are such that unsanitary conditions will not be created thereby and whether the constitutional limitation as to the amount of such land that can be used for reservoir purposes will not be exceeded. If said application is approved, the commission shall apportion the expenses of the proposed project on the public and private property to be benefited thereby, such apportionment to be to the extent of the benefits received by such property; it shall also fix the amount to be paid to the state by the property and municipalities benefited. Such amount to be paid to the state to be computed as follows:

(1) The value of the state owned timber and other forest products to be removed during the construction of the project; such amounts to be due on the cutting of such timber or other products and such material to become the property of the applicant on the payment of such amount to the state. The commission may direct that the amount due be paid in one lump sum or may permit partial payments to be made in such amounts and at such times as may be specified.

(2) A charge of six per centum²⁵ per annum on the value of the state owned lands and rights used, unimproved and bare of timber; this value to be determined by the commission and to be redetermined by it at intervals of ten years from the date of approval of the application. The amount of this charge for any year to be due and payable on the first day of January of the succeeding year and to be computed from the day of the actual entry of the applicant or the commission on the state owned land, or any parcel thereof, for the purpose of beginning clearing or construction work.

(3) An annual charge, to be determined, re-determined and to be payable as provided in paragraph (2) above, which shall be fixed by the commission as a reasonable return to the state for its services rendered.

A statement of all these matters shall be included in the decision of the commission approving the application. All acts of the commission in connection with such a water supply application shall be reviewable by writ of certiorari as provided in section five hundred and twenty-two of this chapter.

§ 545. Supervision of construction and operation. All construction work which the commission is authorized to undertake by virtue of the provisions of this article shall be done under the direction of the²⁶ state engineer and surveyor. After the works shall have been constructed, they shall thereafter be maintained

and operated for the benefit of the applicant by the ²⁷ state engineer and surveyor under the direction of the commission. All costs of such supervision and maintenance shall be paid by the applicant in the manner specified in section five hundred and forty-four of this article, except that the applicant shall not be charged with the salaries and expenses of such officials and regular employees of the state ²⁸ as, in addition to other duties, exercise only general supervision over the work done under the provisions of this article. For carrying out the provisions of this article the commission is authorized to employ such engineers and other persons as may in its judgment be necessary and to fix their compensation; such compensation shall be paid ²⁹ by the applicant.

§ 547. **Reservoir to be kept in repair.** The reservoir and appurtenant works shall be kept in safe, sanitary and serviceable condition and to this end shall be repaired, remodeled or additional work done thereon at the request of the applicant or as required by the ³⁰ commission. All such work shall be done by the commission at the expense of the applicant. If the applicant shall at any time determine that its needs for an additional supply of water require the enlargement of the reservoir in order that a greater quantity of water can be stored therein or drawn therefrom, a new water supply application shall be made to the ³⁰ commission asking for approval of the desired modifications of the original plans.

§ 5. This act shall take effect immediately.

He shall carefully examine the certificates received monthly from the registrars, and if any such are incomplete or unsatisfactory he shall require such further information to be supplied as may be necessary to make the record complete and satisfactory. All physicians, midwives, undertakers, or informants, and all other persons having knowledge of the facts, are hereby required to supply, upon a form provided by the state commissioner of health or upon the original certificate, such information as they may possess regarding any birth or death upon demand of the state commissioner of health, in person, by mail, or through the registrar; provided, that no certificate of birth or death, after its acceptance for registration by the registrar, and no other record made in pursuance of this article, shall be altered or changed in any respect otherwise than by amendments properly dated, signed and witnessed. The state commissioner of health shall arrange, and permanently preserve the certificates in a systematic manner, and shall prepare and maintain a comprehensive and continuous typewritten or printed¹ index of all births and deaths registered; said index to be arranged alphabetically, in the case of deaths, by the names of decedents, and in the case of births, by the names of fathers or mothers if born out of wedlock. He shall inform all registrars what diseases are to be considered infectious, contagious, or communicable and dangerous to the public health, as decided by the public health council, in order that when deaths occur from such diseases proper precautions may be taken to prevent their spread.

§ 2. Section three hundred and eighty-nine² of chapter forty-nine of the laws of nineteen hundred and nine, entitled "An act in relation to the public health, constituting chapter forty-five of the consolidated laws," as amended by chapter two hundred and thirteen of the laws of nineteen hundred and nineteen, is hereby amended so as to read as follows:

§ 389. **District records to be kept by registrar.** Each registrar shall supply blank forms of certificates to such persons as require them. Each registrar shall carefully examine each certificate of birth or death when presented for record in order to ascertain whether or not it has been made out in accordance with the provisions of this act and the instructions of the state commissioner of health; and if any certificate of death is incomplete or unsatisfactory, it shall be his duty to call attention to the defects in the return, and he may³ withhold the burial or removal permit until such defects are corrected. All certificates, either of birth or death, shall be written legibly, in durable black ink, and no certificates shall be held to be complete and correct that

does not supply all of the items of information called for therein, or satisfactorily account for their omission. If the certificate of death is properly executed and complete, he shall then issue a burial or removal permit to the undertaker; provided, that in case the death occurred from some disease which is held by the public health council to be infectious, contagious, or communicable and dangerous to the public health, no permit for the removal or other disposition of the body shall be issued by the registrar, except to an undertaker licensed under section two hundred and ninety-five of the public health law, under such conditions as may be prescribed by the state public health council. If a certificate of birth is incomplete, the local registrar shall immediately notify the informant, and require him to supply the missing items of information if they can be obtained. He shall number consecutively the certificates of birth and death, in two separate series, beginning with the number one for the first birth and the first death in each calendar year, and sign his name as registrar in attest of the date of filing in his office. He shall also make a complete and accurate copy of each birth and each death certificate registered by him in a record book supplied by the state commissioner of health, to be preserved permanently in his office as the local record, in such manner as directed by the commissioner of health. Within ten days after receiving the certificate of any legitimate⁴ birth he shall furnish⁵ to the parents or guardian of the child a certificate of registration, to be made out on a form which shall be furnished by the state commissioner of health; except that the issuance of such certificate of registration may be postponed until the child's given name is also registered; and such certificate of registration shall be accepted by public authorities in this state for the purposes indicated in section three hundred and eighty-eight of this chapter in the same manner as certified copies of birth certificates; he shall also make a notation on his copy of the original birth certificate indicating the date of issuance of such certificate of registration. He shall, on the fifth day of each month, transmit to the state commissioner of health all original certificates registered by him for the preceding month. If no births or no deaths occurred in any month, he shall on the fifth day of the following month, report that fact to the state commissioner of health on a card provided for such purpose.

AN ACT to amend the highway law, in relation to county aid for construction and improvement of highways through incorporated villages.

Became a law April 1, 1922, with the approval of the Governor. Passed, three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Chapter thirty of the laws of nineteen hundred and nine, entitled "An act relating to highways, constituting chapter twenty-five of the consolidated laws," is hereby amended by inserting therein, after section three hundred and twenty-d, a new section, to be section three hundred and twenty-e, to read as follows:

§ 320-e
added to
L. 1909,
ch. 30.

§ 320-e. **County aid for connecting highways through villages.** The board of supervisors of a county may, upon the petition of the board of trustees of an incorporated village, provide for the construction or improvement of a highway or section thereof, through such village, at the joint expense of the county and village. The board of supervisors shall determine the portion of the cost of the construction and improvement of such highway to be borne by the county and the portion to be borne by the village. The portion to be borne by the village shall be a village charge and the residue shall be a county charge. The amount to be borne by the county shall be provided by tax, to be levied upon the taxable property of the county and collected in the same manner as other county charges and shall be paid into the county treasury and such tax shall not be reported as a basis for state aid as provided by section three hundred and twenty-b of this chapter. The board of supervisors may, in its discretion, appropriate and make immediately available from county funds, the portion of the moneys to be borne by the county. If it shall determine that sufficient moneys are not available, after defraying other county expenses, it may direct the county treasurer to borrow the same in anticipation of taxes or it may authorize the issue and sale of bonds therefor, to be issued and sold in the same manner as other county bonds. No such highway shall be so constructed and improved through a village, except to connect a highway improved pursuant to the provisions of sections three hundred and twenty, three hundred and twenty-a or three hundred and twenty-b of this chapter with a state or county highway, or county road, or to connect with another town highway improved pursuant to the provisions of section three hundred and twenty, three hundred and twenty-a or three hundred and twenty-b of this chapter. Such construction shall not be commenced until the portion to be borne by the village, as determined by the board of supervisors, has been deposited in the county treasurer's office of such county. The construction or improvement of a highway, as herein provided, shall be done under the supervision and direc-

tion of the district or county superintendent of highways or of a committee known as the highway officials of the county, to consist of the county superintendent, three members of the board to be appointed by the chairman and the supervisor of the town in which road is being improved. Payments therefor shall be made from time to time by the county treasurer upon the certificate of the district or county superintendent, approved by the chairman of the board of supervisors. A highway within a village constructed or improved as herein provided, shall be of the same width and type of construction as such town highways so improved by the aid of the county outside the village, unless a greater width or different type of construction is desired by the village. The additional expense caused by the increased width or different type or both, shall be borne wholly by the village. Any such highway, when completed, shall thereafter be repaired and maintained by the village wherein such highway is located in the same manner as all other village highways.

§ 2. This act shall take effect immediately.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

L. 1909,
ch. 33,
§ 321, as

L. 1916,

Section 1. Section three hundred and twenty-one of chapter thirty-three of the laws of nineteen hundred and nine, entitled "An act in relation to insurance corporations, constituting chapter twenty-eight of the consolidated laws," as added by chapter fourteen of the laws of nineteen hundred and sixteen and last amended by chapter five hundred and sixty-three of the laws of nineteen hundred and twenty,² is hereby amended to read as follows:

§ 321. **Completion of organization.** No such declaration of intention and proposed charter shall be filed with the superintendent of insurance unless the persons filing the same shall previously have published twice a week for three successive weeks, or once a week for six successive weeks, in a public newspaper in the county in which its principal office is to be located a notice of their intention to form such a corporation. Upon receipt from the superintendent of insurance of a certified copy of the declaration of intention to form a corporation, the persons signing such declaration may open books to receive applications for membership therein. No such corporations shall issue any policies

of insurance unless, and until, at least one thousand persons owning not less than one thousand automobiles have agreed to become members of such corporation, and have applied for, and agreed to take insurance therein, covering one or more of the kinds of insurance specified in section three hundred and twenty; nor until such persons have paid into the corporation at least five dollars each, amounting in the aggregate to at least five thousand dollars, as evidence of their good faith, such amounts to be credited against such members' first year's premiums; nor unless the annual premium cost of the insurance thus agreed to be taken shall be not less than forty thousand dollars at the rates charged by the company, nor until the president and secretary of the company shall have certified under oath to the superintendent of insurance that every such application for insurance is genuine, that each applicant has paid into the corporation at least five dollars, that the annual premium cost of the insurance agreed to be taken is not less than forty thousand dollars and that the applications received have been accepted by and are satisfactory to such corporation. If such officers shall make a false oath relative to the matters required to be certified, they shall be guilty of perjury. No certificate of authority shall be issued to such corporation until the superintendent of insurance shall be satisfied by an examination of the corporation or otherwise that the applications for membership are bona fide, each of which applications shall be in the form approved by the superintendent of insurance and shall state that the applicant agrees to accept and take the policy of insurance referred to therein within a period of thirty days from the date of the issuance to the corporation by the superintendent of insurance of a certificate of authority to transact the business of insurance specified in this article, provided that such certificate of authority is issued within six months from the date on which such application is received. If at any time it shall appear from an examination of such corporation, or from any statement filed by it, that the premium cost of the insurance on existing policies falls below forty thousand dollars, the superintendent of insurance shall issue an order directing the corporation, within a period of ninety days thereafter, to secure bona fide applications for insurance in the corporation, the premium cost of which insurance, together with the premium cost of existing policies, shall be not less than forty thousand dollars. In the event that such applications for insurance shall not be obtained within such period, the superintendent of insurance may, in his discretion, take the proceedings for the liquidation of such corporation under section sixty-three of this chapter.

The members of the corporation shall be policyholders therein, and when any member shall cease to be policyholder, he shall cease at the same time, to be a member of the corporation. A corporation, partnership, association or joint stock company may become a member of such insurance corporation, and may authorize any person to represent it in such insurance corporation, and such representative shall have all the rights of any individual

member; but neither the representative nor the said corporation, partnership, association or joint stock company shall be subject to any greater liability than as if an individual member.

Such corporation may borrow, or agree to repay, any reasonable sum or sums of money, not exceeding five thousand dollars, used to defray the expenses of its organization, or any sum or sums of money deemed necessary to be provided for the purposes of enabling it to comply with any requirement of the law. Any director, officer or member of such corporation, or any other person, firm or corporation, may loan or advance to such corporation any such sum or sums of money, upon an agreement that the same with interest at a rate not to exceed six per centum per annum shall be repaid only out of surplus earnings or profits of such corporation with the approval of the superintendent of insurance whenever, in his judgment, the financial condition of the corporation warrants it, except that such approval shall not be withheld if after such repayment shall be made, such corporation shall have and be in possession of a surplus equal to ten per centum or more of its gross annual premium income. Such surplus, however, shall be ascertained for the purposes of such repayment, upon the basis of the unearned premium reserve being charged at a sum equal to one hundred per centum of the unearned portion of the gross premiums charged to policyholders for the policies in force from their dates of issue. Any such sum or sums shall not form a part of the legal liabilities of the corporation, but until repaid all statements filed with the superintendent of insurance shall show the amount thereof.

§ 324, as
added by
L. 1916,
ch. 14, and
amended
by L. 1919,
ch. 390,
amended,

§ 2. Section three hundred and twenty-four of such chapter, as added by chapter fourteen of the laws of nineteen hundred and sixteen and amended by chapter three hundred and ninety of the laws of nineteen hundred and nineteen, is hereby amended to read as follows:

§ 324. **Assets; liabilities; reserves; suspension; cancellation and reinstatement of certificate; expenses.** When an examination is made by the authority of the superintendent of insurance into the affairs of any such corporation, or any such corporation renders a statement to the insurance department, the superintendent shall allow as assets only such investments as are authorized by the existing laws of this state in relation to stock insurance companies at the date of such examination or of rendering such statement, but unpaid premiums on policies or renewals written within three months shall be admitted as available resources. In estimating the liabilities for the first five years after such corporation has commenced the business of writing insurance, there shall be charged a sum equal to eighty per centum of the unearned portion of the gross premiums charged to its policyholders for the policies in force from their dates of issue; during the sixth year such liability shall be computed at eighty-five per centum of the unearned portion of the gross premiums so charged, and thereafter such per centum shall be increased five per centum annually until the full one hundred per centum of such unearned

portion of the gross premiums is reached which per centum shall thereafter be maintained. In all other respects, such corporation shall be required to maintain the same reserves for the protection of policyholders, and others who may have a right of action directly against such corporation, as are required to be maintained by stock insurance corporations in relation to the same class of insurance. The superintendent of insurance may suspend or cancel the certificate issued by him, authorizing such corporation to transact such insurance business, at any time, when the assets of such corporation are insufficient to insure and secure the payment of its policy and other obligations; and the superintendent of insurance may reinstate, or renew, said certificate whenever, by assessment, or otherwise, said assets have been increased to a sum sufficient to insure and secure the payment of the policy and other obligations of such corporation. The expenses of management of such corporation shall not exceed in any one calendar year thirty-five per centum of its premium income in such year, but the expenses of management shall not be held to include taxes and expenses incurred in the investigation, adjustment and settlement of claims.

§ 3. Section three hundred and twenty-five of such chapter, as added by chapter fourteen of the laws of nineteen hundred and sixteen and amended by chapter three hundred and ninety of the laws of nineteen hundred and nineteen, is hereby amended to read as follows:

§ 325, as
added by
L. 1916,
ch. 14, and
amended by
L. 1919,
ch. 390,
amended.

§ 325. **Dividends.** The board of directors may from time to time fix and determine the amount to be declared and paid as a dividend, upon policies expiring during each year after retaining sufficient sums to pay all outstanding policy and other obligations. Such dividends shall not take effect or be distributed until approved by the superintendent of insurance, after such investigation as he may deem necessary, but in no event shall such dividends be declared or paid unless the surplus of the corporation is ascertained for the purposes of such dividend upon the basis of the unearned premium reserve being charged at a sum equal to one hundred per centum of the unearned portion of the gross premiums charged to policyholders for the policies in force from their dates of issue.

§ 4. Section three hundred and twenty-six of such chapter, as added by chapter fourteen of the laws of nineteen hundred and sixteen, is hereby amended to read as follows:

§ 326, as
added by
L. 1916,
ch. 14,
amended.

§ 326. **Assessments.** The corporation shall in its by-laws and policies fix the contingent mutual liability of the members for the payment of losses and expenses not provided for by its cash funds; but such contingent liability of a member shall not be less than an amount equal to twice the amount of, and in addition to the cash premium written in the policy. If the corporation is not possessed of cash funds above its unearned premiums sufficient for the payment of incurred losses and expenses, as estimated or determined, it shall make an assessment for the amount needed to pay such losses and expenses upon the members liable to assess-

ment therefor, in proportion to their several liability. Every member shall be liable to pay and shall pay his proportionate part of any assessment which may be laid by the corporation in accordance with law and his contract, covering any deficiency (excess of liabilities over admitted assets) incurred while he was a member if he is notified of such assessment within one year after the expiration or cancellation of his policy. Each member's share of the deficiency incurred in any year for which an assessment is made shall be determined by applying to the premium earned on the member's policy during such year the ratio of the total deficiency for the year to the total earned premiums of that year subject to assessment. All proposed premium assessments shall be filed in the insurance department and shall not take effect until approved by the superintendent of insurance, after such investigation as he may deem necessary. All funds of the corporation and the contingent liability of the members thereof, shall be available for the payment of any liability of the corporation.

§ 327, as
added by
L. 1916,
ch. 14,
amended.

§ 5. Section three hundred and twenty-seven of such chapter, as added by chapter fourteen of the laws of nineteen hundred and sixteen, is hereby amended to read as follows:

§ 327. **Reports to and examinations by superintennent of insurance; filing of policy forms.** Every such corporation shall make reports to the superintendent of insurance at the same times and in the same manner as are required from stock insurance companies transacting the same kind of business, and the superintendent of insurance may examine into the affairs of such corporation at any time, either personally or by any duly authorized examiner appointed by him, and the superintendent of insurance must make such an examination into the affairs of said corporation at least once in every two years.

No such corporation shall issue any policy of insurance until a copy of the form thereof has been filed with the superintendent of insurance.

Upon receipt of a certified copy of the certificate of incorporation from the superintendent of insurance, the persons signing such certificate may open books to receive applications for membership therein. If such officers shall make a false oath relative to the matters required to be certified, they shall be guilty of perjury. No certificate of authority shall be issued to such corporation until the superintendent of insurance shall be satisfied by an examination of the corporation or otherwise that the applications for membership are bona fide, each of which applications shall be in the form approved by the superintendent of insurance and shall state that the applicant agrees to accept and take the policy of insurance referred to therein within a period of thirty days from the date of the issuance to the corporation by the superintendent of insurance of a certificate of authority to transact the business of insurance specified in this article, provided that such certificate of authority is issued within six months from the date on which such application is received. If at any time it shall appear from an examination of such corporation, or from any statement filed by it, that the premium cost of the insurance on existing policies falls below one hundred thousand dollars, the superintendent of insurance shall issue an order directing the corporation, within a period of ninety days thereafter, to secure bona fide applications for insurance in the corporation, the premium cost of which insurance, together with the premium cost of existing policies, shall be not less than one hundred thousand dollars. In the event that such applications for insurance shall not be obtained within such period, the superintendent of insurance may, in his discretion, take the proceedings for the liquidation of such corporation under section sixty-three of this chapter.

The members of the corporation shall be policyholders therein, and when any member shall cease to be a policyholder, he shall cease at the same time to be a member of the corporation. A corporation, partnership, association or joint stock company, may become a member of such insurance corporation, and may authorize any person to represent it in such insurance corporation, and such representative shall have all the rights of any indi-

vidual member; but neither the representative nor the said corporation, partnership, association or joint stock company shall be subject to any greater liability than as if an individual member.

Such corporation may borrow, or agree to repay, any reasonable sum or sums of money, not exceeding five thousand dollars, used to defray the expenses of its organization, or any sum or sums of money deemed necessary to be provided for the purposes of enabling it to comply with any requirement of the law. Any director, officer or member of such corporation, or any other person, firm or corporation, may loan or advance to such corporation any such sum or sums of money, upon an agreement that the same with interest at a rate not to exceed six per centum per annum shall be repaid only out of surplus earnings or profits of such corporation with the approval of the superintendent of insurance whenever, in his judgment, the financial condition of the corporation warrants it, except that such approval shall not be withheld if after such repayment shall be made, such corporation shall have and be in possession of a surplus equal to ten per centum or more of its gross annual premium income. Such surplus, however, shall be ascertained for the purposes of such repayment, upon the basis of the unearned premium reserves being charged at a sum equal to one hundred per centum of the unearned portion of the gross premiums charged to policyholders for the policies in force from their dates of issue. Any such sum or sums shall not form a part of the legal liabilities of the corporation, but until repaid all statements filed with the superintendent of insurance shall show the amount thereof.

by L. 1919,
ch. 359,

§ 7. Section three hundred and forty-four of such chapter, as added by chapter thirteen of the laws of nineteen hundred and sixteen and amended by chapter three hundred and eighty-nine of the laws of nineteen hundred and nineteen, is hereby amended to read as follows:

§ 344. **Assets; liabilities; reserves; suspension; cancellation and reinstatement of certificates; expenses.** When an examination is made by the authority of the superintendent of insurance into the affairs of any such corporation, or any such corporation renders a statement to the insurance department, the superintendent shall allow as assets only such investments as are authorized by the existing laws of this state in relation to stock insurance companies at the date of such examination or of rendering such statement, but unpaid premiums on policies or renewals written within three months shall be admitted as available resources. In estimating the liabilities for the first five years after such corporation has commenced the business of writing insurance, there shall be charged a sum equal to eighty per centum of the unearned portion of the gross premiums charged to its policyholders for the policies in force from their dates of issue; during the sixth year such liability shall be computed at eighty-five per centum of the unearned portion of the gross premiums so charged, and thereafter such per centum shall be increased five per centum

annually until the full one hundred per centum of such unearned portion of the gross premiums is reached which per centum shall thereafter be maintained. Such corporation shall also be required to maintain a reserve for outstanding losses on the same basis as is required of stock insurance companies in relation to the same classes of insurance except that until the total premium income of such corporation exceeds the sum of five hundred thousand dollars per annum, the reserve for all liability policies shall be computed as follows:

1. For all liability policies written during the three years immediately preceding the date as of which the statement is made, such reserve shall be fifty per centum of the earned liability premiums of each of such three years less all loss and loss expense payments made under liability policies written in the corresponding years. After the year nineteen hundred and twenty-two for existing corporations and after the first full calendar year for all corporations hereafter organized, such fifty per centum shall be increased one per centum for each succeeding calendar year over the percentage for the preceding calendar year until a percentage of fifty-five per centum is reached. After the year during which such percentage is carried such loss reserve shall be sixty per centum of the earned premium.

2. For all liability claims under policies written more than three years prior to the date as of which the statement is made, the reserve shall be computed by estimating the amounts for each individual claim.

Whenever in the judgment of the superintendent of insurance the liability loss reserves of any such corporation, calculated in accordance with the foregoing provisions, are inadequate, he may, in his discretion, require such corporation to maintain additional reserves based upon estimated individual claims or otherwise.

The superintendent of insurance may suspend or cancel the certificate issued by him, authorizing such corporation to transact such insurance business, at any time when the assets of such corporation are insufficient to insure and secure the payment of its policy and other obligations, and he may reinstate or renew said certificate whenever by assessment or otherwise said assets have been increased to a sum sufficient to insure and secure the payment of the policy and other obligations of such corporation. The expenses of management of any such corporation shall not exceed in any one calendar year thirty per centum of its premium income in such year, but the expenses of management shall not be held to include taxes and expenses incurred in the investigation, adjustment and settlement of claims.

§ 8. Section three hundred and forty-five of such chapter, as added by chapter thirteen of the laws of nineteen hundred and sixteen and amended by chapter three hundred and eighty-nine of the laws of nineteen hundred and nineteen, is hereby amended to read as follows:

§ 345. **Dividends.** The board of directors may from time to time fix and determine the amount to be declared and paid as a dividend, upon policies expiring during each year, after retain-

If the corporation is not possessed of cash funds above its unearned premium sufficient for the payment of the incurred losses and expenses, as estimated or determined, it shall make an assessment for the amount needed to pay such losses and expenses upon the members liable to assessment therefor, in proportion to their several liability. Every member shall be liable to pay and shall pay his proportionate part of any assessment which may be laid by the corporation in accordance with law and his contract, covering any deficiency (excess of liabilities over admitted assets) if he is notified of such assessment within one year after the expiration or cancellation of his policy. Each member's share of the deficiency for which an assessment is made shall be determined by applying to the premium earned on the member's policy during the period to be covered by the assessment the ratio of the total deficiency to the total premiums earned during such period upon all policies subject to assessment. ized examiner appointed by him, and the superintendent of insurance must make such an examination into the affairs of said corporation at least once in every two years.

No such corporation shall issue any policy of insurance until a copy of the form thereof has been filed with the superintendent of insurance.

CHAPTER 418

AN ACT to amend the insurance law, in relation to approval of rates of mutual automobile insurance companies.

Became a law April 1, 1922, with the approval of the Governor. Passed, three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Article ten-a of chapter thirty-three of the laws of nineteen hundred and nine, entitled "An act in relation to insurance corporations, constituting chapter twenty-eight of the consolidated laws," as added by chapter fourteen of the laws of nineteen hundred and sixteen, is hereby amended by adding thereto a new section, to be section three hundred and twenty-nine, to read as follows:

§ 329. **Approval of rates.** Every corporation organized or admitted to do business under this article shall file with the superintendent of insurance its schedule of rates and rules affecting such rates, and shall issue policies only at such rates, and subject to such rules affecting such rates, as have been first approved as to adequacy by the superintendent of insurance, provided, that the minimum rates required to be charged shall be uniform for all said companies. The superintendent of insurance may withdraw his approval of any rate or rule affecting such rate whenever in his opinion such rate or rule affecting such rate is inadequate to provide the necessary reserves.

§ 2. Article ten-b of such chapter, as added by chapter thirteen of the laws of nineteen hundred and sixteen, is hereby amended by adding thereto a new section, to be section three hundred and fifty, to read as follows:

§ 350. **Approval of rates.** Every corporation organized or admitted to do business under this article shall file with the superintendent of insurance its schedule of rates and rules affecting such rates, and shall issue policies only at such rates, and subject to such rules affecting such rates, as have been first approved as to adequacy by the superintendent of insurance, provided, that the minimum rates required to be charged shall be uniform for all said companies. The superintendent of insurance may withdraw his approval of any rate or rule affecting such rate whenever in his opinion such rate or rule affecting such rate is inadequate to provide the necessary reserves.

§ 3. This act shall take effect immediately.

amended.

Section 1. Section twenty-two of chapter thirty-three of the laws of nineteen hundred and nine, entitled "An act in relation to insurance corporations," as added by chapter three hundred and eighty-eight of the laws of nineteen hundred and nineteen and last amended by chapter seven hundred and seven of the laws of nineteen hundred and twenty-one,¹ is hereby amended to read as follows:

§ 22. **Reinsurance.** Every insurer authorized to issue policies in this state may reinsure in any other insurer any part or all of any risk or risks, other than life, assumed by it; but such reinsurance, unless effected (a) with an insurer authorized to issue policies in this state, or (b) with an insurer similarly authorized in another state, territory or district of the United States and showing the same standards of solvency and meeting the same statutory and departmental regulations which would be required or prescribed of such insurer were it at the time of such reinsurance authorized in this state to issue policies covering risks of the same kind or kinds as those reinsured, shall not reduce the taxes to be paid by or the reserve or other liability to be charged to the ceding insurer; provided that nothing in this section shall be construed to permit to a ceding insurer any reduction of taxes through reinsurance effected with an insurer not authorized to issue policies in this state. In case such reinsurance is effected with an insurer so authorized or so recognized for reinsurance in this state, the ceding insurer shall thereafter be charged on the gross premium basis with an unearned premium liability representing the proportion of such obligation retained by it, and the insurer to which the business is ceded shall be charged with an unearned premium liability representing the proportion of such obligation ceded to it calculated in the same way; provided, that when an insurer authorized to issue policies in this state shall reinsure any marine risks with a corporation incorporated outside of the United States but admitted to transact business in this state, other than through its attorney, manager or agent in the United States, under a contract which provides that losses thereunder shall not be collectible out of, nor chargeable against, the assets of said corporation in the United States, the ceding insurer, as to the portion of such marine risks so ceded, shall be charged with unearned premium liability and shall report and pay taxes

¹ Previously amended by L. 1920, ch. 563.

thereon but the insurer to which the business is ceded shall not be charged with unearned premium liability nor required to report or pay taxes on account of such marine risks, anything in this chapter to the contrary notwithstanding.

Any contract of reinsurance, other than life, whereby an insurer cedes more than seventy-five per centum of the total amount of its outstanding risks shall, if such insurer is incorporated by or, if an insurer of a foreign country, has its principal office in this state, be subject to approval in writing by the superintendent of insurance of this state.

Every life insurance corporation doing business in this state may reinsure any part or all of any life risk in any other insurance corporation, but shall only receive credit for the reserve on any policy covering a risk reinsured, if the reinsuring corporation is authorized to transact business in this state and may also receive credit for taxes on the premium paid on any such policy, provided that no domestic life insurance company shall reinsure its whole risk on any individual life except by permission of the superintendent of insurance. ²And provided further, that any domestic life insurance corporation which has discontinued the issuance of new business in a foreign country may, subject to the written approval of the superintendent of insurance, reinsure all or part of its business outstanding in such country in any solvent insurance company duly authorized to transact business therein, subject to such conditions for the guarantee of the performance of the reinsurance agreement, as may be approved by the superintendent, and such domestic life insurance corporation shall thereupon be relieved from charging as liabilities in its annual statement the reserves and other liabilities pertaining to the business so reinsured. Nothing in this chapter contained shall be construed as permitting the reinsurance of a life insurance corporation having over two hundred and fifty million dollars of insurance outstanding and in force.

The superintendent of insurance shall require schedules of reinsurance to be filed by every insurer at the time of making the annual report and at such other times as he may direct.

Nothing in this section shall be deemed to permit the ceding insurer to receive through the cession of the whole of any risk or risks any advantage in respect to its unearned premium reserve if an insurer other than life, or, if a life company, in the net value of its policies involving life contingencies that would reduce the same below the actual amount thereof.

For the purposes of this section, the word "insurer" shall be deemed to include the word "reinsurer," and the words "issue policies" shall be deemed to include the words "make contracts of reinsurance."

§ 2. This act shall take effect immediately.

CHAPTER 420

AN ACT to amend the insanity law, in relation to commitment and transfer of insane veterans of the world war.

Became a law April 1, 1922, with the approval of the Governor. Passed, three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

L. 1909,
ch. 32,
§ 87, as
amended
by L. 1919,
ch. 380,
amended,

Section 1. Section eighty-seven of chapter thirty-two of the laws of nineteen hundred and nine, entitled "An act in relation to the insane, constituting chapter twenty-seven of the consolidated laws," as last amended by chapter three hundred and eighty of the laws of nineteen hundred and nineteen,¹ is hereby amended to read as follows:

§ 87. Duties of local officers in regard to their insane. All county superintendents of the poor, overseers of the poor, health officers and other city, town or county authorities, having duties to perform relating to the poor, are charged with the duty of seeing that all poor and indigent insane persons within their respective municipalities, are timely granted the necessary relief conferred by this chapter. The poor officers or authorities above specified, except in the city of New York and in the county of Albany, shall notify the health officer of the town, city or village of any poor or indigent insane or apparently insane person within such municipality whom they know to be in need of the relief conferred by this chapter. When so notified, or when otherwise informed of such fact, the health officer of the city, town or village, except in the city of New York and the county of Albany, where such insane or apparently insane person may be, shall see that proceedings are taken for the determination of his mental condition and for his commitment to a state hospital. Such health officer may direct the proper poor officer to make an application for such commitment, and, if a qualified medical examiner, may join in making the required certificate of lunacy. When so directed by such health officer it shall be the duty of the said poor officer to make such application for commitment. When notified or informed of any poor or indigent insane or apparently insane person in need of the relief conferred by this chapter, such health officer shall provide for the proper care, treatment and nursing of such person, as provided by law and the rules of the commission, pending the determination of his mental condition and his commitment and until the delivery of such insane person to the attendant sent to bring him to the state hospital, as provided in his chapter. In the boroughs of Manhattan and the Bronx, in the city of New York, it shall be the duty of the trustees of Bellevue and allied hospitals, and in the boroughs of Brooklyn, Queens and Richmond, in the city of New York and

¹ Previously amended by L. 1910, ch. 608; L. 1912, ch. 121.

also in the county of Albany, it shall be the duty of the commissioner of public charities to see that all poor and indigent insane or apparently insane persons in such boroughs or county, respectively, are properly cared for and treated.

It shall also be the duty of such trustees of Bellevue and allied hospitals, or the commissioner of public charities of the city of New York or the county of Albany, to see that proceedings are taken for the determination of the mental condition of any such person in the boroughs or county mentioned, who comes under their observation or is reported to them as apparently insane, and, when necessary, to see that proceedings are instituted for the commitment of such person to an institution for the care of the insane; provided that such report is made by any person with whom such alleged insane person may reside, or at whose house he may be, or by the father, mother, husband, wife, brother, sister, or child of any such person, or next of kin available, or by any duly licensed physician, or by any peace officer, or by a representative of an incorporated society doing charitable or philanthropic work. When the trustees of Bellevue and allied hospitals are thus informed of an apparently insane person, residing in the boroughs of Manhattan or the Bronx, or when the commissioner of public charities of the city of New York is thus informed of an apparently insane person residing in the boroughs of Brooklyn, Queens or Richmond, it shall be the duty of these authorities, respectively, to send a nurse or a medical examiner in lunacy, attached to the psychopathic wards of their respective institutions, or both, to the place where the alleged insane person resides or is to be found. If, in the judgment of the chief resident alienist of the respective psychopathic wards or of the medical examiner thus sent, the person is in immediate need of care and treatment or observation for the purpose of ascertaining his mental condition, he shall be removed to such psychopathic ward for a period not to exceed ten days, and the person or persons most nearly related to him, so far as the same can be readily ascertained by such trustees, or commissioners, shall be notified of such removal.

When an order of commitment has been made as provided in this chapter, such health officer, or, in the city of New York and in the county of Albany, the authorities above specified in their respective boroughs or county, shall see that such insane persons are, without unnecessary delay, transferred to the proper institutions provided for their care and treatment as the wards of the state. Before sending a person to any such institution, they shall see that he is in a state of bodily cleanliness and comfortably clothed with suitable or new clothing, in accordance with the regulations prescribed by the commission. Each patient shall be sent to the state hospital, within the district embracing the county from which he is committed, except that the commission may, in its discretion, direct otherwise, but private or public insane patients, for whom homeopathic care and treatment may be desired by their relatives, friends or guardians, may be com-

mitted to the Middletown state homeopathic hospital, or the Gowanda state homeopathic hospital, from any of the counties of the state, in the discretion of the judge granting the order of commitment; and the hospital to which any patient is ordered to be sent shall, by and under the regulations made by such commission, send a trained attendant to bring the patient to the hospital. Each female committed to any institution for the insane shall be accompanied by a female attendant, unless accompanied by her father, brother, husband or son. The commission may, by order, direct that any person it deems unsuitable therefor shall not be so employed or act as such attendant. After the patient has been delivered to the proper officers of the hospital, the care and custody of the municipality from which he is sent shall cease.

In no case shall any insane person be confined in any other place than a state hospital or duly licensed institution for the insane, for a period longer than ten days, nor shall such person be committed as a disorderly person to any prison, jail or lockup for criminals. Except in the city of New York and the county of Albany, the health officer of the town, village or city wherein an insane or alleged insane person may be shall see that such person is cared for in a place suitable for the comfortable, safe and humane confinement of such person, pending the determination of the question of his sanity, and until his transfer to a state hospital or some other proper institution for the insane as provided in this chapter. Such person shall not be confined in any such place without an attendant in charge of him, and the said health officer shall select some suitable person to act as such attendant.

The proper authorities of any such town, city or county may provide a permanent place for the reception and temporary confinement, care and nursing of insane or alleged insane persons which shall conform in all respects to the rules and requirements of the commission; all poor and indigent insane persons received at any such place for investigation of their mental condition or pending commitment and transfer to a state hospital shall be maintained therein at the expense of such town, city or county. Any person apparently insane, and conducting himself in a manner which in a sane person would be disorderly, may be arrested by any peace officer and confined in some safe and comfortable place until the question of his sanity be determined, as prescribed by this chapter. The officer making such arrest shall immediately notify the health officer of the town, village or city, except in the city of New York and in the county of Albany, who shall forthwith take proper measures for the determination of the question of the insanity of such person, and for his proper care and treatment as provided in this section, pending his transfer to an institution for the insane.

Whenever in the city of New York an information is laid before a magistrate that a person is apparently insane the magistrate must issue a warrant directed to the sheriff of the county in which the information is made, or any marshal or policeman of

the city of New York, reciting the substance of the information, and commanding the officer forthwith to arrest the person alleged to be insane, and bring him before the magistrate's court out of which the warrant was issued. If upon arraignment it appears to the magistrate presiding that the person so arraigned before him is apparently insane it shall be the duty of the magistrate, if such information is laid in the boroughs of Manhattan and the Bronx, to commit such apparently insane person to the care and custody of the board of trustees of Bellevue and allied hospitals at Bellevue hospital, and therein kept in a safe and comfortable place until the question of his sanity be determined as prescribed by this chapter, and in the boroughs of Brooklyn, Queens and Richmond the said magistrate shall commit such apparently insane person to the care of the commissioner of public charities who shall keep such person in a safe and comfortable place until the question of his sanity be determined as herein prescribed. Whenever in the city of New York a person is committed as apparently insane as above provided it shall be the duty of the board of trustees of Bellevue and allied hospitals or the commissioner of public charities, as the case may be, to forthwith take proper measures for the determination of the question of the insanity of such person.

* When a veteran of the world war is arraigned according to law before a magistrate in the city of New York as an alleged insane person and it appears that the veteran is apparently insane, the magistrate shall, upon the request of the director of the United States veterans' bureau or his accredited representative, or person authorized by law to make such a request, commit the alleged insane veteran for examination for a period not exceeding ten days direct to the Veterans' Hospital, Kingsbridge road and Sedgwick avenue, borough of the Bronx, New York city. Such commitment shall be for the purpose of observation and for rendering of such care and treatment as shall be deemed for the best interests of the person so committed.

Veterans of the world war who have been duly committed to a state hospital for the insane within the state of New York prior to the passage of this act and who may be either actually confined in a state hospital for the insane within the state of New York, or on parole, may be transferred to the said Veterans' Hospital, borough of the Bronx, New York city, by order of the state hospital commission.

§ 2. This act shall take effect immediately.

* Remainder of section new.

units or other ingredients in such proportions, quantities or packing that an ignition by fire, friction, concussion, percussion or detonator of any part of the compound or mixture may cause sudden generation of highly heated gases that the resultant gaseous pressures are capable of producing destructive effects upon life, limb or contiguous objects, but does not mean gasoline, kerosene, naphtha, turpentine, benzine, colloided nitrocellulose in sheets or rods or grains not under one-eighth of an inch in diameter, wet nitrocellulose and wet nitro starch containing twenty per centum or more moisture or wet picric acid containing or being in ten per centum or more moisture. Manufactured articles such as fixed ammunition for small arms, fire crackers, safety fuse, matches, et cetera, shall not be held to be explosives when the individual units contain explosives in such limited quantity, of such nature or in such packing that it is impossible to produce a simultaneous or a destructive explosion of such units, to the injury of life, limb or property.

2. "Highway" means any public street or public highway.

3. "Railroad" or "railway" means any public steam, electric or other railroad which carries passengers for hire, but shall not include auxiliary tracks, spurs and sidings installed and primarily used in serving any mine, quarry or plant.

§ 452. **Encasement.** Except only in a factory building or upon its premises and except while being used, no person shall possess or store explosives unless such explosives are completely enclosed or encased in tight metal, wooden or fibre containers. A person having an explosive in his possession or control shall under no circumstances, permit any grains or particles of it to remain on the outside of, or about, its container. Every container shall be plainly marked with the name of the explosive contained therein.

§ 453. **Storage.** Except while being transported or used or

§ 455. **Magazine precautions.** The doors of magazines shall be kept closed and locked at all times, except when opened for storage or removal of explosives by persons lawfully entitled to enter the same. Sufficient openings shall be provided for ventilation and shall be screened to prevent the entrance of sparks, except that magazines containing only black powder may be constructed without openings for ventilation. Upon each end of such magazine, above the side walls thereof, or upon its barricade, there shall at all times be kept conspicuously posted a sign with the words "Magazine — Explosives — Dangerous" legibly printed thereon in letters not less than six inches high. No matches or fire of any kind shall at any time be permitted in any magazine. No blasting caps or other detonating or fulminating caps or detonators shall be kept or stored in any magazine in which other explosives are kept or stored. § 456. **Location of magazines.** A magazine in which more than five thousand pounds of explosives are stored must be separated at least two hundred feet from any other magazine. The quantity of explosives that may be stored in any factory building or magazine shall depend upon its distances from the nearest building, railroad and highway. The distances that a quantity of explosives given in column one of the following table may be stored from the nearest building, railroad, and highway are set opposite to it in columns two, three and four. § 458. Licenses for storage. 1. Application for certificate. Before storing explosives every person shall report to the commissioner, on blanks to be furnished by him:

- a. The location or proposed location of the magazine;
- b. The kind and maximum quantity of explosive stored or intended to be stored therein;
- c. The distance or intended distance of the magazine from the nearest magazine, building, railroad and highway.

2. Issue of certificate. Following receipt of such report the commissioner shall inspect the magazine. If he finds that the magazine is located and constructed in accordance with this article, he shall determine the quantity of explosives that may be stored in such magazine according to the quantity and distance table of section four hundred and fifty-six and shall issue a certificate to the applicant showing compliance with this article and the maximum quantity of explosives that may be stored in the magazine. The certificate of compliance shall be posted in the magazine.

3. Modification or cancellation of certificate. Certificate of compliance shall be valid until cancelled for cause as hereinafter provided: Whenever by reason of changes in the physical conditions surrounding said magazine, such as the erection of buildings, operation of railways or opening of highways nearer said magazine, the commissioner shall modify or cancel the certificate in accordance with the changed conditions; whenever any person to whom certificate has been issued fails for thirty days to pay the annual license fee; whenever any person to whom certificate has been issued keeps or stores explosives in excess of the amount authorized by the certificate. Upon cancellation of his certificate the owner shall immediately remove all explosives from the magazine. The owner or user of a magazine shall promptly notify the commissioner of any change in conditions.

4. Annual license fee. The owner or user of a magazine shall annually pay to the commissioner in advance a license fee graduated according to the quantity of explosives authorized to be stored in the magazine. The fee shall not be less than five dollars nor more than twenty-five dollars and shall be paid into the state treasury by the commissioner.

§ 459. **Transportation.** 1. Every vehicle carrying an explosive shall display upon an erect pole upon its front end at such height as to be visible from all directions a red flag with the word "danger" printed, stamped or sewed in white letters thereon. The flag shall be at least eighteen inches wide by thirty inches long and the letters at least twelve inches high.

2. No person shall approach, ride upon, drive, load or unload a vehicle carrying an explosive carelessly, recklessly, or while smoking or while under the influence of intoxicating liquor.

In case for any reason, the mayor of any city within sixty days after he has the power to appoint, fails to appoint such municipal commissioners, the state commission shall appoint them to hold office until the expiration of the term of the mayor then in office and until their successors are appointed and qualify. It shall be the duty of such persons to prepare and to procure the approval of the rules herein provided for, and, if they fail to do so within sixty days after their appointment, the state commission shall forthwith make said rules. It shall be the duty of such persons to make reports from time to time to the state commission, whenever said commission may request, of the manner in which this law, and the rules and regulations thereunder, have been and are administered, and the results of their administration in such city, and of such other matters as said commission may require, and annually on or before the fifteenth day of January, to make such report to said commission; and it shall be the duty of said state commission in its annual report to set out either these reports, or a sufficient abstract or summary thereof, to give full and clear information as to their contents. A copy of the roster of the classified civil service of such city shall be transmitted to the state commission with the annual report aforesaid, and shall be filed in the office of said commission as a public record. The municipal commission of each city, for the purpose of investigating the enforcement and effect of the civil service law and the rules and regulations prescribed thereunder in the service of such city, shall have the same powers that are granted to the state commission by the third and fourth subdivisions of section six of this act. The mayor may at any time remove any municipal civil service commissioner appointed by him. Said state commission may also, by unanimous vote of the three commissioners, with the written approval of the governor, remove any municipal civil service commissioner appointed or employed under the authority of this section, for in-

competency, inefficiency, neglect of duty or violation of the provisions of this chapter, or of the rules and regulations in force thereunder, or of any of them, specifying in writing the particulars of the incompetency, inefficiency, neglect of duty or violation charged, and filing the same as a public document in the office of the city clerk, or if there be no city clerk, in the office of the clerk of the board of aldermen, and a certified transcript thereof in the office of the state civil service commission, first giving such commissioner an opportunity to make a personal explanation in self-defense. Whenever a municipal civil service commissioner has been removed by the unanimous vote of the three state commissioners, with the written approval of the governor, or whenever any municipal commissioner shall resign or be removed by the mayor pending an investigation by the state commission of the administration of the civil service of the city in which such person is a municipal commissioner, or whenever any municipal commissioner shall resign or be removed by the mayor pending a hearing by the state commission of charges preferred against such municipal commissioner, the state commission and not the mayor of such city shall have power to appoint persons to fill such vacancies, and such persons so appointed by the state commission shall hold office as municipal civil service commissioners of such city until the expiration of the term of the mayor then in office and until their successors are appointed and qualify. Said state commission may at any time, by unanimous vote of the three commissioners, amend or rescind any rule, regulation or classification prescribed under the provisions of this section, provided that said state commission shall state the reasons for such action in writing and file the same and a certified transcript thereof as a public document as hereinbefore provided, and give an opportunity to the municipal civil service commissioners concerned to make a personal explanation and to file papers in opposition to such action. The said state commission, however, shall not take such action upon any ground other than that the provisions or purposes of this chapter are not properly or sufficiently carried out by such rule, regulation or classification, nor without specifying in writing and detail in what particular such provisions or purposes are not carried out, nor shall said state commission exempt from competitive examination any position or place or employment in any city without the consent of the municipal commission of such city.

§ 2. This act shall take effect immediately.

Provided, that the amount of the tax raised in any year for all the expenses provided for in this act shall not exceed one per centum of the value of the real and personal property within the city as the same shall appear on the assessment-roll for the last preceding year; exclusive, however, of the taxes certified to the city clerk by the board of supervisors as provided in the first paragraph of this section, and exclusive of assessments made for local improvements or local benefits which are assessed against the property benefited and are not payable by the city at large.

§ 144, as amended by L. 1921, ch. 508, amended.

§ 5. Section one hundred and forty-four of such chapter, as last amended by chapter five hundred and five of the laws of nineteen hundred and twenty-one,³ is hereby amended to read as follows:

³ Previously amended by L. 1899, ch. 31; L. 1917, ch. 373.

§ 144. **Paving; procedure and assessment of the cost.** If the board of public works shall decide on its own motion that any street or section of a street, public place or square ought to be paved, repaved, resurfaced, repaired or graded, or if the owners of more than one-half of the real estate fronting thereon, exclusive of any portion thereof owned by the city, shall petition it therefor, it shall publish for at least two weeks a notice in one or more of the newspapers published in the city, that at a time and place to be therein specified, it will meet to make a final determination in respect thereto. Such notice shall contain a brief description of the character, location and extent of the improvement, and shall name the material, or two or more materials in the alternative, to be used therein. Any person interested shall be entitled to be heard at such meeting in opposition to such improvement. If before such meeting a protest against the improvement, in writing, signed by the owners of two-thirds of the frontage upon such street, section of a street, public place or square, and acknowledged as deeds of real estate are required to be acknowledged, be filed with said board, it shall not order the proposed improvement, nor shall it again consider the same within one year; but the owners of a majority of the frontage of a smaller section of the same street, not less than one block, may file with said board a petition therefor, and in that case said board may order the improvement as therein requested. If the board shall finally determine to make the improvement, it shall record and order therefor in its minutes, and thereupon the said board may enter into a contract or contracts for the carrying out of the improvement or otherwise cause such improvement to be made.

Upon the completion of the improvement, the board of public works shall ascertain the whole cost thereof and shall apportion the same upon all the real estate fronting upon the street, section of a street, public place or square so improved in proportion to the frontage of the respective lots and parcels thereof, first deducting the portion thereof hereby imposed upon the city, the portion thereof which any railroad corporation may be liable to pay and the cost of constructing all laterals or conduits which are chargeable against the parcels of real property benefited thereby. The board of public works shall report such apportionment and a list of all the lots and parcels of land liable to assessment, with their respective frontages, to the common council. It shall also report to the common council the portion of the cost of such improvement for which the city is liable, the portion thereof which any railroad corporation may be liable to pay and a list of the parcels of real property for the benefit of which laterals or conduits may have been constructed with the cost of such construction chargeable against each. The common council shall assess upon any railroad corporation its share of the cost of said improvement in the same manner as other assessments for local improvements. The common council shall assess the residue of such expense, except the cost of constructing laterals or con-

duits, upon all the real estate fronting upon said street, section of a street, public place or square, as hereinbefore provided, in proportion to the frontages of said lots and parcels of real estate respectively, and shall designate in such assessment the names of the owners of said real estate and the number of feet of frontage owned by each of them respectively. It shall also assess against each parcel of real estate, for the use and benefit of which a lateral or conduit has been constructed, the cost of constructing the same, as reported by the board of public works, and shall add the same to the amount of the assessment against such parcel of real estate made as hereinbefore provided.

§ 147, as
added by
L. 1917,
ch. 373,
amended.

§ 6. Section one hundred and forty-seven of such chapter, as added by chapter three hundred and seventy-three of the laws of nineteen hundred and seventeen, is hereby amended to read as follows:

§ 147. **Laying out or alteration of streets.** Whenever the board of public works shall decide that any street or section of a street or any public place or square ought to be laid out, altered, opened, widened, extended or straightened, it shall cause a survey and map to be made showing the proposed improvement, which survey and map shall be filed in the office of the board, and it shall determine whether the proposed improvement shall be made wholly at the expense of the city, or wholly at the expense of the real property which shall be benefited by such improvement, or partly at the expense of the city and partly at the expense of the real property to be benefited by such improvement and, in the latter case, the portion of the cost to be borne by each. And in case that it shall determine that the cost of such improvement shall be borne wholly or partly by the real property to be benefited thereby, it shall determine the area within which the real property will be benefited by and shall be assessed for the cost of such improvement. The said board shall publish a notice in one newspaper published in the city once in each of two successive weeks immediately preceding such meeting that it will meet at a time and place specified in such notice to make its final determination in regard to making such improvement and, if any part of the cost thereof is to be assessed upon the real property benefited thereby, such notice shall contain a description of the area deemed benefited and which will be assessed for the cost of such improvement.

At the time and place stated in such notice the board of public works shall meet and shall hear all persons who desire to be heard in favor of or against such improvement and, if any part of such improvement is to be charged upon the real property benefited thereby, as to the portion of the cost to be assessed on such real property and as to the area to be assessed therefor. After such hearing, the board of public works may change the character or location of such improvement, and cause the map of the same to be revised accordingly, and it may alter or amend any determination made in its original resolution, in which case a new notice shall be published and a new hearing shall be had

in the manner hereinbefore provided. If the board of public works shall finally determine to make any such improvement after notice and hearing as hereinbefore provided, it shall record an order to that effect in its minutes containing a description of the character and location thereof, of the lands necessary to be taken therefor, of the portion of the cost to be paid by the city, if any, of the portion thereof, if any, to be assessed upon the real property benefited thereby and, if any portion of such cost is to be assessed upon the real property benefited, a description of the area within which such assessment is to be made.

If the proposed improvement is to be made wholly or partly at the expense of the city, the board of public works shall immediately transmit to the common council a copy of such order and of the plan of such improvement. If the common council shall by resolution authorize such improvement to be made, or if such authorization shall not be necessary, the board of public works may acquire the lands necessary for such improvement by purchase and conveyance to the city, or, in its discretion, it may proceed to acquire the same or any part thereof for the city by condemnation proceedings. Such proceedings shall be conducted in accordance with the provisions of the condemnation law except as is otherwise herein provided.

In any proceeding to acquire real property for the purposes mentioned in this section the petition shall set forth the fact that the public use for which the property is required is one of those mentioned in this section and that all the preliminary steps herein prescribed have been duly taken, but it shall not be necessary to set forth any of the other facts required to be set forth by subdivisions one, three, five, six or seven of section four of the condemnation law.

The court in which such proceeding is pending may, at any stage of the proceeding and without any security or deposit of money, direct that the city may immediately enter upon the real property to be taken and devote it to the public use specified in the petition. But, if such order is made, the proceeding shall not thereafter be discontinued or abandoned without the consent of the owner.

Upon the application of the city, the court in which such proceeding is had shall set off, against any amount directed to be paid to an owner as compensation or for costs, any assessment that may lawfully be made against the same owner for the same improvement and, upon proof that any person so entitled to an award is also liable to an assessment, the court must stay the payment of such award until such assessment can be made and confirmed.

Upon the completion of such improvement the board of public works shall determine the whole cost thereof, including the purchase price paid for all real property acquired for that purpose or for compensation and costs awarded, together with all expenses for surveys, maps, abstracts of title, advertising and interest, the expense of condemnation proceedings, if any, and all other ex-

penses incidental thereto, and shall determine the amount to be paid by the city, if any, and the amount to be paid by the real property benefited, if any, in accordance with the order authorizing such improvement. And, if any part of the cost is to be assessed upon the real property benefited, the board of public works shall apportion the cost of such improvement which is chargeable to the real property benefited, in accordance with the order authorizing such improvement, upon all the parcels of real property within the area determined upon in such order and in proportion to the benefit received by each. In making such apportionment the board of public works shall designate each parcel of land liable to assessment by the name of the owner thereof, or by such other description as may be sufficient to identify the same, and shall set down opposite such designation the amount apportioned to and to be assessed upon each parcel. The board of public works shall thereupon publish a notice in one newspaper published in the city once in each of two successive weeks immediately preceding such meeting that it will meet at a time and place specified in such notice to review its said apportionment. Such notice shall name the improvement and describe the area within which the real property will be assessed for the cost of such improvement and shall state that the apportionment of the cost of such improvement chargeable to the real property benefited has been made and that such apportionment will remain open for inspection in the office of the board of public works until the time of such meeting. At the time and place stated in such notice the board of public works shall meet and hear any person conceiving himself to be aggrieved by such apportionment and, after hearing and examining the complaint of any such person, shall review and revise such apportionment. And when the board of public works shall finally have determined upon such apportionment, it shall report to the common council the whole cost of such improvement, the amount to be paid by the city, if any, the amount to be paid by the owners of the real property benefited, together with its apportionment of the same and a list of all the lots and parcels of land liable to assessment with the amounts of their respective assessments. If no part of the cost is chargeable to the real property benefited the said board shall report the whole cost of such improvement without making any apportionment thereof.

The common council shall assess the portion of the cost of such improvement to be borne by the real property benefited, if any, upon all the real property included within the area designated and in accordance with the apportionment reported by the board of public works and shall designate in such assessment the names of the owners of such real property and the amounts of their respective assessments. If any assessment shall be set off against an award, a certified copy of the order providing for such set off shall be filed with the city treasurer and he shall collect only the balance of such assessment in excess of such award, if any.

§ 7. Section one hundred and forty-eight⁴ of such chapter is hereby renumbered section one hundred and fifty-four.

numbered
§ 154.
New § 148
added.

§ 8. Such chapter is hereby amended by adding thereto a new section, to be section one hundred and forty-eight, to read as follows:

§ 148. **Sewers.** Whenever the board of public works shall decide that any sanitary sewer, storm sewer, drain, covered water course, outlet or outfall ought to be constructed or reconstructed, unless the construction of such drain or storm sewer shall be included in the work of paving, repaving, resurfacing or repairing a street, public place or square, it shall cause a plan and estimate of the cost of the proposed improvement to be made, which plan and estimate shall be filed in the office of the board, and it shall determine whether the proposed improvement shall be made wholly at the expense of the city, or wholly at the expense of the real property which shall be benefited by such improvement, or partly at the expense of the city and partly at the expense of the real property to be benefited by such improvement and, in the latter case, the portion of the cost to be borne by each. And, in case that it shall determine that the cost of such improvement shall be borne wholly or partly by the real property to be benefited thereby, it shall determine the area within which the real property will be benefited by and shall be assessed for the cost of such improvement. The said board shall publish a notice in one newspaper published in the city once in each of two successive weeks immediately preceding such meeting that it will meet at a time and place specified in such notice to make its final determination in regard to making such improvement and, if any part of the cost thereof is to be assessed upon the real property benefited thereby, such notice shall contain a description of the area deemed benefited and which will be assessed for the cost of such improvement.

At the time and place stated in such notice the board of public works shall meet and shall hear all persons who desire to be heard in favor of or against such improvement and, if any part of such improvement is to be charged upon the real property benefited thereby, as to the portion of the cost to be assessed on such real property and as to the area to be assessed therefor. After such hearing, the board of public works may change the character or location of such improvement and cause the plan and estimate of the same to be revised accordingly, and it may alter or amend any determination made in its original resolution, in which case a new notice shall be published and a new hearing shall be had in the manner hereinbefore provided. If the board of public works shall finally determine to make any such improvement after notice and hearing as hereinbefore provided, it shall record an order to that effect in its minutes containing a description of the character and location thereof, of the portion of the cost to be paid by the city, if any, of the portion thereof, if any,

⁴ As amended by L. 1899, ch. 31.

to be assessed upon the real property benefited thereby and, if any portion of such cost is to be assessed upon the real property benefited, a description of the area within which such assessment is to be made.

If the proposed improvement is to be made wholly or partly at the expense of the city, the board of public works shall immediately transmit to the common council a copy of such order and of the plan and estimate of the cost of such improvement. If the common council shall by resolution authorize such improvement to be made, or if such authorization shall not be necessary, the board of public works may enter into a contract or contracts for the carrying out of the improvement or otherwise cause such improvement to be made.

Upon the completion of such improvement the board of public works shall determine the whole cost thereof, including all expenses of surveys, maps, advertising and interest, and all other expenses incidental thereto, and shall determine the amount to be paid by the city, if any, and the amount to be paid by the real property benefited, if any, in accordance with the order authorizing such improvement. And, if any part of the cost is to be assessed upon the real property benefited, the board of public works shall apportion the cost of such improvement which is chargeable to the real property benefited, in accordance with the order authorizing such improvement, upon all the parcels of real property within the area determined upon in such order and in proportion to the benefit received by each. In making such apportionment the board of public works shall designate each parcel of land liable to assessment by the name of the owner thereof, or by such other description as may be sufficient to identify the same, and shall set down opposite such designation the amount apportioned to and to be assessed upon each parcel. The board of public works shall thereupon publish a notice in one newspaper published in the city once in each of two successive weeks immediately preceding such meeting that it will meet at a time and place specified in such notice to review its said apportionment. Such notice shall name the improvement and describe the area within which the real property will be assessed for the cost of such improvement and shall state that the apportionment of the cost of such improvement chargeable to the real property benefited has been made and that such apportionment will remain open for inspection in the office of the board of public works until the time of such meeting. At the time and place stated in such notice the board of public works shall meet and hear any person conceiving himself to be aggrieved by such apportionment and, after hearing and examining the complaint of any such person, shall review and revise such apportionment. And, when the board of public works shall finally have determined upon such apportionment, it shall report to the common council the whole cost of such improvement, the amount to be paid by the city, if any, the amount to be paid by the owners of the real property benefited, together with its apportionment of

the same, and a list of all the lots and parcels of land liable to assessment with the amounts of their respective assessments. If no part of the cost is chargeable to the real property benefited, the said board shall report the whole cost of such improvement without making any apportionment thereof. The common council shall assess the portion of the cost of such improvement to be borne by the real property benefited, if any, upon all the real property included within the area designated and in accordance with the apportionment reported by the board of public works and shall designate in such assessment the names of the owners of such real property and the amounts of their respective assessments.

Nothing herein contained shall apply to the construction of lateral sewers for the use of single parcels of private property.

§ 9. Section one hundred and forty-eight-a of such chapter, as added by chapter three hundred and seventy-three of the laws of nineteen hundred and seventeen, is hereby repealed.

§ 142a, as
added by
L. 1917,
ch. 372,
repealed.
§§ 149-152
added.

§ 10. Such chapter is hereby amended by adding thereto five new sections, to be sections one hundred and forty-nine, one hundred and fifty, one hundred and fifty-one, one hundred and fifty-two and one hundred and fifty-three, to read, respectively, as follows:

§ 149. **Payments during progress of the improvement.** At any time after the board of public works shall have finally determined to make any of the local improvements mentioned in this title and the same shall have been authorized by the common council, if such authorization shall be necessary, it may make an estimate of the whole cost of such improvement and transmit the same with a copy of its final determination to the common council. The common council shall thereupon borrow such sum or sums of money, not exceeding the amount of such estimate, as may be necessary for the construction of the work or the acquisition of property during its progress and for that purpose issue the promissory notes of the city of Geneva and renew the same from time to time until the cost of the improvement shall have been provided for in the manner hereinafter provided.

§ 150. **Notes to cover cost of the improvement.** Whenever the board of public works shall make a report as to the whole cost of any such local improvement, the common council may borrow any amount necessary to cover the whole cost of the same, as so reported by the board of public works, in excess of any moneys already borrowed for that purpose, and for that purpose may issue the promissory notes of the city of Geneva and renew the same from time to time until the cost of such improvement shall have been provided for in the manner herein provided. All moneys so borrowed shall be paid into the highway fund or the sewer fund and shall be used only for the purpose of defraying the cost of such improvement.

§ 151. **Payment of the city's share of the cost.** The common council shall include the share of the cost of any such local improvement for which the city is liable in the next tax levy and

all moneys raised by tax for that purpose shall be applied within one year to the payment of the moneys borrowed on account of such improvement. But the common council may, in its discretion, instead of including the share of the cost of such improvement for which the city is liable in the next tax levy, issue the bonds of the city of Geneva for the amount of the same, or any part thereof, in such amounts and for such times as it shall deem advisable. Any bonds, however, so issued shall not be sold for a sum less than the par value thereof and shall bear interest at a rate not exceeding six per centum per annum. The provisions of section one hundred and eleven of this act shall apply to the payment of the principal and interest of such bonds.

§ 152. **Notice of assessment and confirmation.** Whenever the common council shall make an assessment of the cost of any such local improvement, it shall cause a notice to be published in one or more newspapers published in the city, for two weeks, that such assessment has been made and that the common council will meet at a time and place to be stated in said notice to hear any objections which may be made to such assessment, and in the meantime the said assessment may be examined, without expense, by any person desiring to examine the same. At the time and place specified in such notice the common council shall hear such objections as may be made to such assessment and shall review the same. It may adjourn such proceedings from time to time and may alter and amend the said assessment in its discretion. When the common council shall deem the assessment to be correct it shall confirm the same. Upon confirmation of the assessment the amount assessed upon any railroad corporation shall become and be a first lien upon all the franchises and property of such railroad corporation within the corporate limits of the city and the amount assessed against each parcel of real property shall become and be a first lien upon such parcel of real property until fully paid. Every such assessment, after being confirmed, shall be collected forthwith or, in the discretion of the common council, at the time of the collection of the next annual city tax, except as provided in section one hundred and fifty-four of this act. Every such assessment shall be collected by the treasurer in the same manner as taxes are collected and the amount thereof shall be placed in the highway fund or the sewer fund and shall be expended only for the purpose of paying for such improvement or of repaying money borrowed on account of the same.

§ 153. **New apportionment or assessment.** In case any apportionment or assessment heretofore or hereafter made for a local improvement shall have been or shall be set aside by any court of this state having competent jurisdiction, or shall fail or shall have failed through any irregularity in making or confirming such apportionment or assessment, it shall be lawful for and be the duty of the common council forthwith to cause a new apportionment or assessment, including the interest and expenses of the former apportionment or assessment, to be made and to be levied and collected; and such new apportionment and assess-

ment shall have the same force and effect as though no former apportionment or assessment had been made.

§ 11. Sections one hundred and forty-nine to one hundred and seventy of such chapter, including sections added thereto by chapter two hundred and ninety-six of the laws of nineteen hundred and one, chapter three hundred and twenty-three of the laws of nineteen hundred and nine and chapter three hundred and ninety-one of the laws of nineteen hundred and eleven, are hereby re-numbered sections one hundred and fifty-five to one hundred and seventy-six, respectively. §§ 149-170

bered

The marshal shall execute the warrant in the same manner as an execution against personal property issued out of the city court, and be entitled to the same fees thereon. He shall make immediate payment to the commissioner of finance of all collections, less his fees, accompanied by a written statement of the amount, and by whom paid, and shall return his warrant at the expiration of two months from the receipt thereof with a detailed statement verified by him, of his collections, and fees and of the persons in default.

CHAPTER 445

AN ACT to amend the charter of the city of Lockport, generally.

Accepted by the City.

Became a law April 3, 1922, with the approval of the Governor. Passed, three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section one hundred and seven of chapter eight hundred and seventy of the laws of nineteen hundred and eleven, entitled "An act to consolidate and revise the laws relating to the city of Lockport," as last amended by chapter five hundred and four of the laws of nineteen hundred and twenty, is hereby amended to read as follows:

§ 107. **Issue and sale of bonds.** Bonds or other obligations of the city shall be signed by the mayor and the city clerk. They shall be made payable at such times within thirty years after their respective issues, as the common council in such ordinances shall direct, and may be made payable in equal annual installments. Such bonds shall be issued in sums of not exceeding five thousand dollars each with interest payable at such times and places as the common council shall designate, at a rate not exceeding the legal rate¹ per annum. They shall be sold on sealed proposals or at public auction, upon notice published in the official newspaper, and in other newspapers or publications, such number of times as the common council may determine, prior to the time of such sale or the opening of such proposals.² The city treasurer shall award the same to the highest bidder at not less than par and accrued interest. The bonds shall be consecutively numbered from one to the highest number issued, and the city clerk shall keep a record of the number of each bond or obligation, its date, amount, rate of interest, when and where payable, and the purchaser thereof or the person to whom they are issued.³ This section shall not apply to the issuance and sale of bonds for local improvements.

§ 2. Sections two hundred and twenty-nine and two hundred and thirty-four of such chapter are hereby amended to read as follows:

§ 229. **Notice of receiving proposals; estimate of expense; assessments.** At the time of adopting the ordinance for a local improvement, or at any time thereafter, the common council shall give notice, or order and direct the same to be given, that proposals for the doing and completion of said work will be re-

ceived. After the time in said notice specified for the reception of proposals shall have expired, the common council shall estimate as nearly as may be the expense of such improvement, and enter the same in its minutes. ³ Before awarding any contract for a public improvement the common council shall borrow money for the expense of such improvement estimated above upon certificates of indebtedness of the city, signed as directed by it in an amount equal to ninety-five per centum of the expense of such improvement as above estimated, such certificates to be payable not later than eight months after date and shall bear interest from date of issue, and shall bear interest at a rate fixed by the common council not exceeding the legal rate of interest per annum.

⁴ Should such certificates of indebtedness mature before funds for the payment of the costs of such improvement are raised by assessment and the sale of bonds as hereinafter provided, payment thereof may be made by funds borrowed by the city upon like certificates upon the same terms and rate of interest. The money so borrowed shall be used to pay the contractor in accordance with the terms hereinafter set forth and for the other expenses above mentioned, and for no other purpose.

⁴ The city engineer shall make an estimate of the work done and materials delivered to his satisfaction, from time to time during the progress of the work, in accordance with the specifications and terms of the contract entered into by the city of Lockport with the contractor, and certify in writing the amount of his estimate to the common council. The city shall pay not to exceed ninety per centum of the amount so certified, to said contractor in cash. But no such estimate or payment shall be deemed as final acceptance of the work.

⁴ Within thirty days after the completion of the work, the city engineer shall make a final estimate of the work done and certify in writing the amount due the contractor and the common council may pay the amount so certified in cash less any amount which may be retained not exceeding five per centum of the total cost of construction for a period not exceeding one year from the time of completion of the work as a guarantee against imperfect work in accordance with the terms of the contract.

The common council shall compute the total expense of such improvement including the interest on the certificate of indebtedness and other expenses as hereinafter set forth and enter the same in its minutes;⁵ and thereupon the same shall be equally assessed upon the real estate in said city which the common council deems benefited by the said improvement, according to the benefits that may result therefrom, to be estimated, apportioned, assessed and determined by the assessor ⁶ of said city, who shall ⁷ not

be⁸ personally interested in the improvement ordered, and⁹ who shall be specified in the ordinance therefor; or, in case the assessor¹⁰ of said city shall be personally interested in said improvement, then by such other person not interested therein as said common council may appoint as a special assessor for that purpose; and in so doing the assessor shall assess the real estate to and against the owners or occupants thereof; but if a parcel of land be unoccupied, and the name of the owner is unknown, such parcel may be assessed in the name of "unknown owner." But in all cases where the local improvement is for paving, repaving, macadamizing, curbing or guttering a street or streets, the common council shall further estimate as nearly as may be the portion of the entire estimated expense to be assessed against the city at large, which shall be one-third of the total expense except as provided in section two hundred and twenty-three for the improvement of the main thoroughfares specified in that section.

The expense so estimated shall be entered in the minutes and shall be paid from the general fund in the same number of equal annual payments in which the balance of the assessment for such improvement shall be payable, and the amount of such annual payments may be included in the annual general tax levies of the several years through which said assessment is to run, except as herein otherwise expressly provided. The balance of the entire estimated expense of such improvement shall be equally assessed upon the real estate which the common council shall have declared benefited thereby in all respects as in this section above provided, and in all such cases, the determination of the common council that the expense of the improvement shall be defrayed by an assessment upon the real estate which it deems benefited thereby, as required by section two hundred and twenty hereof, shall be held to refer and relate to that portion of the expense not paid from the general fund, and the property upon which such expense is to be assessed shall be specified in the ordinance for such improvement and shall be the portion of the city deemed benefited thereby, within the meaning of said section.

§ 234. Number of annual payments; separate installments; release from tax. The common council may, at the time of the adoption of the ordinance for a local improvement, or at any time thereafter up to and at the time of the confirmation of the assessment thereof, determine by resolution in what number of equal annual payments such assessment may be paid by the person or corporation to whom the same shall be assessed, together with the rate of interest, not exceeding the legal¹¹ rate, to be paid thereupon. The first installment of said assessment shall become due and payable upon the confirmation of the assessment, and the remaining amount thereof in equal annual installments, beginning one year after the confirmation of said assessment, with

interest on the amount thereof from time to time remaining unpaid as aforesaid. In such case said assessment shall become due and be paid at the times and in the manner so specified, and upon the confirmation of said assessment by said common council the sums therein assessed upon the several parcels of land therein specified, together with the interest thereon from time to time accruing, shall become and be a lien and charge upon said parcels of land respectively, and in all future proceedings for the collection thereof, each installment shall be regarded as a separate tax; provided, however, that any person or corporation so assessed at any time after the assessment is confirmed and before the issuing of bonds¹² therefor, may have any separate lot or parcel of land released and discharged from the lien of such assessment by paying the whole amount of such assessment against such separate lot or parcel, together with such interest and fees as shall have accrued thereon up to the time of such payment and have any such separate lot or parcel so released and discharged at any time after the issuing of such bonds¹³ by paying the amount thereof then unpaid, together with any fees chargeable against the same, and interest accrued and to accrue thereon, sufficient to pay and cancel its just proportion of the interest then unpaid, and to accrue on such bonds.¹⁴

§ 235, as
amended by
L. 1918,
ch. 452,
amended.

§ 3. Section two hundred and thirty-five of such chapter, as amended by chapter four hundred and fifty-two of the laws of nineteen hundred and eighteen, is hereby amended to read as follows:

§ 235. **Bonds for cost of improvement.** In case any assessment shall be made payable as last above provided, and for the purpose of providing the means to retire the certificates of indebtedness issued for the cost of construction of¹⁵ the improvement for which the assessment shall have been ordered, the common council shall issue the bonds of the city,¹⁴ signed by the mayor and city clerk. The amount of such bonds shall not exceed in the aggregate the proportion of said assessment remaining unpaid at the time of advertising the proposed sale of bonds,¹⁴ for the payment of which time is given as provided in the last section. Such bonds shall specify on account of what improvement the same was issued, and shall bear interest, whether due or past due, except as in this section otherwise provided, respectively, at the same rate as said assessment. The amount of the bonds so issued shall be divided so that an equal sum shall be made payable at the end of two months after each of the installments of said assessment, subsequent to the first installment, is respectively made payable. ¹⁵ The common council may sell or dispose of said bonds to any person or persons or corporation; but it shall not so use or dispose of the same below the par value thereof. Nor

all it use such bonds or the proceeds thereof, or any portion of such bonds or proceeds, for any purpose other than to defray the expense of the improvement for which they were issued. No such bonds shall be made or issued until after the confirmation by the common council of the assessment made for the improvement, on account of which the bonds shall be issued, and the credit of the city shall be pledged for the redemption and payment thereof. The common council shall collect the assessments remaining undrawn for any improvement, on account of which any such bonds have been issued, as the same shall become due, and shall appropriate and use the money so collected to the payment and redemption of such bonds, and for no other purpose. Upon the maturity of any such bonds they shall be promptly presented to the city treasurer for payment and unless so presented they shall bear interest after maturity. Upon such presentation, the city treasurer shall apply all moneys in the appropriate fund, or as much thereof as may be necessary, to the payment thereof, and if there be not sufficient money in such fund to pay such bonds in full, he shall draw sufficient from the general fund to make good the deficiency, whatever the same may be, and shall forthwith report the facts to the common council. If it is not expedient or convenient to pay certain bonds so issued at maturity thereof the common council may, by resolution specifying the number of such bonds, adopted by a two-thirds vote of all the aldermen elected, provided the owner of such bonds consents and agrees thereto, extend the time for the payment thereof, not longer, however, than one year, at such rate of interest not exceeding the legal rate as may be agreed upon with the owner. The clerk shall enter in a book, to be provided for that purpose, a full and minute description of all bonds issued under this section, and the date of issue, and when the same or any part thereof are paid, the treasurer shall forthwith notify the clerk, who shall thereupon make a minute of such payment and of the date thereof in said book; and said bond, when fully paid, shall immediately thereupon be effectually cancelled.

4. Section two hundred and eighty-nine of such chapter is hereby amended to read as follows: § 289
amended.

289. Sale of lands conveyed to city; advertisement; terms of sale; proceeds. In cases where lands shall have been sold for and purchased by and conveyed to the city as hereinbefore provided, the city treasurer shall, on the direction from the common council, sell at the common council chambers, at such minimum amount as the common council shall direct, such lands at public auction to the highest bidder for cash. Notice of such sale, specifying the time, place, each parcel of land to be sold, the manner and terms of sale, shall be given by the treasurer by publication thereof in the official paper twice in each week for the three successive weeks next preceding the day of sale. Said sale shall be

open to all persons, and the same shall be fairly conducted, without preference or undue haste. Each lot or parcel of land shall be separately exposed for sale as far as practicable. At any time after the land shall have been sold for taxes and purchased by and conveyed to the city as hereinbefore provided, the city treasurer shall, upon the request of any person, advertise for sale and sell in the manner provided in this section any parcel or parcels of land so conveyed to the city.¹⁷ Such request to the city treasurer shall be in writing and signed by the party making the same, and shall contain an offer to bid upon such sale not less than fifty per centum of the assessed valuation of the property, as the same appears upon the assessment-rolls of the city of Lockport, and shall be accompanied by a certified check in the amount of ten per centum of the sum so agreed to be bidden, payable to the city treasurer, as a guaranty that the party so requesting such sale will bid thereon the amount specified, and in addition thereto, twenty-five dollars shall be deposited with the city treasurer to cover the expenses of such sale. On such sale the property shall not be sold for less than the amount specified in the written offer and if purchased by the party making such offer the amount of deposit shall be credited upon purchase price. If it shall be sold to some other party at an amount equal to the sum so agreed to be bid therefor, then the amount of such deposit shall be returned to the party making the same; but in case such property shall not sell for the amount so offered and such party shall fail to purchase the same on such sale for at least that amount, then the amount of such deposit to cover the expenses of sale and to guarantee the bid shall be forfeited to the city of Lockport, as liquidated damages for such failure to purchase. Upon payment by the purchaser of the sum for which any lot or parcel was sold, the treasurer shall execute and deliver to him a deed thereof, under the city seal, which the treasurer shall properly acknowledge, so as to entitle it to be recorded. In case any purchaser fails to complete his purchase of any parcel or parcels of land on the day of the sale, the sale shall be held open as to such parcel or parcels of land until the next following day at ten o'clock in the forenoon, when, if the sale be still incomplete, the lands shall be again exposed for sale without further notice, and sold in like manner as above prescribed. The money received from such sale shall be placed by the treasurer to the credit of the general fund.

§ 5. This act shall take effect immediately.

¹⁷ Words " , at a time other than the second Monday in September," omitted.

Apportion-
ment of
expense.

Petition to
common
council;

thereupon.

§ 2. Whenever a petition for said improvement signed by twenty-five or more tax payers of said city shall be presented to the common council, the said common council, if it shall deem the same worthy of consideration, shall proceed as follows: Such petition shall be entered at length in the minutes of the common council and be referred to a proper committee. The committee shall examine the subject and hold a public hearing thereon of which it shall give public notice by printing in two daily newspapers of said city a statement of the time and place of such hearing in the city of Schenectady on five days, the first of which shall be not more than ten days nor less than five days before such hearing, at which hearing or an adjourned day thereof all persons interested may be heard. If the proposed improvement is deemed proper and expedient by said committee, the committee

shall cause the city engineer to make a map and survey, showing the location of such proposed improvement, and the particular lots or parcels of lands, if any, required therefor, and the names of the owners or occupants thereof, so far as the same can be ascertained. Such committee shall report in writing to the common council, stating its opinion as to the propriety of the proposed improvement, with an estimate, in items, of the probable cost and expense thereof, including the amount of damages which in its judgment will be sustained in consequence thereof, by the owners and occupants of lands and buildings, if any, required to be taken for such improvements and including the amount of damages which in its judgment will be sustained by the owners and occupants of any abutting lands by reason of any change of established grades.

Report of
committee
of common
council.

Such report shall also either recommend that the whole expense be borne by the city at large or recommend that a proportion only of the expense be borne by the city at large, designating the proportion it deems proper; and shall recommend as to the remainder of the expense that the same be borne by the owners and occupants of the lots or parcels of land benefited thereby and in such case, shall designate such district or districts of assessment including that portion of the city which, in its judgment will be benefited by said improvement and should be assessed for said remainder of said expense and if more than one district is designated the proportion of said remainder that should be assigned to and assessed upon each such district. Such survey and map shall be presented with such report.

§ 3. The common council, upon the presentation of such report, unless it shall determine to deny the petition for such improvement, shall direct the city clerk to give notice by publication thereof, for at least two successive days, in the official newspaper, of the time and place at which the common council will consider the matter of such proposed improvement, which time shall be not less than six days from the first publication of such notice. At the time and place mentioned in such notice, the common council shall meet, and then or at such other time as a majority of its members then present may appoint, shall hear all persons desiring to be heard upon the matter of said proposed improvement or with reference to making the expense of the improvement in whole or in part a charge upon the city at large, or a proportion upon a district, or districts, of assessment and the extent of such district, or districts, and after hearing all persons who desire to be heard shall take such action thereon as it may deem proper, with power to modify any of the provisions or recommendations of said report and make new provisions in lieu thereof, or in addition thereto, and thereupon or at an adjourned meeting by ordinance order the improvement. No such improvement shall be ordered except by an ordinance adopted by an affirmative vote of two-thirds of all the members of the common council. The ordinance directing such improvement shall require and direct that the cost and expense thereof be defrayed by the city at large if

deemed proper or instead thereof shall specify the proportion thereof to be defrayed by the city at large and the proportion to be defrayed by local assessment and shall designate that portion or portions of the city which shall be assessed therefor and the proportions to be assessed upon each district of assessment if more than one district is designated; such ordinance shall also contain a description of the lots or parcels of land required for such improvement.

Assessment of lands benefited.

§ 4. If such ordinance directs any portion of the expense of said improvement to be defrayed by a district or by districts of assessment the respective portion or portions thereof shall be borne by the owners or occupants of the lots or parcels of land in said respective districts according to the benefit to said lots or parcels of land, not including an abutting or intersecting street as a lot; and shall be apportioned and assessed thereon in the same manner and by the same proceedings as the expense of paving streets, payable by local assessment in five annual installments, is assessed under the charter of the city of Schenectady.

Acquisition of lands.

§ 5. Lands required for said improvement, other than state lands, shall, upon the adoption of such improvement ordinance, be acquired by the same proceedings provided by the said city charter for the acquisition of lands for street improvements, subsequent to the adoption of an ordinance ordering the street improvement, except as to the method of assessing, collecting and paying the compensation for such lands and the vesting in the city of the title to, and the right to possession of, such lands. The title to lands required for said improvement shall respectively vest in the city of Schenectady, and said city shall have the right to the possession thereof respectively, upon the confirmation of the report of the condemnation commissioners relating thereto or upon the confirmation of so much of said report as relates to any of the separate pieces or parcels of land referred to therein if said report shall embrace more than one parcel of land.

Interest at six per centum per annum from the time the right to possession vests in the city shall be payable with the compensation with the costs awarded in the proceeding.

Damages from change of grade.

§ 6. Damages done by the change of the grade, heretofore legally established, of any street, by said improvement and the compensation therefor shall be ascertained in and by the proceedings provided by the said city charter for the acquisition of lands for street improvements subsequent to the adoption of an ordinance ordering the street improvement, which proceedings are hereby modified to apply to the damages and compensation to be paid for damages by such change of grade instead of for property to be taken for such improvement, except that the method of assessing, collecting and paying the compensation for such damages therein shall not apply.

Construction on state lands.

§ 7. In the construction of the dyke herein provided for, no part of the expense of so much thereof, if any, as is upon state lands, shall be borne by the lot owners in any assessment district, or districts, but shall be a charge upon the city at large.

All state authorities having jurisdiction thereover may consent to the permanent occupation for the purpose of the improvement authorized by this act, of land of the state, if any, if such occupation will not, in their opinion, interfere with the public purpose for which such land was required, and until it shall again be required by the state for such public purposes.

Occupation
of state
lands.

§ 8. The cost of lands acquired for said improvement, the amount of damages for change of grade and the costs awarded shall form part of the expense of said improvement.

What in-
cluded in
cost.

§ 9. The work of said improvement shall be done under the supervision of the commissioner of public works, and contracts therefor shall be let by the board of contract and supply as provided in said city charter. The cost and expense of making lateral connections with the public sewer and water mains may be incurred and made a part of the assessment against the lot so connected as provided by the city charter for making and paying for such connections in the case of street paving.

The city of Schenectady is hereby authorized and directed to issue bonds in the manner provided by sections sixty and sixty-one of the second class cities law in such amount as may be required to defray its share of the cost of the improvement and the expenditures imposed upon it by this act, and pending the determination of the exact amount of the city's share, the city may borrow the money on notes and renew the same until the determination of the exact amount payable by the city when bonds shall be issued as above provided from the proceeds of the sale of which said notes and interest shall be paid.

bonds and
notes au-
thorized.

The compensation for lands taken for this improvement shall be payable when the amount thereof is finally determined in respect to any piece of land taken. The compensation for damages by change of grade shall be payable when the amount thereof is finally determined. The city may raise the money to pay such land damages and grade damages on its note, or notes and renewals thereof pending the issue of bonds to defray the city's share thereof and the issue of improvement bonds or notes or certificates of indebtedness to defray the share thereof assessed upon lots and parcels of land in assessment district or districts, under sections one hundred and two and one hundred and three of the charter of said city.

Appeals from a report of the compensation to be made for lands taken or of the damages done by change of grade and from the order confirming the same, or any part thereof, or from the ordinance of the common council confirming the report of the assessors may be taken in the mode and within the time provided in sections seventy-one to seventy-six, both inclusive, of said charter of the city of Schenectady.

One or more installments of said assessment with interest, accrued in accordance with the above provisions on the entire unpaid installments, may be paid to the city treasurer at any time before proceedings to enforce the collection are taken and may then be paid with the expenses of such proceedings.

The collection thereof when due, with interest as aforesaid, or of any arrearages of installments and interest, or of interest only, shall, when so directed by the common council, be enforced by a sale of the land assessed pursuant to section sixty-eight of the charter of the city of Schenectady, which section shall apply to such collection, except that the interest shall be as herein provided and that such sale shall be subject to the lien of all portions of such assessment which shall be subsequently payable and all other city assessments and taxes then a lien thereon.

Accepted by the City.

Became a law April 3, 1922, with the approval of the Governor. Passed, three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Sections seven, nine, ten and eleven of chapter two hundred and seventy-six of the laws of nineteen hundred and twenty, entitled "An act to provide for nonpartisan primaries and elections in the city of Watertown," are hereby amended to read as follows: L. 1920, ch. 276, §§ 7, 9-11 amended.

§ 7. **Publication of candidates' names.** Within ten days after the expiration of the time for the filing of such petitions the board of elections shall publish in two newspapers of the city for three successive days the names of all the persons designated as candidates for nomination in petitions which are in proper form and have the requisite number of qualified signers, specifying which of said persons have been designated as candidates for the nomination for mayor, and which for the nomination for councilmen. There shall be prefixed to the list of names a statement of the day upon which the primary election will be held, and a further statement that petitions have been filed with the board of elections designating such persons as candidates for nomination for the respective offices, above specified, naming them.

§ 9. **Declination of designation; new designations.** If a person, who has been duly designated as a candidate, declines such designation, in a writing signed by him and duly acknowledged and filed with the board of elections within three days after the third Tuesday preceding the ensuing primary, or if a person regularly designated as a candidate dies before the primary election, the committee appointed on the face of the petition for the designation of such person may make a new designation by making and filing with the board of elections a certificate setting forth the cause of the vacancy, name of the person designated by the committee and the name of the person originally designated; such certificate shall be subscribed and acknowledged by a majority of the members of the committee and the members of the committee subscribing to the same shall make oath, before the officer or officers before whom they severally acknowledged the execution of such certificate, that the matters therein stated are true to the best of their information or belief. Such certificate must be

filed with the board of elections not later than the second Tuesday preceding the primary election, in case the designation made by petition has been declined. If the person originally designated has died after the ballots have been printed, pasters must be prepared and furnished as provided in the election law. If a candidate designated for nomination does not decline the designation within the time hereinbefore mentioned and he is thereafter nominated at the primary election, his name shall be printed on the official ballot and he shall not be permitted to decline such nomination.

§ 10. **Nonpartisan primary election.** At the time of the fall primary, as defined by the election law, in any year when officers of the city are to be elected, there shall be held a nonpartisan primary election for the purpose of nominating the candidates for mayor or councilmen, or both, for a term of office commencing on the first day of the second calendar month next succeeding their election. Such primary election shall be held at the same places as such fall primary and conducted by the same officers. Every qualified voter shall be entitled to vote at such non-partisan primary election at the polling place in the election district in which he is a resident.

§ 11. **Revision and correction of registers of voters; delivery to inspectors.** On or before the third Monday preceding the fall primary, the board of elections shall deliver to the city clerk the two copies of the register for each election district to be used at such primary, and such clerk, beginning on such Monday and continuing during office hours to and including the ensuing Saturday, shall make necessary changes in such registers for the purpose only of such primary. He shall retain upon the registers of the respective districts the names of all persons who may be qualified to vote at such city election in such district which appear upon the register of voters for the last preceding general election in such election district, except the names of such voters as are proven to his satisfaction to have ceased to be voters of the district since their names were placed upon such register, and shall, at such meetings, add only to such register the names of the persons so qualified who shall personally appear before him. In the remarks column, opposite an added name, he shall write his initials, and in the case of a person whose name is added upon his removal from another election district in the city, he shall also specify the district from which he removed. He shall not strike a name from the register, but, in lieu thereof, in the case of a person proven to his satisfaction to have ceased to be a voter of the election district, he shall enter in the remarks column, opposite the name of such voter, the word "moved" or "died," as the case may be, together with his initials; and for the purpose only of the fall primary, the name of such person shall be deemed stricken from the register. In the case of a removal to another election district in the city, he shall also specify the district to which the voter has moved. Nothing herein contained shall impair the powers and duties, with respect to

such registers at a meeting thereafter and before the general election, of inspectors of election for the purpose of revising or correcting the register for a special election if any, nor dispense with the necessity of the personal appearance at such meeting of a qualified voter whose name was not on the register at the time of its delivery by the board of elections to the city clerk. Nor shall this section authorize the city clerk to enter on the registers the party enrollment of any person by transfer from one election district to another, or otherwise. At the expiration of the period above provided for making such changes in the register, the clerk shall return such registers to the board of elections, which shall retain them until they are delivered to the clerk, pursuant to the election law, for delivery to boards of inspectors at the fall primary.

§ 2. Section twelve of such chapter is hereby repealed.

§ 12
repealed.

§ 3. Sections thirteen, fourteen, fifteen, seventeen and eighteen of such chapter are hereby amended to read as follows:

§§ 13-15,
17, 18
amended.

§ 13. **Polling places; equipment.** The board of elections shall provide for each polling place sample ballots for the offices of mayor and councilmen and separate tally sheet and return blanks for recording and returning the vote on nominations for such offices. The expense thereof shall be a charge upon the city.

§ 14. **Expenses.** The additional expense of the fall primary occasioned by holding therewith the non-partisan primary provided for in this act shall be paid by the city and in the same manner as the expenses of general elections. If provisions shall not have been made for the payment of such expenses in any year, then the officers who are empowered by law to make such provision in the city are hereby authorized and directed to raise money, to such amount as may be necessary in any manner provided by law for meeting expenses in anticipation of the collection of taxes and resources and to pay such expenses therefrom. The amount so raised shall be included in the amount to be raised by tax in the ensuing year.

§ 15. **City primary ballots; ballot boxes, et cetera.** The board of elections shall cause to be prepared, printed and supplied for use at the primary election hereunder official city primary ballots in the form hereinafter provided and no other ballot shall be used at such election for the nomination of candidates for city offices. Such board shall furnish a separate ballot box in each election district in which such ballots shall be deposited. No names of candidates for nomination for the offices of mayor or councilmen shall be printed upon the official city primary ballot except after designation duly made by petition. No names, words, signs or matter whatsoever shall be printed, written, marked or in any manner placed upon such ballot, except as provided in this act.

§ 17. **Conduct of election and canvass of vote.** The provisions of the election law relating to the conduct of elections and the canvass of votes shall apply to a primary election held under this act, provided, however, that the boxes containing the party

ballots shall be first opened and the ballots therein shall be canvassed and such canvass completed and the ballots returned to such box before the opening of the box and the canvass of the votes for the nomination of city officers. The number on the party ballot, if any, delivered to a voter and number on such ballot voted shall be entered first in the proper columns of the poll-book sections of the register and such numbers for the city officers ballot shall be entered immediately below, in the same columns, opposite the name of the voter. If the voter does not receive or vote a party ballot, such numbers on the city officers ballot shall be entered alone, followed by the word "city" or abbreviation "cit."

§ 18. **Voting machines on primaries.** Nothing herein contained shall be construed to prevent the use of voting machines at the fall primary in taking the vote on nominations for city officers and in the event of their use the provisions of the election law relating to voting machines shall apply so far as the same may be applicable and not inconsistent with the provisions of this article; but a voter who is given a party ballot shall not be allowed to enter the voting machine curtain or inclosure until after his party ballot shall have been returned to the inspectors for deposit in the ballot box. Such voting machines, if equipped with single straight ticket devices for use at the general election, shall have such devices securely locked at the primary elections. The ballots prepared for use upon such machines at such primary elections shall, in addition to such instructions to voters as may be proper, contain only the names of the offices for which candidates are to be nominated, a direction stating the number to be voted for for each office, and the names of the candidates duly designated for nomination, with proper blank spaces for independent voting.

§ 4. The act shall take effect immediately.

registered architect by reason of his or her having been in practice as such prior to the twenty-eighth day of April, nineteen hundred and fifteen, may be required by the board to file an affidavit setting forth the facts and to present such evidence as will satisfy the board that he or she was in bona fide practice previous to such day.

§ 78. **Board of examiners and registration.** There shall be a state board of examiners and registration of architects, who, and their successors, shall be appointed by and hold during the pleasure of the board of regents of the university of the state, and who, subject to the approval and to the rules of the regents, may make rules for the examination and registration of candidates for the certificates provided for by this article. Such board shall be composed of five architects, who have been in active practice in the state of New York for not less than ten years, previous to their appointment, selected by the regents. Such examiners shall be entitled to such compensation for their services under this article as the regents shall determine, not exceeding in the aggregate the amount of fees collected from applicants for certificates and renewal of registration.

§ 79. **Qualifications; examinations; fees.** Any citizen of the United States, or any person who has duly declared his or her intention of becoming such citizen, being at least twenty-one years of age and of good moral character, may apply for examination or certificate under this article, but before securing such certificate shall submit satisfactory evidence of having satisfactorily completed the course in a high school approved by the regents or the equivalent thereof and subsequent thereto of having satisfactorily completed such courses in mathematics, history and one modern language, as are included in the first two years in an institution, approved by the regents, conferring the degree of bachelor of arts or science. 3. The board in lieu of examinations shall accept satisfactory evidence as to the applicant's character, competency and qualifications, and that he or she has been continuously engaged in the practice of architecture for more than two years next prior to the twenty-eighth day of April, nineteen hundred and fifteen, or that he or she has been actually engaged in the practice of architecture on his or her own account or as a member of a reputable firm or association for more than one year prior to such day; providing the application for such certification shall be made on or before January first, nineteen hundred and twenty-three.

Any architect who has lawfully practiced architecture for a period of more than ten years without the state shall be required to take only a practical examination, which shall be of the nature to be determined by the board.

Every person applying for examination or certificate under this article shall pay a fee of twenty-five dollars to the regents.

§ 79-a. **Certificates.** 1. The result of every examination or other evidence of qualification, as provided by this article, shall be reported to the regents by the board, and a record of the same shall be kept by the regents, and the regents shall, unless deemed otherwise advisable, issue a certificate to every person certified by the board as having passed such examination or as being otherwise qualified to be entitled to receive the same.

2. Every person securing such certificate shall register in the office of the county clerk of the county in which he or she maintains his or her principal place of business, in a book kept by the clerk for such purpose, his or her name, residence, and post-office address, source, number and date of his or her certificate to practice architecture and the date of such registration, which registration he or she shall be entitled to make only upon showing to the county clerk his or her certificate and making an affidavit of the above facts, and that he or she is the identical person named in the certificate; that before receiving the same he or she complied with all of the preliminary requirements of this article and the rules of the regents and the board as to the terms and the amount of study and examination; that no money other than the fees prescribed by this article and such rules was paid directly or indirectly for such registration, and that no fraud, misrepresentation or mistake in material regard was employed or occurred in order that such certificate should be made, which affidavit shall be preserved in a bound volume by the county clerk. The county clerk shall issue a certificate giving the date and name of said registered architect preceded by the words "registered as authority to practice as a registered architect, in the clerk's office of county"; and shall issue to each per-

son duly registered and making such affidavit a certificate of registration in his or her county which shall include a transcript of the registration. Such transcript and the certificate of registration may be offered as presumptive evidence in all courts of the facts stated therein. The county clerk's fee for taking such registration and affidavit and issuing such certificate shall be one dollar. Any person who, having lawfully registered as aforesaid, shall thereafter change his or her name in any lawful manner, shall register the new name with a marginal note of the former name, and shall note upon the margin of the former registration the fact of such change and a cross reference to the new registration. A county clerk who knowingly shall make or suffer to be made upon the book of registry of architects kept in his office any other entry than is provided for in this article shall be guilty of a violation of this article, punishable as hereinafter provided.

3. An architect having duly registered to practice as a registered architect in one county and removing his practice or a part thereof to another county or regularly engaging in practice or opening an office in another county, shall show or send, by registered mail, to the clerk of such other county, his certificate of registration. If such certificate clearly shows that the original registration was duly issued under seal by the board of regents, the clerk shall thereupon register the applicant in the latter county on receipt of a fee of twenty-five cents and shall issue a certificate giving the date and name of said registered architect, preceded by the words "Registered also in county," and return the certificate to the applicant. A county clerk having properly issued a certificate of registration to an architect shall forward a duly attested copy of the same, and a copy of the affidavit and evidence upon which said certificate was issued, to the secretary of the board, within thirty days of such initial registration of a duly registered architect. On or before the first day of May of each year the secretary of the board shall mail to every architect registered in the state of New York a blank application of re-registration, addressing the same in accordance with the post-office address given at the last previous registration. Upon receipt of such application blank, which shall contain space for the insertion of his or her name, office and post-office address, date and number of his or her certificate and such other information as the regents deem necessary, he or she shall sign and swear to the accuracy of the same before a notary public, after which he or she shall forward this sworn statement and application for the renewal of his or her registration certificate to the secretary of the board together with the fee of two dollars. Upon receipt of such application and fee and having verified the accuracy of the same by comparison with the applicant's initial registration statements the secretary of the board shall issue a certificate of registration which shall render the holder thereof a legal practitioner of architecture for the ensuing year. These certificates of registration shall bear date

of September first of the year of issue, and shall expire on the thirty-first day of August in the year following. Applications for renewal of registration therefor must be made on or before the first day of September of each year, and if not so made an additional fee of one dollar for each thirty days' delay beyond the first day of September and up to the first day of January shall be added to the regular fee. On the first day of January of each year, or within ten days thereafter, the secretary of the board shall publish and mail to every registered architect in the state of New York a printed list of the legally registered architects within the state, and each such published list shall contain at the beginning thereof these words: "Each registered architect receiving this list is requested to report to the secretary of the board the names and addresses of any architects known to be practicing architecture whose names do not appear in this registry. The names of persons giving such information shall not be divulged." Should any architect continue to practice architecture beyond the first day of January, despite the fact that his or her name does not appear in the registry, he or she shall be counted as an illegal practitioner, and his or her certificate may be suspended or revoked by the regents, as provided for in this section. All practitioners of architecture already registered in this state at the time of the passage of this act shall make application to the secretary of the board for the re-registration blank upon receipt of which he or she shall, in like manner already described, make application for re-registration, forwarding to the secretary of the board the re-registration blank properly filled in and accompanied by the fee of two dollars. Said application and fee must reach the secretary on or before the first day of December following the adoption of this article, failing which the delinquent shall be dealt with as outlined in this section.

The fees obtained from the renewal of registration of architects as required by this section shall be remitted by the secretary of the board to the regents to be applied as hereinafter provided.

4. The regents may revoke any certificate, if such action be recommended by the board, after thirty days' written notice to the holder thereof and after a hearing before the board, upon proof that the holder of such certificate is practicing in violation of subdivision three of this section; or upon proof that such certificate has been obtained or that the person mentioned therein has obtained such certificate by fraud or misrepresentation; or upon proof that any money was paid for such certificate except the regular fees hereinbefore set forth; or upon proof that the holder of such certificate is falsely impersonating a practitioner or former practitioner of the like or different name or who is practicing under an assumed, fictitious or corporate name, or upon proof that the holder of such certificate has been guilty of a felony in connection with the practice of architecture.

§ 79-b. **Violation of article.** Any violation of this article shall be a misdemeanor, punishable for the first offense by a fine of not less than fifty and not more than one hundred dollars, and for a

subsequent offense by a fine of not less than two hundred nor more than five hundred dollars, or imprisonment for not more than one year, or both.

§ 79-c. **Certificate presumptive evidence.** Every unrevoked certificate and certificate of registry made as provided in this article shall be presumptive evidence in all courts and places that the person named therein is legally registered. Any registration in accordance with this article shall be lawful authority to practice architecture.

§ 79-d. **Conviction and prosecution of offenders.** All violations of this article when reported to the regents and duly substantiated by affidavits or other satisfactory evidence shall be investigated by it and if the report is found to be true and the evidence substantiated the regents shall report such violations to the attorney-general and request prompt prosecution.

The regents may appoint inspectors for the purpose of enforcing this section and the salaries and expenses shall be paid from such funds as may be available therefor.

§ 79-e. **Fees, fines, penalties.** The fees obtained from the renewals of registration of architects as required by this section shall be remitted by the secretary of the board to the regents to be applied as hereinafter provided. All fees, fines, penalties and other moneys derived from the operation of this article shall be paid to the regents, who shall account for the same and who shall pay therefrom all salaries and expenses incurred by the board, the secretary of the board and the regents, in carrying out the provisions of this act, and who shall pay into the state treasury, after the payment of these charges, any portion of such moneys remaining unexpended.

§ 2. This act shall take effect immediately.

It shall be issued at the discretion of the employment certifying officer for a definite period not exceeding five months, but if any such certificate expires between the first day of July and the thirty-first day of August, it shall, notwithstanding, continue in force until the thirty-first day of August of such year.

4. An employment certificate shall not be valid for the employment of a girl under eighteen years of age to deliver mess-

ages or articles of any kind outside of the place of her employment.

5. A minor while employed shall keep in his possession the identification certificate issued to him and shall produce it on demand of a representative of the department of labor or of the school authorities.

6. Employment certificates, vacation employment certificates and newsboy permit badges shall be issued only by the following officials: In cities and school districts having a population of four thousand five hundred or more, by the superintendent of schools, elsewhere by the district superintendent; provided that any such superintendent of schools may authorize and depute in writing one or more public school officials other than attendance officers to act in his stead, as employment certifying officers in accordance with the regulations of the commissioner of education. The number of persons so deputized as employment certifying officers, except for the purpose of issuing newsboy permit badges, shall not exceed the proportion of one for each quarter million of the population or fraction thereof of any such city or school district. A district superintendent under the rules laid down by the commissioner of education may depute in writing such principals of union free schools, school officers, or employees, other than attendance officers as may be necessary to act as employment certifying officers.

A. The parent, guardian or custodian of the minor shall make application in person for the issuance of a school record certificate to the principal, chief executive officer of the school which the minor attends or as otherwise provided in section six hundred and thirty of this chapter.

B. If they are approved and if the minor is under sixteen years of age and is not a graduate of an elementary school course of study, he shall also test the minor as to his ability to read and write simple sentences in the English language, and shall sign and file a statement as to the minor's ability in these respects together with the sentences written by the minor. If the minor fails in the test he shall be rejected, but if he succeeds or if he is not required to take the test, the employment certifying officer shall transmit the evidence of age to the board of health.

C. Such board shall designate a medical officer who shall make a thorough physical examination of the minor. He shall record the results of the examination and such other facts concerning the minor's physical condition and history as may be required on the record of physical examination provided for that purpose.

If the medical officer shall find that the minor has reached the normal development of a child of his age and is in sound health, he shall then issue to the minor a certificate of physical fitness stating these facts. If he finds the minor to be physically unfit in either of these respects he shall certify these facts and return the evidence of age to the employment certificating officer who shall reject the applicant.

D. If the minor receives a certificate of physical fitness and is under sixteen years of age the employment certificating officer shall issue to the minor a statement that an employment certificate will be granted to him upon the presentation of a statement signed by the prospective employer or by his duly authorized representative that he expects to give the minor present employment and setting forth the character of such employment and the number of hours per day and per week which the minor will be employed and the location of the place of employment.

E. Upon the presentation by the minor of the statement signed by the prospective employer or if the minor be more than sixteen years of age upon the receipt of the certificate of physical fitness, the employment certificating officer shall issue to the minor a general employment certificate together with an identification certificate containing the number of the employment certificate and the principal facts entered thereon.

F. The employment certificating officer shall sign an employment certificate and the minor to whom it is issued shall sign it in his presence.

8. For the issuance of a general employment certificate for agricultural work only no statement of the prospective employer shall be required; for the issuance of a vacation employment certificate, the school record certificate and the test in reading and writing shall be required, otherwise the foregoing procedure shall be followed.

9. Contents of employment certificate. An employment certificate shall contain the name, place of residence, date of birth, height, color of hair and color of eyes of the minor. Except in the case of a general employment certificate for agricultural work only and a vacation employment certificate it shall also contain the name and place of business of the prospective employer and a description of the work which the minor expects to perform.

10. Reissuance of employment certificates. Any employed minor between fourteen and eighteen years of age for whom an employment certificate is required by the provisions of this chapter, shall obtain a new employment certificate before taking up new employment, except a minor to whom a general employment certificate for agricultural work only or a vacation employment certificate has been issued, and unless he shall be in possession of an employment certificate lawfully issued to him prior to September first, nineteen hundred and twenty-one. He shall be entitled thereto upon the return to the employment certificating officer of the old employment certificate or of his identification certificate and if the minor is between fourteen and sixteen years of age

upon the presentation to such officer of a statement from the prospective employer as hereinbefore provided. But if the employment certificate formerly issued cannot be produced and if the employment certificating officer is satisfied that the minor's application is made in good faith, provided it can be shown that such a certificate had been issued to the minor, then the employment certificating officer may issue to the minor a new employment certificate.

11. Evidence of age. The evidence of age shall show that the child is at least the age required for the issuance of the school record certificate and shall be as follows:

a. Birth certificate: passport or baptismal certificate. A certified transcript of the birth certificate filed according to law; a duly certified transcript of a record of baptism or a passport, showing the date of birth of the child.

b. Other documentary evidence. c. Physicians' certificates of age. If the child appears in the school records and to the employment certificating officer to be the required age and can furnish no documentary evidence of age, the employment certificating officer may receive an application signed by the child's parent, guardian, or custodian for physicians' certificates as herein provided. The application shall be on file for not less than forty days and shall contain (1) The name, the place and date of birth and the present residence of the child; (2) such further facts as may aid in determining the child's age. If within such period no facts appear to contradict any material statement of such application the officer shall direct the child to appear for physical examination before two physicians who shall be designated by the board of health. If the physicians certify in writing that they have separately examined the child and that the child is at least of the required age, such certificate shall be sufficient evidence of age. If their opinions do not concur the child shall be examined by a third physician similarly designated and the concurring opinions shall be accepted as evidence of the age of the child.

d. The employment certificating officer shall require evidence of age in the order designated in this subdivision and shall not accept the evidence permitted in paragraph b or c of this subdivision unless he receives and files in addition a statement signed by the child's parent, guardian or custodian that he has made every effort to obtain the evidence specified in the preceding paragraph or paragraphs and that none can be procured.

12. Fee for making physical examinations. Except in a city of the first class and of the second class, a fee not exceeding fifty cents shall be paid to the physician designated by the board of

health for the physical examination required by the provisions of this section and this fee shall be a charge against the city, town or village where the child resides.

13. Newsboy permit badge. a. When the schools are in session a newsboy permit badge shall be issued only on the personal application of the parent, guardian or custodian to the principal of the school the boy attends and the certificate of such principal that the boy is of normal development and physically fit for such employment* and is twelve years of age or upwards as shown by the school records, and when the schools are not in session upon the similar certification as complete as may be of the employment certifying officer, who in either case shall file the certificate.

b. The newsboy permit badge shall be worn in plain sight whenever the boy to whom it was issued is engaged in the work it authorizes him to do.

14. Revocation of employment certificates and newsboy permit badges. An employment certificate or a newsboy permit badge may be revoked for cause by the superintendent of schools or the district superintendent of schools within their respective jurisdictions.

15. Any person who makes a false statement in or in relation to any employment certificate as to any matters required by this act or in any affidavit, record, transcript or certificate therein provided for, is guilty of an offense, punishable in each case by a fine of not more than a hundred dollars or by imprisonment for not more than sixty days, or by both such fine and imprisonment.

16. The commissioner of education is hereby authorized to prescribe the form and content of all certificates and newsboy permit badges required by this chapter except that in the case of the record of physical examination, the approval of the commissioner of health shall also be required, and in the case of the employment certificate the approval of the industrial commissioner.

§ 50. **Sidewalks, construction and repair thereof, assessment of expense.** The common council shall have power to require sidewalks and curbs and the whole or any part of such sidewalks or curbs of said city to be constructed, made, paved, flagged, curbed, relaid, reset, mended or repaired by the owners or possessors of land adjoining such sidewalks or curbs and to require any or either of such improvements, acts or things to be made or done in such a manner, at such times and of such materials as it may prescribe and direct. The common council in the resolutions or ordinances requiring any of the improvements, acts or things authorized by

this section, shall specify in what manner and within what time and of what material the same must be made or done. At least ten days before the expiration of the time specified for such performance it shall cause to be served upon the owners of the lands adjoining such sidewalks or curbs so to be improved as aforesaid, a copy of said resolution or ordinance, with a notice, that, if the same is not done within the specified time by the several owners of the adjacent lands, it will be done by said common council at the expense of such owner. Such service shall be made upon the owner by delivering the same to him personally or by leaving the same, in his absence, with some member of his family or person of suitable age, residing with him. In case the land is unoccupied or the owner a non-resident, such service may be made upon the agent of such owner if known to the common council or by depositing the same in the postoffice, properly enclosed with the postage thereon prepaid, and directed to such owner at his place of residence or the postoffice nearest his place of residence. In case such owner or his place of residence is unknown, and there is no resident agent to the knowledge of the common council, such service may be made by affixing a copy of such ordinance or resolution and notice upon a conspicuous part of said premises; and in such case¹ the common council shall also, at least ten days before the expiration of the time specified for the performance, cause a copy of such resolution or ordinance to be published at least once in the official paper of said city. Affidavits of the service and publication of such resolution or ordinance may be filed or recorded, or both, in the office of the clerk of said city, and the affidavits or the records thereof, or a certified copy of either, shall, in all courts and places, actions and proceedings, be prima facie evidence of the facts stated therein. In case any such improvements, act or thing required shall not be made, done or completed, as required, within the time so specified, the common council shall have the power to make, or to complete the same, and having done so, shall without giving any further notice, proceed to make a special assessment roll of the expense thereof against the delinquent owners and upon said adjoining lands owned by them, assessing upon each parcel or lot of land the expense of the sidewalks and curb immediately upon and abutting it and file the same with the city clerk. Whereupon the said city clerk shall give notice in the official newspaper of the city that the same has been left with him and may be examined by all persons interested; and that at a time and place to be specified in said notice, which shall be not less than ten days from the first publication thereof, the common council will hear and act upon the application of any person deeming himself aggrieved by said special assessment, to have the same altered or corrected, as he may deem just. After hearing all such applications, the common council may proceed to make such alterations

And said assessment shall thereupon* become and be final and conclusive upon all parties interested in the real estate affected thereby, and the said assessment shall be collected in the manner prescribed for the collection of special assessments in this act. If the lessee of any property is obliged to pay any assessment as above provided, he may deduct that amount from the rent to be paid the owner. It shall be the duty of every owner or occupant of every lot or piece of land to keep the sidewalks adjoining his lot or piece of land at all times clean and free from snow, ice or other obstructions. It shall be the duty of such owner or occupant to remove new ice and freshly fallen snow from such sidewalks and to keep the same so cleaned and removed at all times. In case such owner or occupant shall neglect or refuse to clean said sidewalk within such time as required, he shall be subject to such fine or penalty therefor as shall be specified by the common council and in addition thereto the superintendent of public works shall, in such case, proceed to clean the same without notice to such owner or occupant. In case any sidewalk in said city shall, at any time, in the judgment of the superintendent of public works otherwise require cleaning, said superintendent shall serve a notice upon the owner or occupant of the property requiring him to clean the same within twenty-four hours after the service of such notice. Such notice shall be served in the same manner as the notice for the construction or repair of sidewalks and curbstones as provided in the next preceding section. If such notice be served by mail the owner shall have three days after service thereof within which to comply with such requirements. If any person so required to do any such cleaning shall neglect or refuse to do the same within the time prescribed therefor, the said superintendent shall clean the same in such manner as he shall deem proper and suitable, in which case he shall report the fact and the expense thereof to the owner, in the same manner as notices to do the cleaning, requiring the payment of such expenses to the city chamberlain within ten days after the delivery or mailing of such statement. If such expense be not paid to the city chamberlain within the time prescribed therefor, the said superintendent shall file his affidavit of the actual expenses thereof with the clerk of the city and the same shall thereupon be assessed by the common council and collected the same as other local assessments.

§ 45. **Costs of paving.** The expenses of such paving improvements as are made along and are adjacent to any property owned by the city, and intersections of streets and one-half of the remainder of such improvements exclusive of the amount charged to any railroad company, shall be paid by the city at large from the street fund. The balance of the expense of such improvement shall be paid and become a charge upon and shall be assessed against such real estate and real property abutting and adjacent to the street or streets, alleys, public places or way or any part thereof and by and against any railroad company whose rails or tracks occupy any portion of that part of the street or other way or public place so improved; but no part of the expense of such improvements shall be assessed upon any lands not bordering upon or touching the part or parts of such street, or other way or public place upon which such improvements are made. The common council shall determine and assess upon any railway company liable to assessment hereunder its share of the costs of such improvements and the said assessment shall be collected in the same manner as other assessments are collected by the chamberlain as provided in this act. The common council shall assess one-half of the residue of such expense upon the real estate fronting upon said street or section of a street, public place or square so paved, each property owner being assessed one-half of the expense of the paving abutting on his premises exclusive of the amount paid by any railroad corporation, and shall thereupon cause a notice to be published twice in the official papers of said city, that the assessment roll has been filed with the city clerk and that the common council will on a certain day and place to be therein specified, which shall not be less than ten days from the first publication of said notice, proceed to confirm said assessment. At the time and place named in said notice or at any time or place to which the common council may from time to time adjourn said hearing, any person interested may appear before the common council and apply to have said special assess-

ment roll altered or corrected as he may deem just. After hearing all such applications the common council may proceed to make such alterations and corrections in said special assessment roll, as it may deem just, and by resolution confirm the same; the said assessment shall thereupon be and become final and conclusive upon all parties interested. The above provision relating to paving and the cost thereof shall be construed in relation to and in connection with the provisions of existing franchises granted to street railway companies operating within the city of Glens Falls.

¹ The property owner assessed as above provided may pay his assessment in five equal annual instalments. The first instalment shall become due and payable one day after the notice of receiving taxes is published by the chamberlain, and the remaining instalments shall become due and payable annually thereafter until the whole amount is paid. At the time any instalment is due the property owner may pay all the instalments remaining unpaid. Interest at the rate of six per centum per annum shall be charged on all deferred payments, and if the payments are not made when due, the chamberlain shall collect the additional per centums mentioned in section one hundred and forty-seven of this act. The chamberlain shall not be required to publish notice of receiving taxes except in the year the assessment is made. The common council may borrow upon the credit of the city sufficient money to pay the paving costs assessed against the property owners; such loan to be paid not later than five years after the debt is incurred, and the payments made by the property owners shall be applied to the payment of such loan.

§ 2. This act shall take effect immediately.

The police justice of the city of Rochester and the judges of the municipal court of the city of Rochester in office when this act takes effect shall continue to hold office until the expiration of their respective terms, under the title of judges of the city court. An attorney, admitted to practice as such in the courts of the state of New York, duly appearing for a party in the civil branch of the city court, may enter into a stipulation on behalf of such party, and he may execute a satis-

faction-piece of any judgment rendered in such court in favor of such party, either before or after the filing of a transcript thereof in Monroe county clerk's office, in the same manner and with the same effect that an attorney of record might execute such satisfaction-piece pursuant to section five hundred and thirty of the civil practice act.

§ 2. Subdivisions one, four, eight, twelve and thirteen of section four hundred and eighty-eight, subdivision (c) of section four hundred and eighty-nine, sections four hundred and ninety-two, four hundred and ninety-three, four hundred and ninety-four, four hundred and ninety-five, four hundred and ninety-six, four hundred and ninety-seven, four hundred and ninety-eight, four hundred and ninety-nine, five hundred and five, five hundred and seven, five hundred and nine, five hundred and eleven, paragraph (a) of section five hundred and twelve, section five hundred and thirteen, subdivision five of section five hundred and sixteen, sections five hundred and seventeen, five hundred and eighteen and five hundred and nineteen of such chapter, as added by chapter four hundred and ninety-five of the laws of nineteen hundred and eighteen, are hereby amended to read, respectively, as follows:

1. All civil actions and proceedings cognizable by law by justices of the peace or justices' courts as set forth in and prescribed by the justice court act. § 488, subds. 1, 4, 8, 12, 13; § 489, subd. (c); §§ 492-499, 506, 507, 509, 511; § 512, (a); § 513; § 516, subd. 5; §§ 517-519, as added by L. 1918, ch. 495, amended.

4. An action upon a judgment for a sum of money rendered in a court of record or not of record of the state of New York, including an order of a court or judge directing the payment of a sum of money, where the sum claimed does not exceed two thousand dollars, exclusive of costs. The right to bring an action upon a judgment for a sum of money rendered in a court of record is regulated by the provisions of section four hundred and eighty-four of the civil practice act. An action cannot be brought in the city court upon a judgment rendered by the city court or by the former municipal court, for a sum less than twenty-five dollars, exclusive of costs, until three years have elapsed since the rendition and docketing of the judgment.

8. An action on a surety bond or undertaking taken by any court of record or not of record of the state of New York, or judge or justice thereof, where the sum claimed does not exceed two thousand dollars, exclusive of costs. The right to bring an action upon such surety bond or undertaking is subject to the regulations and conditions prescribed by the civil practice act or otherwise by law.

12. An action against an executor or administrator, as such, within the time fixed by law, where the amount of the claim does not exceed two thousand dollars, exclusive of interest, and the claim has been duly presented to, and rejected by, said executors or administrators. Costs shall not be awarded against an executor or administrator except as provided in sections one thousand four hundred and ninety-nine of the civil practice act.

13. An action to recover damages for an escape from jail lib-

erties, as provided by the prison law, where the sum claimed does not exceed two thousand dollars.

(c) **Jury term, civil branch; trial jurors.** Trial jurors for the civil branch shall have the same qualifications, and shall be selected and drawn by the same authorities and in the same manner as trial jurors of the county court held in the county of Monroe; and all provisions of the judiciary law and the civil practice act as they may be amended from time to time, except such as are inconsistent with this act, are hereby made to apply to this court and to trial jurors therein. At least ten days before the opening of any jury term the number of trial jurors to be drawn for such term shall be fixed by the board of judges, and due notice thereof shall forthwith be transmitted to the clerk. Each juror shall be paid two dollars for each and every day or portion thereof that he actually serves upon a jury, and each person summoned to attend as a jurymen shall be paid two dollars for each day that he attends, unless he is excused at his own request, such payment to be made only upon certificate of the judge presiding, of the number of days served and the amount due each juror, and shall be paid by the city treasurer out of the funds of the court appropriated for that purpose, subject to audit by the comptroller.

§ 492. Summary proceedings. The judges of the city court have, and each of them has, jurisdiction in summary proceedings to recover the possession of real property under article eighty-three of the civil practice act, and of the labor law, and power to issue process and perform all other necessary functions and duties, to exercise and make effective such jurisdiction; and the provisions of said title and said labor law apply to a summary proceeding commenced before a judge of the city court.

§ 493. Process in civil branch. All process issued by the court or a judge thereof must be made returnable before the court unless otherwise provided herein, and may be signed by a judge, clerk, or deputy clerk of the court, and may be executed and served within the city of Rochester by any constable of the city or by the sheriff of Monroe county or his deputies; except that a subpoena and process to enforce obedience thereto may be served within the county of Monroe. A summons issued upon a verified complaint in an action on contract, and the verified complaint may be served at the same time by delivering to and leaving with the defendant personally copies thereof, and may be served by any person of full age not a party to the action. The proof of service thereof if served by a constable may be made by his certificate and must be made by affidavit if served by any other person. Affidavits and certificates of service must state the time and place of service.

§ 494. Arrest, attachment and replevin. The court has power to grant and issue orders of arrest, warrants of attachment and requisitions in replevin in the same cases and in the same manner as specified in the justice court act, except that the sum claimed

may be two thousand dollars or under, exclusive of costs; and the provisions of that act apply to all proceedings thereon so far as the same are consistent herewith. The clerk of the civil branch of the court is authorized and empowered to grant and issue warrants of attachments and requisitions in replevin and approve bonds therein in the absence from the court of all of the judges.

§ 495. **Pleadings.** The pleadings are:

1. Plaintiff's complaint.
2. Defendant's answer.
3. The defendant's demurrer to the complaint or to one or more distinct causes of action separately stated therein.
4. Plaintiff's demurrer to one or more counterclaims stated in the answer.

Pleadings must be written, unless the court permit them to be oral; if oral, the substance thereof must be entered in the docket of the court; if in writing, they must be filed and a reference to them made in the docket.

Where the complaint, whether served with the summons, or filed and served after the service of summons, is verified, all subsequent pleadings, including a bill of particulars, shall be verified.

§ 496. **Complaint.** The complaint must contain:

1. The names of all the parties to the action, plaintiff and defendant.
2. A clear, precise and unequivocal statement of the facts constituting each cause of action.
3. A demand of the judgment to which the plaintiff supposes himself entitled.

At the time of the issuing of the summons plaintiff may file with the clerk of the court a written complaint subscribed by the plaintiff or an attorney admitted to practice as such in the courts of the state of New York, and verified in the manner prescribed by the civil practice act in respect to pleadings in courts of record.

§ 497. **Answer.** The answer of the defendant must contain:

1. A general or specific denial of each material allegation of the complaint controverted by the defendant, or of any knowledge or information thereof sufficient to form a belief.
2. A clear, precise and unequivocal statement of any new matter constituting a defense or counterclaim. A counterclaim exceeding in amount the jurisdiction of the court may be set up, and if established must be set off against the plaintiff's demand as established and judgment given for the balance, the whole of such set-off and judgment not to exceed the jurisdiction of the court; the judgment in such case must state whether it is for the whole or what part of such counterclaim, and the party interposing the same is not estopped from bringing a separate action for the balance thereof. An answer to a verified complaint must be in writing and subscribed by the defendant or an attorney admitted to practice as such in the courts of the state of New York,

and verified in the manner prescribed by the civil practice act in respect to pleadings in courts of record.

§ 498. **Question of title to real property.** The court has not jurisdiction in an action in which the title to real property comes in question; and the provisions of article eight of the justice court act apply to actions in which it is claimed or appears that the title to real property comes in question.

§ 499. **Demurrer.** The demurrer to the complaint, or to one or more distinct and separate causes of action therein, may be upon one or more of the following objections thereto appearing upon the face thereof:

First: That the court has not jurisdiction of the person of the defendant.

Second: That the court has not jurisdiction of the subject of the action.

Third: That the plaintiff has not legal capacity to sue.

Fourth: That there is another action pending between the same parties for the same cause.

Fifth: That there is a misjoinder of parties plaintiff.

Sixth: That there is a defect of the parties plaintiff or defendant.

Seventh: That the causes of action have been improperly united.

Eighth: That the complaint does not set forth facts sufficient to constitute a cause of action, or that the complaint or cause of action is not sufficiently explicit to be understood.

If the demurrer is to the counterclaim it may be made upon any of the objections above set forth as applying to a complaint. If the court deems the demurrer well founded, it must permit the pleading to be amended, and if the party fails to amend the defective pleading or part of the pleading demurred to must be disregarded. If the court deems the demurrer not well founded, it must permit the party making it to plead over at his election.

§ 505. **Adjournment.** At the time of the return of the summons, or of the joinder of issue without process, the court must upon application of the plaintiff adjourn the trial of the action, but for not more than eight days against the defendant's objection; but the court may refuse to grant such adjournment unless plaintiff or his attorney, if requested by defendant, makes oath that the plaintiff cannot, for want of some material testimony or witness specified by him, safely proceed to trial. At the time of the joinder of issue the court must upon the application of the defendant adjourn the trial of the action not more than eight days, upon the defendant or his attorney making oath that he verily believes that the defendant has a good defense to the action and that he cannot safely proceed to trial for want of some material testimony or witness specified by him, and unless the defendant has been arrested in the action or the action is to recover a chattel, upon the defendant giving the plaintiff an undertaking in an

amount fixed by the court not exceeding five hundred dollars, and in the form and to the effect prescribed in section one hundred eighty-three of the justice court act. The court may in its discretion from time to time upon its own motion or that of either of the parties, or on plaintiff's motion, where defendant has been duly served with a summons, with or without verified complaint, and makes default in appearance or pleading on the return day, or default in appearance on any adjourned day, adjourn the trial of the cause, and may, as a condition to adjournment, require either party to give such security as it deems desirable, or may impose costs or other conditions. The power to grant adjournments in summary proceedings to recover the possession of real property is governed by the provisions of article eighty-three of the civil practice act relating to such proceedings.

§ 507. **Commission.** The court may award and issue a commission to take the testimony of a material witness not within the county of Monroe, as and in the manner provided in article ten of the justice court act; and the provisions thereof, except as modified by this act, apply to the issuance, execution, return and effect thereof.

§ 509. **Confession of judgment.** The city court has jurisdiction to render judgment upon the confession of a defendant as prescribed in article twelve of the justice court act, where the sum confessed does not exceed two thousand dollars, exclusive of costs; and the provisions of said article apply thereto.

§ 511. **Proceedings on default.** When a defendant makes default in appearing or pleading upon the return of a summons served without a verified complaint, or with a verified complaint in any action other than on a contract, the court must hear the allegations and proof of the plaintiff and render judgment according to law and justice. When a verified complaint in an action on a contract, has been served with the summons, if the defendant fail to file a verified answer thereto he is deemed to have admitted the allegations of the complaint, and the court, upon the filing of the summons and complaint with proof of due service thereof, must upon demand enter judgment for the plaintiff for the amount demanded in the complaint with costs and disbursements, without further proof.

(a) **Opening defaults.** The city court has power to open defaults, set aside judgment rendered on defaults and entered therein and executions thereon, before a transcript has been filed in the Monroe county clerk's office, and the judges thereof have power to vacate orders made on default and all process issued thereon or thereunder, on such terms as may be just, provided it is shown that manifest injustice has been done and the moving party satisfactorily excuses his default; but no greater terms must be imposed than the payment of the costs included in the judgment or order and the sum of seven dollars costs of the motion. The application therefor must be founded upon affidavits and must be made with due diligence and in no event more than

one year after the entry of judgment or order, but the court may hear evidence concerning the matters specified in the affidavits upon the hearing of the motion. Upon presentation of such application the city court must issue an order under the hand of one of the judges or of the clerk, returnable in not less than five nor more than eight days, requiring the adverse party to show cause why said judgment or order should not be set aside. A copy of the order and the papers upon which it is granted must be served upon the adverse party or his attorney, if he has appeared by attorney, not less than three days prior to the return thereof.

§ 513. **Transcript of judgment.** The clerk, on the application of the party in whose favor the judgment was rendered, and payment of the fees therefor, must deliver to him a transcript of the judgment. The county clerk of Monroe county must, upon presentation of the transcript and payment of the fee therefor, if within six years after the rendering thereof, endorse thereupon the date of its receipt, file it in his office, and docket the judgment as of the time of the receipt of the transcript, in the book kept by him for that purpose. Thenceforth the judgment is deemed and becomes a judgment of the county court of Monroe county and may be satisfied and must be enforced accordingly, except that an execution can be issued thereupon only by the county clerk as prescribed in the civil practice act, and that the judgment is not a lien upon and cannot be enforced against real property unless it is for twenty-five dollars or more, exclusive of costs.

5. A party recovering costs in an action or proceeding, in whose behalf a commission has been issued, and who introduces in evidence a deposition taken thereupon, is entitled to recover his actual disbursements thereupon, now provided for by section three hundred thirty-eight of the justice court act, except that the commissioner's fee for taking and returning testimony shall be allowed at his actual disbursement therefor, but not to exceed the sum of ten dollars.

§ 517. **Security for costs where plaintiff is a non-resident or a foreign corporation.** The defendant in an action brought in city court may require security for costs to be given where the plaintiff is a non-resident of the state, or a foreign corporation. A written demand requiring such security shall be served upon the plaintiff and filed with the court. The plaintiff shall, within five days thereafter, either deposit with the court the sum of two hundred and fifty dollars, to be applied to the payment of the costs, if any, awarded against him, or file with the court an undertaking, executed to the defendant by one or more sureties, approved by a judge of the court, to the effect that they will pay, upon demand, to the defendant, all costs which may be awarded to him in the action, not exceeding a sum specified in the undertaking, which must be at least two hundred and fifty dollars. The plaintiff must also serve upon the defendant a notice that such undertaking has been filed. Within five days after service of the notice of the

filing of the undertaking, the defendant may serve upon the plaintiff, or his attorney, a notice that he excepts to the sureties therein. Within five days after service of such a notice, the plaintiff must serve upon the defendant, or his attorney, a notice of the justification of the same or new sureties before the judge, at a specified time and place, not less than five days nor more than ten days, thereafter. If the judge finds the sureties sufficient, he must annex the written examination, if any, to the undertaking, and indorse his allowance thereon. Where the defendant fails duly to except to the sureties, the undertaking is deemed allowed and must be indorsed in like manner.

§ 518. **Clerks and stenographers in civil branch.** The judges may appoint to hold office during their pleasure a clerk, such number of deputy clerks and deputy clerks designated as stenographers, and such other subordinates as may be prescribed by the board of estimate and apportionment. It is the duty of the clerk to keep the docket of the court, of all proceedings in any action or proceeding brought in the court or before a judge thereof, and to enter in the docket the judgments, orders and decisions of the court and the judges thereof; and the docket shall be evidence in the courts of this state to the same extent as the docket of a justice of the peace. It is the duty of the deputy clerks designated as stenographers to take stenographic minutes of the testimony and other proceedings in all cases tried before the court, or a judge thereof, except when the judge presiding directs otherwise. They must transcribe fully and at length the minutes of each case taken, when directed by the court or judge, and file the same with the clerk, who must cause the same to be preserved with the other papers in the case. The stenographic minutes taken by the deputy clerks designated as stenographers must be preserved and filed in the office of the clerk of the court, and they must furnish to any one applying therefor a transcript of such minutes, for which a charge must be made of three cents for each folio of one hundred words contained therein, unless otherwise agreed upon, to be paid to the deputy clerks for their own use. It is also the duty of the clerk and the deputy clerks to make and file in the Monroe county clerk's office all returns on appeal in cases in which the minutes of testimony are taken by the deputy clerks designated as stenographers; such return to be made in type or ordinary writing and certified by the judge who tries the case. It is also the duty of the clerk to call all cases on the return day and hour and note appearances and defaults, and to enter judgments and orders by default in case of default in actions where verified complaints or verified petitions have been served, and to enter judgments and orders of dismissal of actions or proceedings in case of default by the plaintiff or petitioner; and the clerk has power to administer any oath required by law or rules of the court, necessary to the entry of such judgments or orders; and the clerk has power to adjourn any action or proceeding when the parties consent to such adjournment, and in the absence of the

judges to adjourn any action or proceeding for a period of not more than five days. The powers and duties conferred and imposed upon the clerk may be performed by the deputy clerks and deputy clerks designated as stenographers. The judges, clerk, deputy clerks, and deputy clerks designated as stenographers, have power to administer oaths and take acknowledgements the same as justices of the peace of towns.

§ 519. **Payment and account of fees.** There shall be paid to the clerk of the court the following fees:

Section five hundred and twenty-two of such chapter as added by chapter four hundred and thirty-four of the laws of nineteen hundred and twenty, as section five hundred and twenty-four-a, as so renumbered by chapter five hundred and twenty-five of the laws of nineteen hundred and twenty-one, is hereby amended to read as follows:

§ 522. **Appeals.** Appeals may be taken to the county court of Monroe county from judgments and orders of the city court, civil branch, of the city of Rochester and from orders of the judges thereof as provided by laws regulating appeals from justices' courts, and the provisions thereof apply to such appeals, except (a) those authorizing and regulating an appeal for a new trial in the appellate court, (b) prescribing the papers on which an appeal is to be heard, (c) prescribing the powers of the appellate court, herein otherwise regulated, in relation to the judgment appealed from, grounds of reversal or modification, ordering new trials and awarding costs, (d) where a motion is made to open a default, to vacate or amend a judgment or an order, or for a new trial, as provided in section five hundred and twelve, the time from the making of the motion to the decision thereof by the court, or judge, shall not be deemed part of the time within which an appeal from a judgment or an order must be taken, and (e) except as herein otherwise expressly modified. The appeal must be heard on the return or a certified or stipulated copy thereof, and may be brought on for hearing in the county court in the same manner and on the same notice as motions are or may be brought on for hearing in said court or may be put on the calendar of said court in the same manner as an appeal from a judgment of a justice's court. An application may be made to the county court to open a default, with or without an appeal, where a party has failed to appear before the city court, either upon the return of the summons or precept, or at the time to which the trial of the action or proceeding was adjourned, where he shows, by affidavit or otherwise, to the satisfaction of the court that manifest injustice has been done, and renders a satisfactory excuse for his default and makes his application with due diligence and in no event more than one year after the entry of the judgment; and the county court may, in its discretion, set aside the judgment or order, or stay the proceedings thereunder, and by order direct a new trial, before the city court, at such time and place specified in the order, and upon such terms as it deems proper, which application may be heard without a return unless ordered by the court; and an appellant may apply upon affidavits and the return to said court for a new trial or hearing upon the

The county court and other appellate courts on such appeals must render judgment according to the justice of the case, without regard to technical errors or defects which do not affect the merits, and may affirm or reverse, wholly or partly, or modify, the judgment or order appealed from for errors of law or of fact or because the judgment is excessive or insufficient or contrary to the evidence or contrary to law, and may, if necessary or proper, grant a new trial or hearing in the city court, civil branch, of the city of Rochester, or before a judge thereof, as may be proper, at a time designated by it, and thereupon the city court, civil branch, or judge must proceed, and adjournments may be granted, a jury trial demanded, and all other proceedings taken as if the action or proceedings had been commenced anew. A copy of the judgment or order granting a new trial or hearing must be served by the party entering it both on the clerk of the city court, civil branch, and on the opposite party or his attorney at least two days before the time set for the new trial or hearing. Section one of article five-a of chapter four hundred and fifty-two of the laws of nineteen hundred and eight, entitled "An act to supplement the general laws relating to the government of the city of Yonkers, and to revise and consolidate the local laws relating thereto," as added by chapter seven hundred and twenty-five of the laws of nineteen hundred and seventeen, is hereby amended to read as follows:

L. 1908, ch. 453, art. 5a, § 1, as added by L. 1917, ch. 735, amended.

§ 1. For the purposes of this article each instalment of an assessment payable in annual instalments shall be deemed to be a separate assessment. payable to the time of payment, and the charges of such notice, and all other costs and charges accrued thereon to the time of payment, and further stating that if default shall be made in such payment the lien of the city upon said lands and tenements for any tax or assessment which became a lien and became due and payable prior to said day named in said notice will be sold at public auction at a day and place therein to be specified (not more than six months after the first publication of said notice) for the lowest rate of interest, not exceeding twelve per centum per annum, at which any person or persons shall offer to take the same in consideration of advancing the said taxes, assessments and penalties, as the case may be, the interest thereon as aforesaid to the time of sale, the charges of notice and all other costs and charges accrued thereon, and that such sale may be continued from time to time until all said liens of taxes and assessments shall be sold. No other notice or demand of the tax or assessment shall be required to authorize the sale of tax liens on any lands and tenements as herein provided. If, notwithstanding the notices aforesaid, the owner or owners shall refuse to pay such taxes, assessments and penalties, with the interest as aforesaid, and the charges attending such notice, advertisement and pamphlet, then it shall and may be lawful for the said treasurer to cause such tax liens on such lands and tenements to be sold at public auction, for the purpose and in the manner expressed in the said notice, and such sale shall be made on the day and at the place mentioned in the said notice, and shall be continued from time to time, if necessary, until all the tax liens on the lands and tenements so advertised shall be sold. The city treasurer may, with the approval of the board of estimate and apportionment, cancel any certificate or lease or transfer of tax lien for unpaid taxes and assessments, held by the city of Yonkers, or to which the city has acquired the right, and upon such cancellation the lien of such tax or assessment shall be and remain the same as if no sale for

§ 15. **Qualifications.** Every person elected or appointed to office shall possess the qualifications prescribed by section three (3) of the public officers law. No person shall be eligible to the office either of mayor, or comptroller, or alderman, or city judge, or supervisor, unless he has been a resident elector of the city during a period of three years before such election. No person shall be eligible to the office of city judge or acting city judge of the city court of the city of Mount Vernon or of corporation counsel, unless he has been admitted to practice as an attorney and counsel or in the supreme court of the state of New York, and has had at least three years' active practice of his profession in the state of New York. § 16. **Terms of office of elective officers.** The term of office of an elective officer, unless elected to fill a vacancy, shall commence on the first day of January next succeeding his election. The terms of office of the mayor, the comptroller, the aldermen and the city judge shall be four years. All of the elective officers in office at the time of the passage of this act, except as hereinafter provided, shall continue to hold their respective offices until the terms of office to which they have been elected as heretofore provided by law shall expire. The terms of office of the receiver of taxes, the city treasurer, and the assessors in office at the time of the passage of this act shall cease and determine on the thirty-first day of December, nineteen hundred and twenty-two.

§ 17. **Vacancies.** If a vacancy shall occur, otherwise than by expiration of term, in an elective office of the city, except those of the mayor and the alderman, the mayor shall appoint a person to fill such vacancy. The person so appointed to such vacancy shall hold office until the commencement of the political year next succeeding the first annual election after the happening of the vacancy at which a successor can be elected, and a successor for the balance of the unexpired term, if any, shall be chosen at the next city election happening not less than sixty days after such vacancy occurs.

§ 18. **Certificate of appointment.** Every appointment to a city office must be made by a certificate in writing signed by the appointing officer; or if made by a board, or the common council, by the presiding officer thereof, and must be filed in the office of the city clerk before the same becomes effective.

§ 19. **Restrictions; officers not to be interested in contracts.** No person shall, at the same time, hold more than one city office. Upon the acceptance by a city officer of a second office the office first held by him shall thereupon become vacant. No member of the common council or other officer or employee of the city, or person receiving a salary or compensation from funds appropriated by the city, shall be interested directly or indirectly in any

contract to which the city is a party, either as principal, surety or otherwise; nor shall any such member of the common council, city officer or employee or person, or his partner, or any agent, servant, or employee of such officer, employee or person, or of the firm of which he is a partner, purchase from or sell to the city, or any officer thereof, any real or personal property for the use of the city, or any board or officer thereof, nor shall he be interested directly or indirectly, in any work to be performed for, or services rendered to or for it, or in any sale to or from said city, or to any officer, board or person in its behalf. Any contract made in violation of any of these provisions shall be void. A person shall not be deemed to be interested in a contract, purchase or sale made by a corporation with, from or to the city solely by reason of the fact that he is a stockholder or director of such corporation. The term "city officer" as used herein, however, shall not be deemed to include a commissioner of deeds.

§ 20. **City elections.** At the general election in the year nineteen hundred and twenty-three, there shall be elected by the electors of the city a mayor for a term of four years, a comptroller for a term of two years, a city judge for a term of four years, three aldermen for a term of two years, two aldermen for a term of four years and five supervisors for a term of two years. At the general election to be held in the year nineteen hundred and twenty-five, there shall be elected by the electors of the city a comptroller to hold office for a term of four years, three aldermen to hold office for a term of four years, and five supervisors to hold office for a term of two years. At the general election to be held in the year nineteen hundred and twenty-seven and in each and every odd-numbered year thereafter, there shall be elected by the qualified electors of the city, officers to fill vacancies in elective offices.

§ 21. **Fixed salaries.** The annual salary of the mayor shall be six thousand dollars (\$6,000); of the comptroller, five thousand dollars (\$5,000); of the city judge, four thousand five hundred dollars (\$4,500); of the president of the common council, one thousand five hundred (\$1,500); of each of the aldermen, seven hundred and fifty dollars (\$750). All such salaries shall be paid in installments as directed by the board of estimate and contract.

§ 22. **Additional allowances.** No allowance or compensation, in addition to the salary or compensation prescribed by law or authorized by this chapter or otherwise by law, shall be paid to any officer or employee of the city or to any person paid out of city funds, nor shall any amount in excess of the sum payable under any contract be paid on account thereof.

§ 23. **Additional fees or compensation not to be paid.** No officer of the city, except the marshal of the city court, constables and commissioners of deeds, shall have or receive to his use any perquisites, compensation or fees for services pertaining directly or indirectly, or which may hereafter be added to the duties of his office, in addition to his salary; and all perquisites, compensation and fees paid to and received by any such officer for services pertaining directly or indirectly, or which may hereafter be

added to the duties of his office, other than his salary received from the city, shall be the property of the city, and shall be paid by the officer receiving the same to the comptroller. The compensation of all the officers, clerks and subordinates in the several departments shall not exceed in the aggregate the appropriation made by the board of estimate and contract for that purpose.

§ 24. **Official undertaking.** The comptroller, the deputy comptroller, the commissioner of public works, the commissioner of public safety, the commissioner of public health, the purchasing agent and such other officers as may be required so to do by ordinance of the common council, before entering upon the duties of their respective offices, shall each execute and file with the city clerk an official undertaking in such penal sum as may be prescribed by the common council. The common council may also, in a proper case, require an undertaking of any officer in addition to that required by law. The mayor shall examine the sufficiency of the proposed sureties of any officer or person from whom an official undertaking is required and may require such sureties to be examined on oath as to their property qualifications and liabilities. The deposition of each surety shall be reduced to writing, subscribed by him, certified by the officer administering the oath and annexed to and filed with the undertaking.

No person elected or appointed to a city office shall enter upon or continue in the discharge of the duties of his office until he shall have executed and filed with the city clerk the official undertaking, if any, required to be given and the same shall have been approved as to its form and validity by the corporation counsel and as to the sufficiency of the sureties by the mayor. All such undertakings shall be recorded in the office of the city clerk. In case any city officer shall fail to file the required official undertaking, if an elective officer, within thirty days after receipt of his certificate of election, and if an appointive officer, within fifteen days after receipt of notice of his appointment, the office shall be deemed to be vacant and the vacancy shall be filled in the manner herein provided for the filling of a vacancy therein happening otherwise than by expiration of term. The official undertaking of a city officer shall not be a lien upon real estate owned by him or the sureties on such undertaking.

§ 25. **Penalty for violation of duty.** Any officer or employee who wilfully violates or evades any provision of law, or of this chapter, or by culpable neglect of duty allows any public property to be lost to the city, shall be deemed guilty of a misdemeanor and, in addition to the penalties imposed by law, shall on conviction forfeit his office or employment.

§ 26. **Elective officers removable by the governor.** The mayor, comptroller and city judge may be removed by the governor in the same manner as a sheriff, except that the governor may direct the inquiry provided by law to be conducted by the attorney-general. After charges have been received by the governor, he may suspend the officer affected thereby for a period not exceeding sixty days pending the investigation.

§ 27. **Removal of appointive officers and employees.** Except as otherwise provided by law or herein otherwise specified, all ap-

pointive officers, except the commissioner of public health, may be removed from office by the officer or board making the appointment. The commissioner of public health may be removed only upon charges and after hearing thereon. Such charges shall be for disability for service or neglect or dereliction of official duty or incompetency or incapacity to perform his official duties or some delinquency materially affecting his general character or fitness for the office, unless otherwise specifically provided by law. Where the charges are for disability for service, the examination shall be one of inquiry only and the decision made in a proper case, may be for honorable discharge from service. Whenever an appointive officer shall be removed from office, the officer or board making the appointment shall file with the city clerk a written statement setting forth the fact of such removal.

§ 28. **Removed officer not eligible for re-election or reappointment.** An elective officer who has been removed from office under any provision of this chapter shall not be eligible for election to fill the vacancy caused by his removal.

§ 29. **Officers trustees of public property.** The common council and the several members thereof, and all officers and employees of the city are hereby declared trustees of the property, funds and effects of the city respectively, so far as such property, funds and effects are or may be committed to their management or control, and every taxpayer residing in the city is hereby declared to be a cestui que trust in respect to the said property, funds and effects respectively; and any co-trustee or any cestui que trust shall be entitled as against said trustees and in regard to said property, funds and effects to all the rules, remedies and privileges provided by law for any co-trustee or cestui que trust, to prosecute and maintain an action to prevent waste and injury to any property, funds and estate held in trust; and such trustees are hereby made subject to all the duties and responsibilities imposed by law on trustees, and such duties and responsibilities may be enforced by the city or by any co-trustee or cestui que trust aforesaid. The remedies herein provided shall be in addition to those now provided by law.

§ 30. **Annual report of departments; annual message.** The several heads of departments shall present to the mayor annually, on or before the first Monday of December, a report of the proceedings of their respective departments during the preceding year. The mayor shall transmit the same to the common council with the annual message, which he is required to submit to the common council; but nothing in this section contained shall be construed to relieve such heads of departments from furnishing such other information as may be required by the mayor or common council at any time.

be the president of the common council in case of a permanent vacancy in that office. The president of the common council shall vote as a member of the common council.

§ 34. **City clerk.** The common council shall appoint to hold office during its pleasure, a city clerk, who shall attend the meetings of the common council, keep a journal of its proceedings and discharge such other duties as may be prescribed by this chapter or by law or ordinance. He shall appoint to hold office during his pleasure, except as otherwise provided by law, such subordinates as may be prescribed by the board of estimate and contract. It shall be the duty of the said clerk to transmit to the head of each department and clerk of each board copies of all ordinances in any manner affecting any of the matters of which any such department or board shall have jurisdiction. He shall have the custody of the city seal and shall be the clerk to all boards unless otherwise provided by law or by the board of estimate and contract, or by this chapter. The city clerk shall be ex-officio, a commissioner of deeds.

§ 35. **Meetings.** The common council shall hold regular meetings on the second and fourth Tuesdays of each month, or if these days be holidays, then on the next days. The mayor, or the president of the common council, or a majority of its members may call a special meeting of the common council by causing a written notice thereof, specifying the objects of the meeting, to be served by the city clerk upon each member personally at least six hours before the time fixed for such meeting, or by mail directed to his place of residence or place of business at least twenty-four hours before the time fixed for the meeting.

§ 36. **Powers.** The common council shall determine the rules of its own proceedings and be the judge of the election, returns, and qualifications of its members. Its meetings shall be public and its records open to public inspection, and a majority of all its members shall constitute a quorum to do business. The common council may compel the attendance of absent members at any meeting properly called, and may punish or expel a member for disorderly conduct, for a violation of its rules or for official misconduct, or declare his seat vacant by reason of absence, provided such absence has continued for a space of two months; but no expulsion shall take place and no vacancy on account of absence be declared except by a vote of a majority of all the members of the common council nor until the delinquent member has had an opportunity to be heard in his defense. If a vacancy shall occur in the office of alderman, the common council shall appoint a person to fill such vacancy. The term of office of the person so appointed shall be until the commencement of the political year next succeeding the first annual election after the happening of the vacancy, at which a successor can be elected, and a successor for the balance of the unexpired term, if any, shall be chosen at the next city election happening not less than twenty days after such vacancy occurs. All acts of the common council shall be determined by a vote taken by a roll call of its members, and a statement of the choice of each member or the yeas and nays, if any, shall be entered upon the journal.

§ 37. **Legislative acts.** All the legislative acts of the common council shall be by ordinance, and on the passage of every ordinance, the yeas and nays of the members voting thereon shall be entered in full on the journal. The passage of an ordinance shall require the affirmative vote of at least a majority of all the members of the common council. Except by unanimous consent, no ordinance shall be passed by the common council on the same day in which it is introduced.

§ 38. **Procedure after passage of ordinance.** Every ordinance of the common council shall, immediately after its passage, be separately typewritten or printed and signed by the president of the common council and attested by the clerk. The clerk shall thereupon present the same to the mayor. If the mayor approve it, he shall sign it and return it to the clerk, and the ordinance shall thereupon take effect. If he disapprove it, he shall return it to the clerk with his objections stated in writing, and the clerk shall present the same with such objections to the common council at its next regular meeting. The common council may, within thirty days thereafter, reconsider the same; if, after such consideration four-fifths of all the members of the common council shall vote to pass the ordinance, the same shall take effect notwithstanding the objections of the mayor, unless a greater number of members were necessary according to the provisions of this chapter for the original passage of the ordinance, in which case unless as many members as were requisite for the original passage of the ordinance shall vote to pass the ordinance it shall not take effect. If any ordinance shall not be returned by the mayor to the clerk within ten days after it shall have been presented to him, or if such ordinance shall be returned within such period without the mayor's approval or disapproval, the same shall take effect in like manner as if the mayor had approved and signed it. If any ordinance presented to the mayor contains several items of appropriation of money or embraces more than one distinct subject, the mayor may approve the provisions relating to one or more items or one or more subjects and disapprove the others. In such case those items or subjects which he shall approve shall take effect and he shall append to the ordinance at the time of signing it a statement of the items or subjects which he disapproves and said items or subjects so disapproved shall not take effect. He shall return to the clerk a copy of such statement and the items or subjects disapproved may be separately reconsidered by the common council and shall only become effective if again passed by it as above provided. All the provisions of this section in relation to ordinances disapproved by the mayor shall apply in cases in which he shall disapprove any item or subject contained in an ordinance appropriating money or embracing more than one distinct subject.

§ 39. **Record of ordinances.** Every ordinance shall, upon its taking effect as herein provided, be recorded in a book kept for that purpose by the clerk. Such records shall include the signature of the president, attestation of the clerk and the mayor's written approval, or in case of his disapproval, a memorandum of its passage over his veto; or in case the ordinance took effect

because he failed to approve or disapprove and return within ten days, then a memorandum to that effect. Such record or a certified copy thereof shall be presumptive evidence of the passage of the ordinance and of the facts certified. The original ordinances for each year shall be bound together and kept in the custody of the clerk.

§ 40. **Administrative code.** The common council shall by ordinances not inconsistent with this chapter or with other laws of the state, regulate the powers and duties of city officers and departments, such ordinances to be known as the "Administrative Code of the City of Mount Vernon;" but no ordinance shall be passed interfering with the exercise of the executive functions of the officers, departments, and boards of the city, as provided in this chapter or otherwise by law. The council shall have power and it shall be its duty by ordinance to designate the different rooms and offices in city hall, or in any building used as such, to be occupied by the various courts, officers, boards and departments of the city.

§ 41. **Special lighting districts.** The common council may, by ordinance, establish a special lighting district or districts for the purpose of ornamental street lighting, and from time to time may alter or extend the same.

§ 42. **Alteration of grades and names of streets.** The grade of any street shall not be fixed or established except by direction of the common council. The grade of a street heretofore or hereafter legally established shall not be changed, except by direction of the common council, and except also upon compensation for damages done, to be ascertained in and by proceedings provided by law for ascertaining damages for lands taken for the opening of streets. The common council shall not alter the name of any street except by ordinance, and unless the majority of the owners of property abutting on said street shall petition therefor. No ordinance altering the name of any street shall be passed by the common council until such ordinance shall have been published at least once in each of two successive weeks in the official paper or papers.

§ 43. **Apportionment of city's expense of improvements.** The common council may, by ordinance approved by the board of estimate and contract, fix and determine the amount and proportion of the expense which shall be borne by the city at large of any public improvement. The amount and proportion of the expense of such improvements which shall be borne by the city at large shall be included in the budget and raised by tax the same as other general city charges, or may be borrowed and raised by the city by the issue of bonds in accordance with the provisions of this chapter, as shall be determined by the board of estimate and contract. An amount sufficient to pay any such bonds, when due, together with the accrued interest thereon, shall be included in the tax budget and raised by tax the same as other general city charges and such bonds as they mature, together with the interest thereon, shall be paid out of the moneys so raised by tax. The proportion of the expenses which is not borne by the city shall be assessed and charged upon the property affected by such improvement in the form and manner provided by law or ordinance.

§ 44. **Discontinuance of streets.** Whenever the common council shall contemplate the discontinuance of any street, it shall cause a notice to be published for ten days in the official paper or papers of the city of its intention so to do and that all persons interested may be heard in reference thereto at a time stated in such notice. If it shall be determined to discontinue the street and any person shall claim to be damaged by such discontinuance, such alleged damages, unless agreed to by the commissioner of public works and approved by the board of estimate and contract, must be ascertained and determined in the manner provided by law for ascertaining damages for lands taken for the opening of streets. An ordinance discontinuing any street shall require the affirmative vote of the majority of all the members of the common council.

§ 45. **Designation of official papers; official printing.** At the first meeting of the common council for the purpose of organization, as provided herein, it shall designate not more than two newspapers published in the city to be the official paper or papers of the city. The common council may, by a majority vote of all its members, determine to designate but one daily official paper, in which case it shall designate but one daily official paper, and the daily paper receiving the highest number of votes shall be the official paper for one year and until a successor is designated. Such paper or papers shall have been published in the city of Mount Vernon for at least one year and shall have been entered as second class matter with the United States post office department. Unless the common council shall so determine to designate but one official paper, it shall designate two daily official papers, and each member shall be entitled to vote for but one paper, and the two papers having the highest number of votes shall be the official daily papers for one year and until a successor or successors shall be designated. Such official daily paper or papers shall publish such matters and in such form as shall be prescribed by statute or otherwise by general ordinance of the common council. In case an official paper shall refuse or fail to act or perform as such, the common council may in its discretion as hereinbefore provided, designate a successor. All bills and accounts for publication in daily official papers and all city printing and advertising shall be a city charge, and shall be paid by the comptroller in the regular manner. The common council may, by general ordinance, prescribe the form in which the proceedings and reports of the city officers, boards and departments shall be issued, and the printing and binding of the same shall be performed under contract awarded as in the case of other city contracts.

§ 46. **Appropriations.** No appropriations of money shall be made for any purpose except by ordinance specifying each item, the amount thereof, and the department or specific purpose for which the appropriation is made.

§ 47. **Disposition of real estate; franchises.** No ordinance shall be passed making or authorizing a sale or lease of city real estate or of any franchise belonging to or under the control of the city except by a four-fifths vote of all the members of the common council. In case of a proposed sale or lease of real estate or of a

franchise, the ordinance must provide for a disposition of the same at public auction to the highest bidder, under proper regulations as to the giving of security, and after the public notice published once each week for three weeks in the official paper or papers. A sale or lease of real estate or a franchise shall not be valid or take effect unless made as aforesaid and subsequently approved by the board of estimate and contract. No franchise shall be granted or be operated for a period longer than fifty years. The common council may, however, grant to the owner or lessee of an existing franchise, under which operations are being actually carried on, such additional rights or extensions in the street or streets in which the said franchise exists, upon such terms as the interests of the city may require, with or without an advertisement, as the common council may determine; provided, however, that no such grant shall be operative unless approved by the board of estimate and contract, and also by the mayor.

§ 48. **Election districts.** The common council shall, on or before the first day of July in each year, whenever necessary so to do, divide the city into election districts in accordance with provisions of the election law of the state of New York, as from time to time amended.

§ 49. **Water rates.** Whenever the city shall own and operate a system of water works the common council shall by ordinance provide for the levy and collection of a frontage tax on real estate and establish the rates to be charged and paid annually for the supply of water in buildings, establishments, trades, and private houses and shall provide for the use of water meters in ascertaining the amounts to be charged for water supply service.

§ 50. **Investigations of public officers.** The common council shall have power to investigate all city officers and departments and shall have access to all records and papers kept by every city officer or department, and shall have power to compel the attendance of witnesses and the production of books, papers or other evidence at any meeting of the common council or of any committee thereof, and for that purpose may issue subpoenas to be signed by the president of the common council.

§ 51. **Penalties.** Any member of the common council who shall knowingly or unlawfully disregard any provision of law applicable to the members thereof, or who shall vote for any ordinance or measure in violation of law, or any appropriation unauthorized by law or in excess of the amount authorized by law, or for any illegal or injurious disposition of corporate property, rights or privileges, shall be guilty of a misdemeanor and liable to the punishment and penalty prescribed therefor, and every member voting in favor thereof shall be individually liable to refund the amount to the city at the suit of any taxpayer.

§ 52. **Penalties for violation of ordinances.** Any person violating an ordinance of the common council shall be guilty of a misdemeanor, and the common council may provide therein or by general ordinance that any person guilty of such violation shall

be liable to fine which shall not exceed one hundred and fifty dollars in amount, or to imprisonment not exceeding one hundred and fifty days, or to both such fine and imprisonment, or such ordinance may provide for a penalty not exceeding five hundred dollars, to be recovered by the city in a civil action. The city may maintain an action or proceeding in a court of competent jurisdiction to compel compliance with, or to restrain by injunction the violation of any ordinance of the common council, notwithstanding that the ordinance may provide a penalty for such violation.

85. Annual appropriation.*

§ 70. **Personnel of the board of estimate and contract.** There shall be a board of estimate and contract, which shall consist of the mayor, the comptroller, and the president of the common council. Whenever the president of the common council becomes acting mayor, the president pro tempore of the board of aldermen shall be a member of the board of estimate and contract. The mayor shall be president of the board. The purchasing agent shall keep a journal of all proceedings thereof, and shall perform such additional duties as may be required by the board, or by law or ordinance of the common council.

§ 71. **Determination of positions and salaries.** The board of estimate and contract, except as otherwise provided by law, shall have authority to fix the salaries or compensation, and determine the positions and numbers of all city officers and employees of each office, board and department.

§ 72. **Designation of depositaries of city funds.** The board of estimate and contract before designating depositaries for any city funds, shall give reasonable notice to all incorporated banks

and trust companies in the city and to such incorporated banks and trust companies in New York city or elsewhere within the state of New York as it shall deem advisable; said board shall designate as depositaries of city funds one or more such banks or trust companies in the city and may, in its discretion, designate one or more in New York city or elsewhere within the state of New York. Not less than two depositaries shall be designated for the city funds and one or more for the sinking fund. Before such banking corporation or trust company shall receive any money as a loan or on deposit as aforesaid, it shall enter into a bond to the city in such form and in such penal sum as may be fixed by the board of estimate and contract, with two or more sufficient sureties or a surety company, as surety to be approved by the mayor, conditioned for the delivery of all moneys so loaned or on deposit to the comptroller of the city, or to any other person, corporation or association authorized by law to receive the same, or any part thereof, and for the faithful performance of any agreement entered into with the city, which bond, when so approved and indorsed by the mayor, shall be recorded in the office of the clerk of Westchester county.

§ 73. **Contracts.** Except as otherwise provided by law, it shall be the duty of the board of estimate and contract, after public notice and in accordance with regulations to be prescribed by general ordinance of the common council, to let to the bidder whose bid is deemed by the board of estimate and contract to be the most advantageous to the city and who will give security therefor, all contracts for the performance of any work or for the supply of any material required by or for the use of any officer, board, body or department of the city, in all cases where the expense of such work, or materials, or both, shall exceed the sum of five hundred dollars, unless by ordinance of the common council adopted by a vote of a majority of all the members, and approved by the board of estimate and contract, it is determined to be impracticable to procure such work or materials or both by contract, in which case said ordinance shall designate the officer, board or department to perform such work or purchase such materials. In case of public emergencies involving accident or other injury by which the heating or plumbing of any of the public buildings or any of the fire or water works apparatus shall become disabled, the commissioner having jurisdiction thereof shall cause repairs thereto to be made without a letting by contract upon filing with the board of estimate and contract a certificate, approved by the mayor, showing such emergency and the necessity for such repairs. The board shall have power to reject all bids or proposals if in its opinion the lowest bid or proposal is excessive. The said notice shall describe the work and materials for which contracts will be let and the day and hour and place of the meeting of the board at which proposals therefor will be opened. Specifications for the performance of any work and for the supply of any materials shall be prepared and set forth with sufficient detail to inform all persons proposing to bid therefor of the nature of the work to be done and of

the materials to be supplied, and written or printed copies thereof shall be delivered to all applicants therefor. Every contract for a public improvement shall be based upon an estimate of the whole cost thereof, including all expenses incidental thereto and connected therewith, to be furnished by the proper officer, board or department having charge of such improvements. No bid or proposal shall be received or contract awarded, other than for a local improvement or work to be performed by the city, which involves the construction or maintenance of any structure, erection, obstruction or excavation within, under, over, along or upon any street or public place within the city, unless the person to whom such contract shall be awarded shall have a franchise permitting the same.

§ 74. **Proposals.** No contract shall be let, except after the receipt of sealed bids or proposals therefor, and no bids or proposals shall be received at any time other than at a regular meeting of said board, and unless they conform to the rules of the board and the general ordinances of the common council. All bids or proposals must be endorsed by the title of the work or materials to which they relate, and the name of the bidder and his residence or business address. It shall be the duty of each member of the board to be present at the time and place mentioned in the public notice for the opening of bids or proposals, and such meetings shall be open to the public. After all the bids or proposals have been presented, but not until one-half hour after the time stated in the public notice for holding the meeting, all bids or proposals shall be opened by some member of the board or by its clerk publicly and in the presence of the bidders and other persons there present, and an abstract of all of such bids or proposals, with the prices and security offered, shall be transcribed in a book kept for that purpose, without any change, correction or addition whatever. A majority of the board need not be present when such bids or proposals are opened. The board may reject all bids or proposals received at any meeting and advertise again for new bids or proposals to be received at another meeting as above described. No person submitting, or on whose behalf a bid or proposal is submitted, nor the principal or sureties on any bond or security accompanying the same, shall have the right to withdraw or cancel any such bid, proposal, or bond until the board shall have awarded the contract for which such bid or proposal is made, and such contract shall have been duly executed. All proposals or bids submitted as provided in this chapter shall be accompanied by a certified check for at least five per centum of the amount of such bid or proposal.

§ 75. **Contracts for paving.** The common council shall, by general ordinance, prescribe, approve, and adopt the materials to be used in paving, repaving, repairing, surfacing or resurfacing the streets and public places of the city, and fix the standard of excellence and test required for each such material. The city engineer shall prepare standard specifications in accordance with

such ordinance for the performance of the work involved in such improvement with each kind of material so prescribed, approved and adopted therefor. Whenever the common council shall determine to make any such improvement, and the proceedings provided by law as preliminary thereto shall have been taken, the board of estimate and contract shall advertise for proposals for the furnishing of the materials and the performance of the work involved in such improvements, and specifications shall be prepared and proposals shall be invited pursuant to the provisions of the chapter, for the construction of such improvement with each kind of paving material so prescribed, approved and adopted by the common council. In case the expense of any such improvement is to be assessed upon the property abutting upon the street, or part thereof to be improved, and more than one kind of material is prescribed, approved or adopted therefor, the secretary of the board shall, within one week after proposals for such work have been received and opened, cause to be published in the official paper or papers for four successive days, exclusive of Sundays and holidays, a notice containing a summary statement of all such proposals. A majority of the property owners, owning not less than one-third of the feet front of property abutting on such street exclusive of city property, may present to the board of estimate and contract a petition or other writing designating the type of pavement or material desired to be used in making such improvement, the maximum price per square yard of such pavement and the maximum price per lineal foot of curb that the said property owners are willing to pay. Such petitions shall thereupon be referred to the common council and to the commissioner of public works, and it shall be the duty of the common council to report on the advisability of constructing the pavement designated in such petition, and of the commissioner of public works to report on the satisfactoriness of the type of pavement requested and the chance of securing a bid within the limitation of prices therein fixed. After receiving the reports of the common council and of the commissioner of public works upon such petition, the ordinance shall be introduced into the common council designating the street to be paved, the type of pavement to be used and the limitation of price for such work. After such ordinance shall have been before the common council for two weeks a hearing shall be held and the ordinance adopted or rejected. If such ordinance be adopted, the board of estimate and contract shall advertise for bids and shall award the contract to the bidder whose bid is deemed by the board of estimate and contract to be the most advantageous to the city. But if the bids do not fall within the price limitations so fixed, the board of estimate and contract shall reject the bids and notify the common council of their action. If no part of the expense of such improvement is to be assessed upon the property abutting upon said street, or if such expense is to be so assessed, but the property owners shall not have made a designation or shall have made more than one

designation, as herein provided, the common council shall, not later than at its next regular meeting after the expiration of ten days from the service of such notice, designate the kind of pavement or material to be used in making such improvement, and the contract for such improvement shall be awarded for the kind of pavement or material so designated by the property owners or common council as aforesaid, and to the bidder whose bid for doing the work with the kind of pavement or material so designated is deemed by the board of estimate and contract to be the most advantageous to the city. Where a street surface railroad shall be laid in any street which it is determined to improve as herein provided, the proposals and contract for such improvement shall include the improvement of the space between the tracks of such street surface railroad, the rails of such tracks and two feet in width outside of such tracks, and the work of improvement in such space shall be done at the same time and under the same supervision as the work of improvement of the remainder of such street. After opportunity to be heard has been given to the company owning or operating such street surface railroad, the board of estimate and contract may prescribe the materials to be used in improving such street within the railroad space above described. The entire expense of the improvement within such railroad space shall be assessed and levied upon the property of the company owning or operating such railroad and shall be collected in the same manner as other expenses for local improvements are assessed, levied and collected in the city; and an action may also be maintained by the city against the company in any court of record for the collection of such expense and assessment.

§ 76. Contracts for lighting. All municipal lighting may be applied pursuant to contract therefor, awarded by the board of estimate and contract as herein provided. Such contract shall cover and include the lighting and supplying of the lamps and the oil, gas, electric current, the cleaning, repair and renewal of the lamps and all the materials required in the use and care thereof. No bid or proposal for any such contract shall be received, or contract awarded therefor, unless the bidder shall, prior to the making of such bid or proposal, have a franchise under the authority of which the proposed contract can be performed. No such contract shall be advertised for or entered into for a period exceeding five years. Each bidder shall be required to furnish with each bid or proposal a certified check, payable to the order of the comptroller, in such sum as the board of estimate and contract shall prescribe, but not less than ten thousand dollars. Such sum shall be forfeited to and become the absolute property of the city in case the bidder depositing the same shall be awarded the contract and shall not execute the same and furnish a bond for the faithful performance of such contract, in the penal sum of not less than fifty thousand dollars, within thirty days after the award of such contract. Such certified check shall be returned

to the bidder if the contract be not awarded to him, or, if awarded, he shall have executed and furnished the contract and required bond.

The board of estimate and contract may contract for lighting any special lighting district or districts established or extended by ordinance of the common council for ornamental street lighting, as such board may deem proper or expedient. The amount of any contract that may be entered into for such special lighting pursuant to the provisions of this section shall be assessed ratably upon the real property in such lighting district or districts in such manner as shall be provided by an ordinance duly adopted by the common council and approved by the board of estimate and contract; and such assessments shall be levied, enforced and collected upon and between the taxable property in said city and district or districts respectively, in the same manner, by the same proceedings, at the same time, under the same penalties and by the same officers as the city taxes, charges or expenses of said city are now levied, enforced and collected. The common council shall, by ordinance, approved by the board of estimate and contract, apportion the expense that shall be borne by the taxable property in such special lighting district or districts, and the city at large; but, in no event shall the taxable property in any such special lighting district or districts, be charged with less than fifty per centum of such charges or expenses.

§ 77. **Limitation on contracts and expenditures.** Neither the board of estimate and contract nor any officer, board or department of the city, excepting as herein otherwise provided, shall create any pecuniary obligation whatever on the part of the city which shall not be payable in the current fiscal year and which cannot be discharged from the income of the same year, provided, however, that nothing herein contained shall prevent the making of contracts for lighting of the public streets, parks and places of the city for a period not exceeding five years, but the total amount of such expense of lighting the streets and parks of the city for each year shall be raised by taxation as herein provided. Any contract, verbal or written, made in violation of this section shall be null and void as to the city, and no moneys belonging to the city shall be paid thereon. Nothing herein contained, however, shall be held to prohibit the commissioner of public health from expending such sums in addition to the amount appropriated for such purpose, or incurring such debts as may be actually necessary to prevent the spread of, or suppress any contagious or infectious disease, or any epidemic in the city.

§ 78. **First departmental estimates.** On or before the first day of October in the year preceding the taking effect of this chapter, all heads of departments and officers, authorized by law or the city ordinances to control or authorize expenditures, shall furnish to the mayor estimates, in writing, of the amount of expenditures for the year beginning on the first day of January thereafter, in their respective departments and offices, including a statement of the salaries of all their subordinates, which estimates the mayor

shall lay before the common council at its first meeting thereafter, and the same shall be entered in the minutes.

§ 79. **Fiscal year; departmental estimates.** The fiscal year of the city shall commence on the first day of January. On or before the first day of October thereafter in each year, all heads of departments and officers empowered by law or by ordinance to control or authorize expenditures, shall furnish to the mayor estimates, in writing, of the amount of expenditures for the next fiscal year in their respective departments and offices, including a statement of the salaries of all their subordinates, which estimates the mayor shall lay before the board of estimate and contract at its first meeting thereafter, and the same shall be entered in the minutes.

§ 80. **The first annual estimate.** Not later than the first day of November, the common council shall make and adopt an itemized statement, in writing, of the estimated revenues and expenditures of the city for the next fiscal year, which shall be known as the first annual estimate. The estimated revenues shall contain an estimate of the probable revenues which, in the judgment of the common council, will be received by the city during such fiscal year, less the amount required to be deposited to the credit of the sinking fund, if any; a statement of the amount of the sinking fund, which, in the judgment of the common council, is available and should be applied to the payment of the principal of any bonded indebtedness of the city falling due during the said fiscal year; and a statement of all unexpended balances or estimated unexpended balances up to the date of the taking effect of this chapter, remaining to the credit of the city, or of any office, board or department thereof. The estimate of expenditures shall contain an estimate of the several amounts of money which the common council deems necessary to provide for the expenses of conducting the business of the city in each board, department and office thereof and for the various purposes, contemplated by this chapter and otherwise by law for such fiscal year; to pay the principal and interest of any bonded or other indebtedness of the city falling due during such fiscal year; and the amount of any judgments recovered against the city and payable during such fiscal year, and the probable amount necessary to defray the amount of tax to be levied in the city for state and county purposes. After such annual estimate shall have been completed and on or before November 15th, the common council shall give a public hearing to such persons as wish to be heard in reference thereto, and on or before December 1st shall make and adopt the annual estimate for the first fiscal year after this chapter takes effect.

§ 81. **Annual estimate.** Not later than the first day of November prior to the commencement of each fiscal year, the board of estimate and contract shall make and adopt an itemized statement, in writing, of the estimated revenues and expenditures of the city for such fiscal year, which shall be known as the annual

estimate. The estimated revenues shall contain an estimate of the probable revenues which, in the judgment of the board of estimate and contract, will be received by the city during the fiscal year, less the amount required to be deposited to the credit of the sinking fund, if any; a statement of the amount of the sinking fund, which, in the judgment of the board of estimate and contract, is available and should be applied to the payment of the principal of any bonded indebtedness of the city falling due during the said fiscal year; and a statement of all unexpended balances or estimated unexpended balances of the current fiscal year remaining to the credit of the city, or of any office, board or department thereof. The estimate of expenditures shall contain an estimate of the several amounts of money which the board of estimate and contract deems necessary to provide for the expenses of conducting the business of the city in each board, department and office thereof and for the various purposes, contemplated by this chapter and otherwise by law for the said fiscal year; to pay the principal and interest of any bonded or other indebtedness of the city falling due during the said fiscal year; and the amount of any judgments recovered against the city and payable during the said fiscal year, and the probable amount necessary to defray the amount of tax to be levied in the city for state and county purposes and the Bronx valley sewer assessments. After said annual estimate shall have been completed and on or before November 15th, the board of estimate and contract shall submit the same in final form to the common council with a statement, in writing, of such reasons for such estimate as it may deem proper. The common council shall, as soon thereafter as may be possible, convene and consider the said estimate. It shall give a public hearing to such persons as wish to be heard in reference thereto. After such hearing, and on or before December first, the common council shall adopt such estimate so submitted or shall diminish or reject any items therein contained, and adopt said estimate as so amended. The common council shall not have the power to diminish or reject any item which relates to salaries, the indebtedness or estimated revenues, or the sums estimated as necessary to pay the tax to be levied within the city for state and county purposes, or the sums lawfully payable within said fiscal year upon judgments; nor shall the common council increase any item for any purpose contained in said estimate.

§ 82. **First tax budget.** The amount of estimated expenditures contained in the first annual estimate adopted by the common council less the amount of estimated revenues applicable to the payment thereof, and the amount of all judgments payable prior to the tax levy, shall constitute the first tax budget.

§ 83. **Tax budget.** The amount of estimated expenditures contained in the annual estimate adopted by the common council, less the amount of estimated revenues applicable to the payment thereof, and the amount of all judgments payable prior to the tax levy, shall constitute the tax budget.

* So in original. [Should be "or".]

§ 84. **First annual appropriations.** When the common council shall have adopted the first annual estimate as provided in section eighty-one of this chapter, the same shall be entered at large in its minutes and become a part of its proceedings. The several sums estimated for expenditures therein shall be and become appropriated in the amounts and for the several departments, officers and purposes as therein specified for the ensuing fiscal year. The several sums therein enumerated as estimated revenues and the moneys necessary to be raised by tax in addition thereto to pay the expenses of conducting the business of the city and for the purposes contemplated by this chapter and otherwise by law, shall be and become applicable in the amounts therein named for the purpose of meeting said appropriations. In case the revenues received by the city exceed the amount of such revenues named in such first annual estimate, or in case there remain any unexpended balances of appropriations made for the support of the city government or for any other purpose, then such surplus revenues or such unexpended balances shall, except as otherwise provided by law, remain on deposit and be included as a part of the estimated revenues for the succeeding year. Nothing herein contained shall prevent the transfer prior to the close of the fiscal year of unexpended balances from one department, officer or purpose to another department, officer or purpose provided such transfer be authorized by resolution duly adopted by the board of estimate and contract and by the common council.

§ 85. **Annual appropriations.** When the common council shall have adopted the final estimates of the board of estimate and contract, or said estimate as amended by it, the same shall be entered at large in its minutes and become a part of its proceedings. The several sums estimated for expenditures therein shall be and become appropriated in the amounts and for the several departments, officers and purposes as therein specified for the said fiscal year. The several sums therein enumerated as estimated revenues and the moneys necessary to be raised by tax in addition thereto to pay the expenses of conducting the business of the city and for the purposes contemplated by this chapter and otherwise by law, shall be and become applicable in the amounts therein named for the purpose of meeting said appropriations. In case the revenues received by the city exceed the amount of such revenues named in said annual estimate, or in case there remain any unexpended balances of appropriations made for the support of the city government or for any other purpose, then such surplus revenues or such unexpended balances shall except as otherwise provided by law, remain upon deposit and be included as a part of the estimated revenues for the succeeding year. Nothing herein contained shall prevent the transfer prior to the close of the fiscal year of unexpended balances from one department, officer or purpose to another department, officer or purpose provided such transfer be authorized by resolution duly adopted by the board of estimate and contract and by the common council.

ARTICLE VIII.

DEPARTMENT OF FINANCE.

Section 90. Comptroller; subordinates.

91. Duties of comptroller.
92. Claims against the city.
93. Custody and management of sinking fund.
94. Temporary loans.
95. Temporary and funded debts.
96. Issue and sale of bonds and other obligations.
97. Annual financial statement.
98. Debt limit.

§ 90. **Comptroller; subordinates.** The comptroller shall be the head of the department of finance. He shall appoint, to hold office during his pleasure, except as otherwise provided by law, a deputy comptroller who shall be an accountant and shall have had at least three years' experience as a bookkeeper, and such other subordinates as may be prescribed by the board of estimate and contract. In case of the absence or disability of the comptroller, or of a vacancy in the office, the deputy shall discharge the duties of the office until the comptroller returns, his disability ceases, or the vacancy is filled.

§ 91. **Duties of the comptroller.** The comptroller shall superintend the financial affairs of the city and manage the same pursuant to law and ordinances of the common council. He shall keep a separate account with every department, and with each improvement for which funds are appropriated or raised by tax or assessment. No warrant shall be drawn by him for the payment of any claim against or obligation of the city unless it states particularly against which of such funds it was drawn. No fund shall be overdrawn nor shall any warrant be drawn against one fund or appropriation to pay a claim chargeable to another. The comptroller shall demand, collect, receive and have the care and custody of and shall disburse all moneys belonging to or due the city from every source, except as otherwise provided by law. The amount of taxes directed by the board of supervisors to be levied in the city for state purposes shall be paid on or before the fifth day of May in each year and for county purposes shall be paid by the city, one-half on or before the fifteenth day of May and the other half on or before the first day of October, and such payment shall be made to the county treasurer, or be deposited to his order in such bank in the city of Mount Vernon as he may direct. The comptroller shall deposit daily to the credit of the city all moneys of the city received by him in such banks or trust companies as shall be designated by the board of estimate and contract. The interest upon all deposits shall be the property of the city and shall be accounted for and credited to the appropriate fund. No money shall be drawn from a city depository except on check or draft and made payable to the person entitled to receive the same. Every check or draft against the city funds shall bear reference to

the claim or demand in payment of which it is issued. The comptroller shall perform such other duties as may from time to time be prescribed by law, or by ordinance of the common council, not inconsistent with the provisions of this chapter, or the laws of the state.

§ 92. **Claims against the city.** No claim against the city, except for a fixed salary, for the principal or interest on a bonded or funded debt or other loan, or for the regular or stated compensation of officers or employees in any city department, or for work performed or materials furnished under contract with the city, shall be paid, unless a claim therefor, verified by or on behalf of the claimant, approved by the purchasing agent or by the head of the department or officer whose action gave rise or origin to the claim, shall have been presented to the comptroller, and shall have been audited and allowed by him. The comptroller shall cause each such claim, upon presentation to him for audit, to be numbered consecutively and the number, date of presentation, name of claimant and brief statement of character of each claim shall be entered in a book kept for such purpose, which shall at all times during office hours be so placed as to be convenient for public inspection and examination. No claim shall be audited or paid until at least five days have elapsed after its presentation to the comptroller, and the comptroller shall not be required to audit a claim until two weeks have expired after the expiration of such period of five days. The comptroller is authorized, in considering a claim, to require any person presenting the same for audit to be sworn before him touching the justness and accuracy of such claim, and to take evidence and examine witnesses in reference to the claim, and for that purpose he may issue subpoenas for the attendance of witnesses. If the claimant be dissatisfied with the audit, he may appeal to the board of estimate and contract by serving notice of appeal in writing upon the comptroller and the common council at any time before the first regular meeting of the common council that is held after he received the comptroller's audit. If the common council or any taxpayer be dissatisfied with the audit, it or he may appeal to the same board on behalf of the city, in like manner, by serving notice of appeal upon the claimants, and the comptroller within ten days after the meeting of the common council at which such claims shall have been reported by the comptroller. The board of estimate and contract shall make rules for the procedure upon the hearing of such appeals, and the decision and audit of that board, after the hearing upon the appeal to it, shall be final and conclusive as to the amount of the claim; but if there be no appeal from the original audit it shall in like manner be final and conclusive. The comptroller and the board of estimate and contract upon an appeal of it, as herein provided, shall have authority to take evidence and examine witnesses in reference to the claim and for that purpose may issue subpoenas for the attendance of witnesses; and the comptroller and each member of the board of estimate and contract is hereby declared to be ex-officio a commissioner of deeds.

When a claim has been finally audited by the comptroller he shall endorse thereon or attach thereto his certificate as to such audit, and the same shall thereupon be filed in and remain a public record in his office. If any person shall present to the comptroller for audit a claim in the name of any person or firm other than that of the actual claimant, he shall be guilty of a misdemeanor.

§ 93. **Custody and management of sinking fund.** The comptroller shall have, under the direction of the board of estimate and contract, the custody, investment and management of any sinking funds provided for the payment or redemption of city debts. Sinking funds shall be invested only in such securities as are approved by the New York State Banking Law. All existing sinking funds are hereby continued.

§ 94. **Temporary loans.** If, when the certificate of the amount of tax to be levied in the city for state and county purposes is received from the board of supervisors, it is ascertained that a sufficient sum has not been included in the annual estimate and tax budget to defray the same, the comptroller shall recommend to the common council that a certificate of indebtedness for such an amount as will pay the deficiency be issued, and the common council on receipt of such recommendation, shall direct the issue of a certificate of indebtedness of the city for the same amount at a rate of interest not exceeding six per centum per annum, said certificate of indebtedness and interest thereon to become due and payable not later than the fifteenth day of February next succeeding the date of issuance of said certificate. The amount of said certificate of indebtedness and interest payable thereon shall be included in the annual tax budget next succeeding the date of issue of the said certificate of indebtedness. If after said certificate of the board of supervisors is received, it is ascertained that more than a sufficient amount has been included in the annual tax budget to pay the required sum, the board of estimate and contract shall deduct the surplus from its next estimate of the probable amount needed to defray the tax for state and county purposes. In order to provide funds to meet the estimated expenditures contained in the annual estimate, the common council may, by resolution, adopted by a majority vote, with the approval of the board of estimate and contract, at any time after the beginning of the fiscal year borrow money and issue from time to time temporary notes, certificates of indebtedness or other obligations to an amount which shall not exceed in the aggregate the amount of the estimated revenues of the city for such fiscal year, including both the amount to be raised by taxes and other estimated revenues, and may from time to time renew the same. Such notes or obligations, may be payable on demand or may mature not later than the fifteenth day of February next succeeding the end of the fiscal year, shall bear interest at not to exceed six per centum per annum, shall be executed in the same manner as herein provided for bonds of the city, or in such other manner as the common council may provide. They shall be negotiated by the comptroller in such manner as may be determined by the common council and shall be paid from

the taxes and other revenues in anticipation of which they are issued, but any portion remaining unpaid on the fifteenth day of February next succeeding the end of the fiscal year may to an amount not exceeding the amount of taxes of such preceding fiscal year remaining unpaid be renewed in the manner provided for their original issuance for a period of not exceeding three years.

In order to temporarily finance the carrying out of any purpose for which bonds are authorized to be issued under this act, or any other law (including the payment of interest accruing during the period of construction or making of the public improvement), the common council may, by resolution adopted by a majority vote, with the approval of the board of estimate and contract, borrow money and issue from time to time temporary notes, certificates of indebtedness or other obligations which shall state in general terms the purpose for which they are issued, and may from time to time renew the same. Such notes or obligations may be payable on demand or may mature in not exceeding one year from the date when the purpose for which they are issued has been carried out and may be subject to earlier call for payment, shall bear interest at not exceeding six per centum per annum, shall be executed in the same manner as herein provided for bonds of the city or in such other manner as the common council may provide. They shall be negotiated by the comptroller in such manner as may be determined by the common council, and shall be paid or funded from the proceeds of sale of bonds within one year after the purpose for which they are issued, has been carried out.

§ 95. **Temporary and funded debts.** Temporary and funded debts of the city, for the various purposes authorized and contemplated by this act and otherwise by law, may be created by ordinance of the common council, provided, however, that any such ordinance shall, before it takes effect, be submitted to and approved by the board of estimate and contract. Funded debts may be created for any municipal purpose, including the raising of funds to meet any deficiency in the collection of taxes heretofore or hereafter levied on property of another municipality arising from the refusal of such other municipality to pay such taxes on the ground that the property assessed for such taxes is exempt from taxation. The creation of funded and temporary debts and the refunding of existing debts shall be subject to the provisions of the general municipal law, except as otherwise herein provided. Such ordinance shall define and determine the probable life or period of usefulness of the property or improvement for which such bonds are authorized, or the indebtedness to be funded thereby was incurred, and all such bonds shall mature within the period of time so determined, which determination shall be conclusive. If the bonds so authorized be for two or more purposes the ordinance shall determine the probable average of such periods for the different purposes, based upon the amount of the proceeds to be applied to each purpose. Every funded debt refunded or created to provide for the supply of

water shall be issued in such amounts and shall fall due at such times that the principal of the same shall be fully paid in not more than twenty years after its issue, and may by ordinance creating said funded debt be made payable out of the moneys received by the city in payment for water supplied to consumers. Any bonds of the city heretofore issued, other than revenue bonds, and not payable in installments, except as hereinafter provided, may be refunded. No funded debt which is payable in installments shall be refunded, but provision shall be made for the payment of each installment and accrued interest in the year in which it shall become due by the insertion of the proper sum in the annual estimate for the year in question.

§ 96. **Issue and sale of bonds and other obligations.** All bonds of the city for whatever purposes issued other than temporary obligations, shall be advertised and sold by the comptroller. He shall cause to be published in the official paper or papers once, a notice containing a description of the bonds to be sold, the manner and place of sale and the time when the same shall be sold, or the time limited for the receipt of sealed proposals which shall not be less than five days from the first publication of said notice. On the day specified in the notice the comptroller shall publicly open the proposals and the bonds shall be sold to the person or persons whose bids are most favorable to the city, but no bonds shall be sold at less than their par value. The comptroller may reject any or all bids received. Nothing in this section contained shall be construed to prevent the comptroller, with the consent of the board of estimate and contract, from awarding any bonds at their par value in trust for any redemption or sinking fund of the city without advertising. And nothing in this section contained shall be construed to require the aforesaid notice to state the rate of interest which said bonds shall bear, the statement in such notice of a maximum rate of interest being sufficient. This section shall not be construed to prevent the issuing of tax certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes for amounts actually contained or to be contained in the taxes for the year in which such tax certificates or revenue bonds are issued and payable out of such taxes, nor shall this section be construed to prevent the issuing of bonds to provide for the supply of water.

The award of costs in any such action shall carry with it the right to recover taxable disbursements.

§ 158. Limitations. In any action or proceeding to which the city of Mount Vernon, or any of its officers, is a party, and in which it is claimed that any tax or assessment is due and owing to the city, or in which it is sought to collect the same, the statute of limitations shall not be a bar or defense. No action shall be maintained to recover real estate sold under a judgment in an action brought by the city of Mount Vernon to foreclose the lien of a tax or assessment, nor to recover any right, title, interest or equity of redemption in or to real estate so sold, unless the action herefor is commenced within one year after the entry of judgment of foreclosure and sale. The limitation herein provided applies to and bars non-resident persons, persons temporarily absent from the state, minors, insane persons, persons in prison, and all other persons and corporations whether under disability or not.

§ 159. Pending proceedings. § 160. Judgments against the city. The amount of any judgment recovered against the city and payable by it, remaining unpaid, with the interest due thereon, in case the time to appeal

therefrom has expired and no appeal has been taken, or a certificate of no appeal therefrom has been given by the corporation counsel, or in case such judgment is finally affirmed, or an appeal taken and the execution thereon shall not be stayed, shall be reported to the common council immediately after the same shall have become payable, as aforesaid; and the amount thereof shall be included in the next tax budget. Such judgments shall be paid in the order of their recovery out of the moneys first paid into the city treasury on account of the annual taxes, or prior thereto, out of the temporary loans made in anticipation of the collection of such taxes. If, however, there be any moneys in the treasury to the credit of any fund derived from city revenues, other than taxation, in excess of the estimated revenues from such source, and not otherwise appropriated, sufficient to satisfy judgments against the city, the comptroller shall issue warrants for the payment of such judgments out of said funds in the order of their recovery. Until the moneys applicable to the payment of a judgment have been raised and paid into the city treasury and payment of the judgment has been refused, no execution shall issue against the city unless the amount of such judgment shall not have been included in the tax budget.

§ 161. **Police to aid corporation counsel.** It shall be the duty of every member of the police force of the city, observing or having any knowledge of an accident from which a cause of action might arise against the city, to report forthwith the fact of such accident to the chief of police who shall thereupon report the same to the corporation counsel; and upon the request of the corporation counsel, the chief of police shall detail a member of the force to aid the corporation counsel in the investigation of any such accident.

1. An action against a natural person, or against a foreign or domestic corporation wherein the complaint demands a judgment for a sum of money only, or to recover one or more chattels, with, or without damages for the taking, withholding or detention thereof.

2. Of summary proceedings authorized by the civil practice act to recover possession of real property situated wholly or partly in the city of Mount Vernon.

§ 175. **Limitations on jurisdiction.** The jurisdiction conferred by the preceding section, in any action commenced in said city court, is subject to the following limitations and regulations:

1. In an action wherein the complaint demands judgment for a sum of money only, the sum for which judgment is rendered in favor of the plaintiff cannot exceed one thousand dollars, exclusive of interest and costs as taxed; except where it is brought upon a bond or undertaking, given in an action or a special proceeding in the same court or before the city judge. Where the action is brought upon a bond or other contract, the judgment must be for the sum actually due, without regard to the penalty therein contained; and where the money is payable in installments successive actions may be brought for the installments as they become due.

2. In an action to recover one or more chattels a judgment cannot be rendered in favor of the plaintiff for a chattel or chattels, the aggregate value of which exceeds one thousand dollars.

3. The court has no jurisdiction of an action against an executor or administrator in his representative capacity.

4. The court has no jurisdiction of an action unless one of the parties thereto resides in the city of Mount Vernon, or a warrant of attachment is granted to accompany the summons and levied upon property of the defendant within the city; or the action be for the recovery of a statutory penalty or penalties by the city of Mount Vernon, or any of its officers or departments.

§ 176. **Jurisdiction in special proceedings.** The jurisdiction and power of said court in special proceedings is the same within the city of Mount Vernon as is by law conferred on the county court of Westchester county, within said county, except that said city court has no appellate jurisdiction.

§ 177. **Process.** The said court shall have power to issue process of subpoena, and thereby to require the attendance of witnesses residing or being in any part of the state, to testify in any matter, proceeding or action before said court and also to issue attachment to bring into court from any place where they shall be found, any such witnesses who shall have failed to obey the requirements of any such subpoena.

§ 178. **Criminal jurisdiction.** The city judge shall have criminal jurisdiction as follows: He shall have and possess all the powers and jurisdiction conferred by law upon recorders of cities and shall also have and possess the same jurisdiction and powers possessed by a single justice of the peace, or by two justices of the peace in towns in criminal matters. He shall have jurisdiction within the city of Mount Vernon to issue all criminal process, except as otherwise provided by law; to hear all complaints and conduct all examinations in criminal cases arising within the limits of said city; to hold courts of special sessions, with all the powers and jurisdiction of such courts; to hear and determine charges for every misdemeanor committed within the corporate limits of said city. The city judge shall have power, upon conviction for misdemeanor, to impose a sentence of imprisonment not exceeding one year, or a fine not exceeding five hundred dollars, or both such fine and imprisonment, with further imprisonment if such fine is not paid, not exceeding one day for each dollar of fine unpaid, except where a different punishment is by law prescribed for such offense. He shall have power to impose or suspend sentence or remit to probation pursuant to law. Any judgment, order or conviction made by him may be reviewed by appeal in the same manner, and with the same effect, as if the proceedings were before a justice of the peace. He shall have jurisdiction and full power to hear, try and determine all causes, proceedings or actions, civil or criminal, arising by reason of the violation of the charter, or ordinances of the city, and to enforce the payment of any fines or penalties imposed by the charter, or ordinances of the city. He shall in all things relating to the manner of procedure in his court, or in the arraignment or trial of the parties accused, be governed as far as may be by the same law as justices of the peace, or courts of special sessions in towns; and his judgments shall have the same effect, and all his proceedings may be reviewed in the same manner, and in the same courts, as is now, or may hereafter be provided by law for such review in cases of judgments and proceedings of justices of the peace, or of courts of special sessions within the towns of the state.

§ 179. **Juvenile court.** All cases involving the commitment or trial of children, actually or apparently under the age of sixteen

years, for any violation of law, shall be held and determined at suitable times to be designated therefor by the city judge separate and apart from the trial of other criminal cases, of which session a separate docket and record shall be kept. All such cases shall, so far as practicable, be held and determined in a separate court room to be known as the "Children's Court" and to be established exclusively for the examination and trial of children actually or apparently under the age of sixteen years, charged with any offense, and all such cases and cases of offenses by, or against the person of a child under the age of sixteen years, shall have preference over all other cases; and where a child is committed or detained as a witness in any case, such case shall be brought to trial or otherwise disposed of without delay whether the defendant be in custody or enlarged on bail.

§ 180. **City judge.** The city judge shall be the judge of the city court of Mount Vernon. He shall not hold any other public office, or act as referee or receiver, but shall devote his whole time and capacity, so far as the public interest demands, to the duties of his office.

§ 181. **Subordinates.** The city judge shall appoint, to hold office during his pleasure, except as otherwise provided by law, a clerk of the city court, who shall also be clerk of the court of special sessions in the city of Mount Vernon, a stenographer, a marshal and such other employees as he deems necessary for the proper conduct of the business of the city court, provided that the position of each employee has been authorized and the salary thereof fixed by the board of estimate and contract. The city judge shall be in responsible charge of all matters of the city court and shall have all authority necessary for the proper conduct of the business of said court.

§ 182. **Acting city judge.** In the event of the absence or disability of the city judge, the acting city judge shall exercise all the authority and perform all the duties of the city judge.

§ 183. **Powers of city judge.** The city judge shall have, within the city of Mount Vernon, the powers of a justice of the supreme court at chambers, and all the powers which the county judge of Westchester county has by law within said county. He shall also have the same jurisdiction and power as a justice of the peace of towns.

§ 184. **Removal of causes of action.** If it shall at any time appear by affidavit that the city judge is legally incompetent, incapacitated, or forbidden by law to sit upon the trial or hearing of any action or special proceeding pending in the city court or before him, on notice to both parties, an order shall be granted and entered with the clerk of said court removing such action or special proceeding to the county court of Westchester county, or to the county judge of said county, as may be proper, which order shall specify the cause and reason for making such removal, and a certified copy of such order must be filed in the office of the clerk of Westchester county, and thereupon it is removed into

said county court, or before such county judge, as provided in such order, and the subsequent proceedings therein must be the same as if it had been originally brought in said county court, or before the said county judge, except that the costs recovered by the successful party shall be such costs only as might have been recovered in the city court or before the city judge.

The supreme court may by an order issued at any time after joinder of issue of facts and before the trial thereof, remove to itself an action or special proceeding pending in the city court, or the purpose of changing the place of trial or hearing thereof. A certified copy of the order must be filed in the office of the clerk of said court and thereupon it is removed into the supreme court, and the subsequent proceedings therein must be the same as if it had been originally brought to the supreme court.

An order for the removal to the supreme court of an action or special proceeding, as above prescribed, can be made only upon notice, and at a special term of the supreme court held within the fifth judicial district, and in a case where an order changing in like manner the place of trial or hearing would be granted if the action or special proceeding was pending in the supreme court.

An appeal from an order made upon such motion must be taken and heard in like manner, as if the action or special proceeding was pending in the supreme court, and triable in the county of Westchester. Such an appeal from any order made upon such a motion, brings up to the appellate division of the supreme court, and thence to the court of appeals (if the order is appealable to that court), all questions which were before the special term and the appellate tribunal must dispose of the same as if they were originally presented to it.

An order to stay proceedings, for the purpose of affording an opportunity to make the application for removal, and a change of place of trial as aforesaid, may be made by any judge authorized to make an order to stay proceedings, either in the court where the action is pending, or in the supreme court and with like effect under like circumstances.

§ 185. Summons. All actions brought in the city court of the County of New York shall be commenced by the service of a summons in like form as in the supreme court, except that the time specified in the summons within which the defendant shall be required to answer the complaint, shall be six days instead of twenty. When a summons shall be issued by the clerk, unless it is accompanied by a complaint, the clerk shall endorse upon it a brief statement of the nature of the plaintiff's claim, with a statement of the amount thereof, together with the address of the plaintiff.

§ 186. Pleadings. A party to an action in said court may answer or demur to any pleading, or may reply to an answer within ten days after the service of a copy of the pleading to which he answers, demurs or replies.

§ 187. Practice. The forms of process, pleading and proceedings, and the manner of pleading and procedure prescribed by the civil practice act for actions, proceedings and remedies in the

courts of record, shall be used in said city court, as near as may be, except as otherwise provided by this chapter.

§ 188. **Notice of trial and of motion.** A notice of trial shall be served at least five days before the day named therein as the day of trial, and a notice of motion shall be served not less than two days before the time named therein for a hearing, except where the notice is served by mail, in which case the notice of trial shall be not less than seven days, and the notice of motion not less than four days. The judge of the city court may, however, by order, prescribe a shorter time for such notice for cause shown in any case.

§ 189. **Note of issue.** When any motion shall be noticed for hearing or action noticed for trial, a note of issue of such action or such motion shall be filed with the clerk at least two days before the day of the hearing or trial; and the clerk shall thereupon place the same upon the calendar for the day named. The same shall remain upon the calendar till heard, tried or otherwise disposed of by order of the court or city judge.

§ 190. **Terms.** The city court shall be open every day for transaction of business, except Sundays and legal holidays, from half-past nine in the forenoon until the city judge shall order the adjournment of the same, and any motion in said court or before the city judge may be noticed for hearing for any such day. The city judge may by rule designate terms for the trial of issues in actions in said court, not less than one in each week, and any action in said court may be noticed for trial at any such designated terms.

No process issued, or suit or proceeding pending in said city court of Mount Vernon shall be discontinued by reason that the court shall not be held on any stated day, but such process shall be deemed returnable, and such suit or proceeding shall be deemed continued to the next day on which the court shall be held.

§ 191. **Decision.** In all cases tried before the city judge without a jury he shall render and file with the clerk of said court his decision in writing within twenty days after the same shall have been finally submitted to him for determination. Should he refuse or neglect to render the decision within such time the action shall not abate, nor be deemed discontinued; but at any time after the lapse of twenty days and before the filing of such decision, either party may again notice the action for trial, and immediately file a note of issue and a new trial may thereupon be had.

§ 192. **New trials; defaults.** The said city court shall have power to grant new trials and open defaults in the same manner as such relief may be had in the other courts of record.

§ 193. **Rules of practice.** The general rules of practice adopted pursuant to the civil practice act shall apply to all proceedings and actions in said court, as far as they may be applicable, and the city judge may make such other rules for said court as are not inconsistent therewith.

§ 194. **Motion for judgment.** A motion for judgment on the answer and for like causes as allowed by the civil practice act, may be made on a notice of not less than two days.

§ 195. **Process; how directed.** Except the summons, every process and mandate shall be directed either to the sheriff of the county of Westchester, or to the marshal of the city court of Mount Vernon.

§ 196. **Application of civil practice act.** The only modifications and limitations upon the application and effect of the civil practice act in relation to actions and proceedings in said court are the provisions of this chapter.

§ 197. **Jury trials; summoning special jury.** Trial by jury shall be deemed and taken to be waived by the parties, unless such trial by jury shall be demanded at the first call of the action upon the calendar for trial after due notice of trial. But such jury trial having been demanded may be afterward waived by the party demanding the same. If a jury trial be demanded as aforesaid and not waived, and the amount involved as disclosed by the pleadings be less than two hundred dollars, either party to such action may demand the drawing of a special jury for the immediate trial of said action. The party demanding such jury trial shall deposit with the clerk a jury fee of six dollars. The clerk shall thereupon publicly draw the names of twelve persons qualified as trial jurors in said city from which to form a special jury for such case. The jurors shall be summoned and empanelled in the same manner, as nearly as may be, as in courts of justices of the peace in towns. When a special jury is so drawn as aforesaid the trial of the action may be adjourned for not more than six days to procure the attendance of a jury. The trial shall proceed before the jury so drawn in the same manner, as nearly as may be, before the court and jury at a regular jury term, except that the jury shall consist of only six members.

§ 198. **Jury fund.** The party in whose favor a verdict shall be given by the jury shall, before the entering of a judgment, pay to the clerk of the city court the sum of six dollars, which shall constitute a fund called the jury fund, out of which jurors shall be paid, with the sheriff's or marshal's fees for summoning the jury.

§ 199. **Jury list.** It shall be the duty of the commissioner of assessment and taxation of the city of Mount Vernon, on the first Monday in July in each and every year, to select from the names of residents of the city, qualified by law to serve as jurors, and legally exempt, a list of persons to serve as jurors. Duplicate copies of the persons so selected with their respective additions and place of residence shall be signed by said commissioner, and one of said lists shall be filed with the city clerk and one thereof shall be filed with the clerk of the city court. As soon as such list shall be filed with the clerk of the city court, the city judge shall give notice by publication in the official paper or papers that the jury list of said court has been filed and that on a day and hour named therein not less than seven days after the publication of said notice

he will attend at the city court room to correct the same, and on such day he shall attend and receive evidence of exemption in the same manner as authorized by courts of record, and no juror who does not then furnish proof of a legal exemption shall thereafter be allowed to claim exemption when he shall be drawn and summoned for jury duty. The names of persons found exempt by law shall be struck from the list, and the ground of exemption recorded. When the lists have been corrected and completed they shall again be filed with the city clerk and the clerk of the city court, respectively, and the said clerk of the city court shall carefully write the name, addition and residence of each of said jurors so remaining upon said lists upon ballots as near as possible of like size and color, writing one name on each ballot, and shall safely keep the same in a box to be prepared for that purpose.

§ 200. **Drawing and summoning jurors.** When the attendance of jurors in said city court shall be required the said city judge shall publicly draw, from the said box, the names of seventy-five of said jurors, in the presence of the clerk of the city court, and such others as may be in attendance, and the clerk of the city court shall enter the names thereof upon the minutes of said city court and the ballots drawn shall be destroyed.

The said city judge shall thereupon immediately issue his order in writing, either to the sheriff of the county of Westchester, or to the marshal of the city court of Mount Vernon, directing him to summon the persons so drawn to attend at the city court, at the time and place to be therein named, to try such cases as shall be given them in charge. Any action for which a jury shall have been demanded shall be tried before a jury of twelve men to be selected from those so summoned, who attend in the manner aforesaid, who shall be drawn therefor in the same manner as juries are drawn in other courts of record. Such jurors so summoned shall be required to attend for the trial of all actions in said court for which they are summoned, as the city judge may direct. The city judge may in his discretion, on application of any juror, excuse him from the whole or part of the time of service required of him and may also change the time of service of a juror to a later day during the same, or a subsequent term of the court. Each juror whose time of service is changed to a day certain, must attend at the opening of court on that day, and thereafter until discharged, without further notice. If he fails so to do, he is liable to the same punishment as if he had been personally notified by the sheriff of the said county of Westchester or the marshal of the city court of Mount Vernon to attend the term, and to be present on that day.

Jurors in the city court of Mount Vernon shall be drawn at least six days before the day when they shall be summoned, and notified to attend at least four days before the day when they shall be required to attend.

The court may order the sheriff or marshal to summon from the bystanders, or from the city at large, so many persons qualified to serve as jurors as shall be sufficient whenever a sufficient

number of jurors duly drawn and summoned do not appear or cannot be obtained to form a jury.

Whenever a panel of jurors shall have been drawn and summoned in said court, and shall thereafter be discharged, it shall be the duty of the clerk of said court to return to the jury box the names of all such jurors as have not been actually impaneled for the trial of an action, and when so returned to such box, they may again be drawn in the same manner as though such names had not been previously drawn therefrom.

§ 201. **Juror's fees.** Every juror who shall actually sit on the trial of an action in the city court shall receive the fee of twenty-five cents, to be paid to him by the clerk of the city court out of the jury fund.

§ 202. **Exemption from future service.** Each juror who shall be actually impaneled, and shall sit as juror on the trial of an action in said city court shall be entitled to a certificate under the seal of said court certifying to such fact, and such certificate shall exempt such juror from service as juror in any court held in and for the county of Westchester, for the calendar year in which he shall have served.

§ 203. **Fines for nonattendance.** When any juror shall be fined for nonattendance in said court, and an order shall have been entered, imposing such fine, it shall be the duty of the city judge of Mount Vernon, and the clerk of the city court of Mount Vernon, to issue process under the seal of said city court of Mount Vernon, the marshal of the city court of Mount Vernon or to the sheriff of Westchester county, commanding him to collect of the several persons named in the schedule thereto to be annexed, the several sums of money set opposite their names respectively, and to pay over the same to the comptroller of the city of Mount Vernon, and at the time of collecting such fines to notify such persons respectively that if they have good reason to show for remitting such fines they may show the same to the city court on any day when the said city court shall be sitting, and it shall be the duty of said judge and clerk to annex to such process a schedule containing in separate columns: First, the names of the persons fined; second, their respective residences; third, the amount of fine imposed upon each; and fourth, the cause of the fine, which schedule shall be certified by said judge and clerk to be correct abstracts of the several orders imposing such fines. The officer to whom such process is directed shall proceed to collect such fines respectively of the several persons named in such schedule by levy and sale of the personal property of such persons as upon executions against property in civil actions, and shall be entitled to collect the same fees; and in case such officer shall not find sufficient personal property of any persons so fined to raise the amount of his fee, he shall take the body of such person and detain him in custody, or commit him to the county jail until he shall satisfy such fine, in the same manner as upon execution against the body in civil cases, and he shall be entitled for his services to like fees.

§ 204. **New drawing.** Whenever the whole list of jurors whose names shall remain upon the jury list shall have been drawn for jury duty the lists may again be used in the manner aforesaid unless the commissioner of assessment and taxation shall then have filed a new list.

§ 205. **City court marshal.** There shall be a marshal of the city court of Mount Vernon, who shall, before entering upon the discharge of his duty, take, subscribe and file with the city clerk the constitutional oath of office. He shall also execute an official bond, with at least two sufficient sureties, to be approved by the city judge, in which he and his sureties shall jointly and severally agree to pay each and every person who may be entitled thereto all such sums of money as the said marshal shall become liable to pay on account of any execution or attachment delivered to him. The said bond shall be filed with the city clerk, and may be prosecuted by any person who shall suffer any loss by reason of the default or doing of said marshal in the discharge of the duties of his office. The said marshal shall, in said court, perform the same duties as are performed by sheriffs in other courts of record and shall have power to execute all process of said court in the same manner as the process in other courts of record are executed by the sheriff. The city judge may at any time require him to file new bonds, and may suspend such marshal until such bonds are approved and filed.

§ 206. **Powers and duties of marshal.** All acts to be done and performed by the sheriff may be done by the marshal of the city court, and all moneys paid by the sheriff or marshal into the court shall be paid to the comptroller to the credit of the action, and subject to the order of the court. The marshal of the city court of Mount Vernon shall have and possess the same powers in relation to all matters and proceedings in the court of special sessions of the city of Mount Vernon, and be empowered to perform the same duties therein as the sheriff of Westchester county, or any constable or policeman of said city.

§ 207. **Fees of marshal.** The said marshal shall be entitled to the same fees as the sheriff of Westchester county, for like services, to be paid by the party requiring said services, but the said marshal shall receive no fees or compensation for the service of any criminal process issued out of said city court, and it shall be the duty of the police officers of said city to execute all such process.

The marshal of the city court or the sheriff of Westchester county shall receive for summoning a jury the sum of two dollars, and for attending the court and jury in each case tried by jury, one dollar, which fees shall be paid by the clerk of said court out of the jury fund.

§ 208. **Deficiencies in jury fund.** Whenever the jury fund shall not be sufficient to pay the marshal's fees, which are payable out of such fund, the clerk of the city court shall certify to the common council the facts showing such deficiencies, and said common council shall cause to be paid, from time to time, to the

rk of the city court, by the comptroller, the amount of such deficiencies as they shall occur.

§ 209. **Deputy clerk.** The city judge may appoint a deputy clerk who shall take the constitutional oath of office, and file the same in the city clerk's office, and may then perform the duties of clerk of the city court, in the absence or disability of the clerk. He shall perform such duties, but he shall receive no fee or salary from the city.

§ 210. **Clerk's fees.** There shall be paid to the clerk of the city court the following fees: In all actions one dollar for every day in said court, and one dollar for entering judgment. The filing fee shall be paid before the action is placed on the calendar. Where the clerk issues the summons for a party appearing without an attorney, one dollar. For every transcript of judgment the clerk's fee shall be twenty-five cents.

§ 211. **Payment to comptroller.** All fees or fines paid to the city judge or to the clerk of the city court, except juror's fees, shall be paid over to the comptroller to the credit of the city of West Vernon. The clerk of the said court shall keep an account of all moneys received by him, and the same shall at all times be open for inspection of the comptroller.

§ 212. **Filed papers.** All orders, papers, undertakings and judgment-rolls in actions in said court shall be filed in the office of the clerk of said court.

§ 213. **Judgment docket.** The said clerk shall keep in his office a judgment docket book, in which he shall docket all judgments rendered in said city court.

§ 214. **Costs.** The following costs and allowances shall be recovered by the prevailing party in all actions, proceedings and appeals under this chapter.

In an action where the prevailing party who has appeared by attorney has recovered by attorney and recovered after an actual trial of the issues:

Less than one hundred dollars, ten dollars;

For one hundred dollars and less than two hundred dollars, fifteen dollars;

For every additional one hundred dollars or fractional part thereof, five dollars.

The defendant who has appeared by attorney and recovered judgment for a dismissal of the complaint, a nonsuit or for judgment on a counterclaim after an actual trial of the issues, shall be allowed the costs as is provided in subdivision one of this section, reckoned upon the amount demanded in the complaint, and if an affirmative judgment is rendered on the counterclaim, costs will be reckoned upon the amount claimed in the complaint, plus the judgment on the counterclaim.

On the granting or denial of a new trial, or any motion in an action or proceeding, an amount not exceeding ten dollars may be allowed for costs of motion.

The appellant on reversal, and the respondent upon affirmance, or the dismissal of an appeal by the county court of West-

chester county of a judgment of the city court of Mount Vernon or the city judge shall be entitled to twenty-five dollars costs; and the prevailing party on an appeal from an order shall be entitled to ten dollars costs.

5. On appeal to the appellate division of the supreme court, or to the court of appeals, the prevailing party shall be entitled to the same costs as provided by law for other appeals to such court.

6. The prevailing party, whether appearing by attorney or not, shall be entitled to his taxable disbursements.

§ 215. **Taxation of costs.** The clerk of said court shall, on two days' notice, adjust and tax the costs and disbursements of the prevailing party, and the amount shall be included in the judgment, but the same shall be subject to retaxation on motion to the city court.

§ 216. **Transcripts; enforcement of judgments.** A transcript of the docket of any judgment of the city court, when issued by the clerk of said court, under the seal of said court, may be filed in the office of the clerk of any county in the state, and such judgment shall thereupon be docketed in such county, and shall thereupon have the same effect, and may be enforced in the same manner, and the same proceedings may be taken thereon, with like effect in all respects, as if such judgment had been rendered in the supreme court and first docketed in the office of the clerk of such county.

When a transcript of the docket of any such judgment shall be filed in the office of the clerk of Westchester county, and there docketed, the same may be enforced at the election of the judgment creditor either by proceedings in the city court of Mount Vernon or before the city judge, or by proceedings before the county judge of Westchester county, or in the county court of Westchester county.

Whenever an execution against the property of a judgment debtor upon a judgment rendered in said city court shall be returned unsatisfied in whole or in part by the sheriff of Westchester county, or by the marshal of the city court of Mount Vernon, and the debtor shall reside in the county of Westchester, the same proceedings may thereupon be had before the city judge of the city of Mount Vernon, as could be taken before the county judge of the county of Westchester upon a judgment recovered in the county court of Westchester county, and upon the making in any such proceeding, by the city judge, of an order appointing a receiver of the property of the judgment debtor, a duplicate of such order be filed and recorded in the office of the clerk of Westchester county with like effect as of a similar order of the county judge of Westchester county in a supplementary proceeding wherein he had jurisdiction.

§ 217. **Findings.** In all cases tried before the city judge without a jury, if required by a party appealing from the judgment rendered therein, the city judge shall, within ten days after service upon him of a notice in writing, make and file with the clerk of the city court his findings therein of law and of fact, for the purpose of appeal.

§ 218. Appeals. Appeals from the judgments and orders rendered, entered or granted in the city court of Mount Vernon, or the city judge of Mount Vernon, may be taken as follows:

(a) From judgments in actions where a recovery of less than one hundred dollars is demanded in the complaint and from orders made in such actions in the city court of Mount Vernon, or by the city judge of Mount Vernon, of the effect described in the subdivisions of section six hundred and nine of the civil practice act, the appeal shall be to the county court of Westchester county. From judgments in actions where two hundred dollars or more is demanded in the complaint, and from the orders made in such actions in the city court of Mount Vernon, or by the city judge of Mount Vernon, of the effect described in the subdivisions of section six hundred and nine of the civil practice act, and from an order affecting a substantial right made in a special proceeding by the said city court or said city judge, appeals may be taken to the appellate division of the supreme court in the judicial department in which the city of Mount Vernon is situated. No appeal from any judgments of the city court of Mount Vernon shall be taken in any case until a motion for a new trial shall have been made, and an order granting or denying the same shall have been entered and such motion may be made before or after judgment on the judge's minutes, or upon a case and exceptions.

(b) All appeals provided for in this section must be taken by serving upon the attorney for the adverse party and on the clerk of the city court of Mount Vernon, by filing in his office a written notice to the effect that the appellant appeals from the judgment, order or from a specified part thereof; no security or undertaking shall be required to perfect an appeal from an order. To perfect an appeal in other cases except as specified in sections one hundred and seventy and five hundred and seventy-one of the civil practice act a written undertaking must be executed on the part of the appellant by at least two sureties or by a surety company to the effect that the appellant will pay all costs which may be awarded against him. Such undertaking shall be of no effect, unless acknowledged and accompanied by the affidavits of the sureties that they are worth at least the sum of two hundred and fifty dollars, and a copy thereof served on the respondent and the original filed with the clerk; and the respondent may within ten days, except to the sufficiency of the sureties, and unless they

other sureties justify on a notice of not less than five days for the city judge, as prescribed in sections eight hundred and forty-four and eight hundred and fifty-five of the civil practice act.

(c) Upon an appeal authorized by this section being taken and perfected, the clerk of the city court of Mount Vernon shall, at the expense of the appellant, forthwith certify and file with the clerk of the appellate court, a copy of the notice of appeal, judgment, order, and case, if any made and settled (which case must be made and settled as cases of appeal are made and settled in the supreme court), or, if the appeal be from an order, a copy of the notice of appeal, order appealed from, and of the papers upon which the order was granted.

(d) The appeal shall be heard upon the return thus filed, and the judgment or order appealed from may be affirmed, modified or reversed by the appellate court, as shall be just and proper, and when necessary and proper a new trial granted.

(e) The order or judgment of the appellate court shall be certified and remitted to the city court of Mount Vernon to be enforced, and judgment thereon with costs, if any, shall be entered in the city court of Mount Vernon only.

(f) From the order or judgment of the appellate division of the supreme court, on appeals taken under this chapter, an appeal must be taken to the court of appeals, if allowed by the appellate division of the supreme court, by an order made by the appellate division which rendered the determination, or at the next term after judgment is entered thereupon. Said appeal shall be taken in the same manner as provided in the civil practice act for other appeals to the court of appeals. From the order of judgment of the county court of Westchester county, on any appeal to it taken under this chapter, an appeal must be taken to the appellate division of the supreme court, in the same cases and in the same manner as provided by article forty of the civil practice act, for appeals to the supreme court from an inferior court, except that the judgment rendered or order made by the supreme court must be certified and remitted to the clerk of the city court of Mount Vernon, in whose office the judgment-roll or appellate papers must be filed, and the said judgment or order of the supreme court must be entered.

(g) Proceedings upon the judgment or order appealed from shall in no case be stayed except by giving an undertaking as required by this chapter, or by an order of the city court of Mount Vernon, or city judge, or as otherwise provided in the civil practice act.

(h) All appeals under this chapter to the county court of Westchester county must be taken within thirty days after notice, in writing, of the entry of the order or judgment appealed from. All appeals to the supreme court must be taken within sixty days after notice, in writing, of the entry of the judgment or order appealed from. All appeals to the court of appeals must be taken within the time specified in section five hundred and ninety-two of the civil practice act.

§ 225. **Description of premises.** In the assessment of any lands in the city for any purposes, it shall be sufficient to state the name of one of the owners of such lands if the owner or owners or any of them be residents of the city and known to the commissioner of assessment and taxation; if the owner or owners be unknown to the commissioner, or if they be non-residents and the ownership is unknown to the commissioner, then the assessment may be designated ownership unknown, and there shall be stated the number of the lot and the block, if subdivided into lots and blocks and so designated upon the city assessment map, or the number of the lot or farm lot, if not so subdivided into blocks and lots and so designated, and also the street and number of any building thereon; but if the land be vacant or the building thereon be not numbered, then the name of the street on which it fronts and a brief description of the premises shall be given. In case no inhabited building be on the land and the residence of the owner be unknown, such owner may be designated as unknown. No assessment hereafter made in the city shall be held to be invalid because the same may be made out in terms against the owner or owners unknown or the estate of a deceased person, naming such person, or the executor, administrator, heirs or devisees of a deceased person, naming such person, or any of them, or against a company or a firm name, or against a person in whom is the record title, though not the actual title of the property, or for any cause arising through ignorance or mistake as to the names of the owner or owners of the property assessed, whether individually or a corporation, provided such property is sufficiently described on the assessment rolls, to reasonably identify and indicate to a person familiar with the same, the particular property which it was intended to assess. Every assessment roll shall be considered as referring to the last adopted assessment map, unless it be otherwise stated therein.

§ 226. **Deeds, et cetera, to be presented; maps to be filed.** For the purpose of enabling the commissioner of assessment and taxation to prepare and perpetuate a more perfect record of the names of owners and claimants of real property in said city, every deed of conveyance of lands in said city, or other instrument in writing, whereby the ownership of said lands shall be changed, made and executed after this chapter takes effect, shall, before the same be received for record by the register of Westchester county, be presented at the office of said commissioner of assessment and taxation who shall, without fee, note the said transfer or title upon his records, and also note the fact of such presentation upon such deed. And every map, plot or subdivision map or plot of lands within the city, showing a subdivision of such lands into blocks or lots, shall, before it shall be filed in the office of the register of the county of Westchester, or in any city office, be presented to said commissioner of assessment and taxation and a copy thereof filed and stamped in the office of said

commissioner. If any such map or plot which has not been so stamped, shall be placed on file by any person he shall forfeit to the city of Mount Vernon ten dollars, to be sued for in the name of the city in any court of competent jurisdiction.

§ 227. **Tentative assessment roll.** Between the first and fifth days of April in each year the commissioner of assessment and taxation shall begin to prepare, and by the first day of July shall have completed, in triplicate, a tentative assessment roll for the year. The assessment roll shall be in the form required by the tax law.

§ 228. **Review and correction of assessments.** When the commissioner of assessment and taxation has completed the tentative assessment roll he shall publish at least twice in the official paper or papers a notice of the completion thereof and that it may be examined at his office, and of the days, to be known as grievance days, during which complaints may be filed and heard at his office. A verified written complaint stating the full value of the property and the reasons for complaint must be filed with the commissioner during the grievance days. The said grievance days shall be between the first and the tenth day of August in each year. All complaints shall be heard and decided by the board of review, which shall attend at the commissioner's office for the purpose of hearing complaints on every business day during said period from eight o'clock in the forenoon to twelve o'clock noon, from three o'clock to five o'clock in the afternoon, and from eight to ten o'clock in the evening, and during such other hours as they may deem necessary.

§ 229. **Apportionment of assessment.** Any person whose real property is assessed upon the tentative assessment roll with real property of another person as one piece or plot, may at any time after the filing of such assessment roll, before the same shall have been made the final assessment roll, submit his deed or other evidence of title to the property to the commissioner of assessment and taxation. The commissioner shall apportion the assessment and the tax thereon, and shall forthwith deliver a written statement of his apportionment to the comptroller. The comptroller shall thereupon enter the apportionment upon the assessment roll, and shall thereafter separately receive the taxes so apportioned.

§ 230. **Assessment of omitted property.** During the grievance days aforesaid the commissioner of assessment and taxation may add to the tentative assessment roll any property liable to taxation, the assessment of which may have been omitted, and he may increase any assessment upon the tentative assessment roll, upon giving two days' written notice of such addition or increase to the owner or agent of the property if known, otherwise to the occupant thereof. Such notice may be given by publication in the official paper or papers or by registered mail. Complaints against any such change shall be heard in like manner as complaints against an original assessment.

§ 231. **Right to review assessment of tax for local improvement limited.** No action or proceeding to set aside, vacate, cancel or annul any assessment or tax for a local improvement shall be maintained, except for total want of jurisdiction to levy and assess the same on the part of the officers, board or body authorized by law to make such levy or assessment or to order the improvement on account of which the levy or assessment was made. No action or proceeding shall be maintained to modify or reduce any such assessment or tax except for fraud or substantial error by reason of which the amount of such tax or assessment is in excess of the amount which should have been lawfully levied or assessed.

§ 232. **Procedure on review.** No action or proceeding shall be maintained to set aside, vacate, cancel, annul, review, reduce or otherwise question, test or affect the legality or validity of any assessment or tax for a local improvement, except in the form and manner and by the proceedings herein provided. If, in the proceedings relative to an assessment or tax, entire absence of jurisdiction on the part of the officers, board or body authorized by law to levy or assess the same or to order the improvement on account of which the assessment was made or tax imposed, is alleged to have existed or in case any fraud or substantial error, other than the errors or irregularities specified in the preceding section, by reason of which substantial damages have been sustained, are alleged to have existed or to have been committed, any party aggrieved thereby, who shall have filed objections thereto, within the time and in the manner specified by law therefor, and whose objections have been overruled by the board of review, may apply to the supreme court at any special term thereof, held within the ninth judicial district, for an order vacating or modifying such assessment as to the land in which he has an interest, upon the grounds, in said objections specified, and no other, and upon due notice of such application to the corporation counsel. Each such application shall be made within twenty days after the confirmation of the assessment. Thereupon such court may proceed to hear the proofs and allegations of the parties and determine the same, or may appoint a referee to take the proof and report thereon or to hear, try and determine the same. If it shall be determined in such proceeding that the officers, board or body had no jurisdiction to make the levy or assessment complained of or to order the improvement, the court may order such assessment or tax vacated. If it shall be determined therein that any such fraud or substantial error has been committed and that the party applying for such relief has suffered substantial damages by reason thereof, the court may order that the assessment or tax be modified as to such party, and that so modified it be confirmed. A like application may be made to secure a modification or reduction of any such assessment or tax on account of fraud or some substantial error occurring in the performance of the work of the improvement on account of which such assessment or tax is made or levied, and it shall be

determined in like manner. If, in any such proceeding, it shall be determined that such fraud or substantial error has been committed, by reason of which any such assessment or tax upon the lands of any such aggrieved party has been unlawfully increased, the court may order that such assessment or tax be modified by deducting therefrom such amount as is in the same proportion to such assessment or tax as the whole amount of such unlawful increase is to the whole amount of the assessment or tax for the improvement. An order so made in any such proceeding shall be entered in the county clerk's office of Westchester county, and shall have the same force and effect as a judgment. The court may, during the pendency of any such proceeding, stay the collection of any assessment or tax involved therein as against the parties thereto. Costs and disbursements of any such proceeding may be allowed in the discretion of the court. No appeal shall be allowed or taken from the order made in any such proceeding, but the determination so made therein shall be final and conclusive upon all the parties thereto. No assessment or tax shall be modified otherwise than to reduce it to the extent that the same may be shown by the parties complaining thereof to have been in fact increased in dollars and cents by reason of such fraud or substantial error. In no event shall that proportion of any such assessment which is the equivalent of the fair value or fair cost of the improvement be disturbed for any cause. No money paid on account of any assessment or tax shall be recovered for any cause, except the amount of the excess of such assessment or tax over and above the fair value and cost of the improvement. In case of the failure of any assessment or tax for any cause, the comptroller shall certify such fact to the common council and it shall be its duty to forthwith cause the same to be relieved and reassessed in a proper manner.

§ 233. **Consolidation of separate proceedings.** Two or more persons may unite in commencing and prosecuting proceedings to vacate or modify assessments; and when two or more persons have commenced separate proceedings to vacate or modify assessments for the same improvement, the court before whom the same are commenced or pending, or a judge thereof at special term or chambers may, by order upon due application and notice, consolidate such separate proceedings into one proceeding.

§ 234. **Rebates and deficiencies.** In all cases of assessment for improvements the commissioner of assessment and taxation shall include in the apportionment all the expenses connected with or which were incident to the making of the improvement and assessment. Whenever the amount apportioned shall exceed the actual cost of the improvement, including all expenses connected therewith or incident thereto, the comptroller shall certify the amount of the surplus to the commissioner and he shall thereupon declare a rebate and the excess shall be refunded pro rata to the persons who paid their assessments. If the amount assessed for any improvement shall be insufficient to cover the cost of the improvement, including all expenses connected therewith and

incidental thereto, the comptroller shall certify the amount of the deficiency to the common council and commissioner of assessment and taxation, and the common council and commissioner shall forthwith cause to be assessed and levied the amount of such deficiency pro rata upon the property included within the original assessment and the same shall be assessed, levied and collected in like manner as other assessments of a like character.

§ 235. **Completion and filing of the assessment roll.** The board of review shall decide all complaints and the commissioner of assessment and taxation shall correct and revise the tentative assessment roll in accordance with their decisions on or before the fifteenth day of September in each year. Each revision shall be made in red ink and shall be initialed by the commissioner of assessment and taxation. No erasure shall be made upon any copies of the said tentative assessment roll; errors shall be corrected in green ink. When the tentative assessment roll has been revised as herein provided the amounts of the assessments as revised as aforesaid shall be duly added and the totals stated, and the commissioner shall verify all three copies as required by the provisions of the tax law and shall duly certify the same to be the general assessment roll of the year in which it is so certified. The commissioner shall thereupon and before the first day of October in each year file one copy of the said general assessment roll in his office for public inspection and shall forthwith deliver another copy thereof to the clerk of the board of supervisors of Westchester county, and file the third copy thereof with the comptroller for the purpose of apportioning and extending the taxes of the following year thereon as herein provided. The assessment roll shall thereupon become official and conclusive as to all persons who have not made complaints as provided by this chapter.

§ 236. **Correction and cancellation of taxes and assessments.** The common council shall have authority to correct clerical errors on the assessment roll, to cancel or correct any erroneous or invalid assessments and to cancel or refund the taxes or special assessments thereon or any part thereof or any interest, penalty or fee pertaining thereto, except in the case of an assessment which is or which is claimed to be erroneous or invalid by reason of overvaluation or inequality. Each application for correction or cancellation must be by a written petition which must contain a statement of the full value of the property and all the facts necessary to a proper determination upon the application. Such petition must be signed and verified by the party in interest or his duly constituted agent or attorney. The commissioner of assessment and taxation, the comptroller or the commissioner of public works may make an application under the provisions of this section.

§ 237. **Record of correction of taxes and assessments.** Upon the cancellation or correction of any taxes or assessments by the common council, or by judgment of a court, the city clerk shall report the same to the comptroller who shall enter the same.

§ 238. **Assessment not invalidated by irregularities.** No assessment or tax shall be vacated, set aside, cancelled, annulled, reviewed or otherwise questioned or affected by reason of any error, omission, irregularity or defect, not actually fraudulent, in any of the steps or proceedings required to be had or taken as preliminary to, or in the making of, the assessment, or in the levying or collection of the tax, nor in relation to or in connection with any proposal, designation of materials, contract, work or improvement for or on account of which such assessment was made or tax imposed. But all property shall be liable to assessment and all assessments shall be valid and of full force and effect notwithstanding any such error, omission, irregularity or defect.

§ 239. **Establishment of tax rate; assessment roll; tax warrant.** The common council shall, on or before the first day of December, preceding the time when this charter goes into effect, and in each year thereafter, levy and cause to be raised by such tax a sum as shall be as nearly as possible but not less than the amount of the tax budget theretofore adopted for such year, by fixing a tax rate in cents and hundredths of a cent upon each dollar of assessed valuation of real and personal property within the city, to be collected from the several owners thereof. The city clerk shall forthwith certify to the comptroller the tax rate so fixed. The comptroller shall apportion and extend the city taxes against the respective assessments as the same are set forth in the assessment roll and shall deliver the said roll to the city clerk. The common council shall thereupon confirm the taxes so apportioned and extended and shall issue its warrant signed by the president of the common council and by the mayor, directing the comptroller to collect the amount of said taxes with interest as provided by law. The said assessment roll, together with the taxes so apportioned and extended, together with the said warrant, shall be the tax roll for the year and shall forthwith be delivered by the city clerk to the comptroller. The said warrant shall be returned at such time as the common council shall direct.

§ 240. **Taxes payable in instalments.** All taxes upon personal property and one-half of all taxes upon real estate shall be due and payable on the first day of January in each year, and the remaining and final one-half of taxes on real estate shall be due and payable on the first day of July thereafter in each year. All taxes shall be and become liens on the real estate affected thereby on the respective days when they become due and payable as hereinbefore provided and shall remain such liens until paid.

The second half of the tax on real estate which is due as hereinbefore provided on the first day of July following the payment of the first half, may be paid on the first day of January or at any time thereafter, providing the first half shall have been paid or shall be paid at the same time, and on such payments of the second half as may be made in such manner prior to July first

a discount shall be allowed from the date of payment to July first at the rate of four per centum per annum.

§ 241. **Notice of receipt of tax roll; payment of taxes to comptroller.** After receiving said tax roll and beginning on the second day of January in each year, the comptroller shall cause notice of the receipt thereof by him to be published in the official paper or papers once a week for three successive weeks that the same has been left with him for collection, and that all taxes shall be due and payable at his office at the times to be specified in such notice. No further notice than that herein required shall be deemed necessary either in the case of property owned by a resident or a non-resident, except that any person or corporation, whether a resident or non-resident of the city, who is the owner of or liable to assessment for an interest in real property in the city, may file with the comptroller of the city a notice stating his name, residence and post-office address, or in the case of a corporation, its principal office, a description of the premises, with its number or other designation on the city tax map, which notice shall be valid and continue in effect until cancelled by such person or corporation. The comptroller shall within twenty days after receiving such tax roll, or any other warrant for the collection of taxes, mail to each person or corporation filing such notice at the post-office address stated therein a duplicate tax bill for all taxes upon such real property included in said tax roll, or such other warrant. The comptroller shall add to the amount of such taxes the sum of ten cents for the expense of stationery and postage, which sum of ten cents shall be collected with such taxes. But the failure of the comptroller to mail such duplicate tax bill shall not invalidate such taxes, nor prevent the accruing of any interest or penalty imposed for the non-payment of taxes, nor prevent the sale of such property for the nonpayment of such taxes, as provided in this chapter.

The comptroller shall deliver a receipt wholly written in ink or partly printed and filled out in ink or indelible pencil to each person paying a tax, specifying the date of such payment, the name of such person, a description of the property as shown on the assessment roll and the assessed valuation thereof and for personal property or special franchise tax the amount thereof, the name of the person to whom the same is assessed, the amount of such tax and the date of delivery to him of the assessment roll, on account of which such tax is paid. For the purpose of giving such receipt, the said comptroller shall have a book of blank receipts so arranged that when a receipt is drawn therefrom, the corresponding stub or receipt will remain. The comptroller shall prescribe the form of such receipts, stubs and books and on the back of such receipts there shall be printed a statement showing the total assessed valuation of real estate, the total assessed valuation of personal property, the total assessed valuation of special franchises, the total assessed valuation of all property taxable within the city, the tax rate and the total taxes, together with a summary of the tax budget. At least ten days

before the second installment of tax upon said roll shall become due, the comptroller shall publish and mail in the same manner a similar notice of the times of payment and penalties and fees attaching to said second installment of tax, which penalties and fees shall be the same as upon the first installment of said tax.

§ 242. **Interest and penalties.** If any tax on personal estate or the first one-half of any tax on real estate shall remain unpaid on the first day of February after it shall become due and payable it shall be the duty of the comptroller to charge, receive and collect upon such tax so remaining unpaid on that day, interest upon the amount thereof, at the rate of eight per centum per annum, to be calculated from the day on which said taxes or such part thereof became due and payable, as provided herein, to the date of payment; and such increase of percentage shall be paid over and accounted for by such comptroller from time to time, as a part of the tax collected by him. If the final half of any tax on real estate shall remain unpaid on the first day of August after it shall be due and payable, it shall be the duty of the comptroller to charge, receive and collect upon such tax so remaining unpaid on that day, interest upon the amount thereof, at the rate of eight per centum per annum, to be calculated from the day on which said final half of said tax became due and payable, as herein provided, to the date of payment; and such increase of percentage shall be paid over and accounted for by such comptroller from time to time, as a part of the tax collected by him.

§ 243. **Notice to delinquents.** If any tax, or installment thereof, shall remain uncollected at the expiration of the times mentioned for the payment thereof, the comptroller shall give a written or printed notice to the person, corporation or association against whom such tax or installment thereof stands charged. Said notices shall bear even date, and shall require said persons, corporations or associations to pay such unpaid tax, or installment thereof, to said comptroller at his office within the term of twenty days thereafter with eight per centum interest thereon. Such notice may be served personally or by leaving the same at the residence or place of business of such person, corporation or association, or by mailing in the postoffice of the city properly folded, directed and postage paid, at least ten days before the expiration of the time last mentioned. For persons not residents within the city a notice to them or their agent mailed in the postoffice at Mount Vernon, properly folded, directed to them at their reputed places of residence and postage paid, shall be sufficient. The person or persons serving such notices, if served by a person other than the comptroller shall be designated by him, and an affidavit by such person or persons of the service of such notices shall be deemed evidence in all courts and places; said notice so served shall be deemed a full compliance with the statute which requires a collector of taxes to call at least once on the person taxed or at the place of his usual

residence and demand the payment of taxes charged on his property.

§ 244. **Certification of unpaid taxes to corporation counsel.** Whenever the unpaid taxes and assessments levied against any property in the city remain unpaid for a period of more than three years, together with the penalties thereon, the comptroller shall thereupon certify the same to the corporation counsel who shall forthwith foreclose the liens of such taxes and assessments in the manner provided by this chapter for the foreclosure of tax liens.

§ 245. **Return of unpaid taxes.** Within fifteen days after the time specified in any warrant for its return, or if the time of its return be extended, then within fifteen days from the time to which its return shall have been extended, the comptroller shall make and deliver to the common council a return of all taxes or assessments mentioned in the tax-roll or assessment-list remaining unpaid at the time of making such return; and upon making oath that the sums mentioned in said return remain unpaid, he shall be credited by the common council with the amount thereof. The comptroller may receive payment of taxes and assessments under such warrant until the delivery of said return to the common council.

§ 180. **[Rules and regulations.]**³ The state commissioner of health is hereby authorized and empowered to make such rules and regulations as the state commissioner of health may deem necessary and proper for the supervision and regulation of the practice of midwifery within the state of New York.

§ 181. **[Revocation of license.]**³ The state commissioner of health or his deputy may revoke the license to practice midwifery issued pursuant to the provisions of this article, for cause, after having given the midwife whose license is sought to be revoked, an opportunity to be heard.

§ 182. **[Failure to observe rules and regulations.]**³ All midwives to whom licenses shall be issued pursuant to the provisions of this article, shall conform to all rules and regulations of the state commissioner of health, the provisions of the sanitary code enacted by the public health council, the provisions of the public health law of the state of New York, the rules and regulations of any local board of health, and all lawful orders and directions of the state department of health or any local board of health, or local health officer, and any violation on the part of any midwife of any of the rules and regulations of the state commissioner of health, the sanitary code as adopted by the public health council, the provisions of the public health law or the rules and regulations of any local board of health, or the disobedience of any lawful order of the state department of health or any local department of health or local health officer, shall be sufficient cause for the revocation of any license issued to a midwife and shall also be a sufficient cause for the withholding of any license to practice midwifery from any midwife so offending in any manner as aforesaid by the state commissioner of health.

§ 183. **[Practices forbidden.]**³ A duly licensed and registered midwife may practice midwifery in cases of normal labor and in no others. No midwife shall in any case of labor use instruments of any kind nor assist labor by any artificial, forcible or mechanical means, nor perform version nor attempt to remove adherent placentae nor administer, prescribe, advise or employ any poisonous or dangerous drug, herb or medicine nor attempt the treatment of disease except where the attendance of a physician cannot be speedily secured, and, in such cases, the midwife shall secure the attendance of a physician as soon as possible.

§ 185. [Licenses now existing.]⁴ The state commissioner of health may, by rule or regulation, provide that all licenses issued to midwives for the calendar year nineteen hundred and twenty-two under prior rules or regulations of the state commissioner of health or the public health council, may remain in force and effect until the end of the calendar year nineteen hundred and twenty-two, whereupon all licenses to practice midwifery for the calendar year nineteen hundred and twenty-two shall be issued pursuant to the provisions contained in this article.

§ 186. AN ACT to amend the railroad law, by adding a new section providing that a domestic railroad corporation, other than a street railroad corporation, owning at least three-fourths of the capital stock of another domestic railroad corporation, other than a street railroad corporation, may acquire the minority stock of such other domestic railroad corporation upon an appraised valuation in aid of merger.

Became a law April 6, 1922, with the approval of the Governor. Passed, three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Chapter four hundred and eighty-one of the laws of nineteen hundred and ten, entitled "An act in relation to railroads, constituting chapter forty-nine of the consolidated laws," is hereby amended by adding thereto at the end of article four thereof a new section, to be section one hundred and sixty, and to read as follows:

§ 160. **Condemnation of minority stock in aid of merger.** A domestic railroad corporation, other than a street surface railroad corporation, owning and operating a railroad wholly in this state, which has lawfully acquired at least three-fourths of the issued and outstanding shares of the capital stock of another domestic railroad corporation, other than a street surface railroad corporation, owning and operating a railroad wholly in this state, and which desires to acquire the remainder of the shares of such outstanding stock and to merge such other corporation pursuant to section fifteen of the stock corporation law, and cannot agree with the holders for the purchase thereof, may acquire the remainder of the shares of said outstanding stock as herein provided, if the public service commission, or the transit commission if the railroads or both corporations are exclusively within a city containing a population of over one million inhabitants according to the last preceding federal census or state enumeration, shall have first granted its permission for the acquisition and merger. Such corporation may apply by petition to the supreme court, at any special term thereof held in the judicial district wherein is located the principal office of the corporation, the shares of whose stock are sought to be acquired, for the appointment of three persons to appraise the value of the said shares of stock. The petition shall set forth fully the facts justifying such application under the provisions of this section, and shall state the names of each of the holders of record of such shares of stock. Notice of the time and place of the presentation of such application together with a copy of the petition, must be served upon each of the holders of record of such stock and upon the public service commission, or the transit commission if the railroads of both corporations are exclusively within a city containing a population of over one million inhabitants according to the last preceding federal census or state enumeration, at least

twenty days before such presentation. Service of the petition and notice must be made in the same manner as the service of a summons in an action in the supreme court is required to be made. If the court shall find, after hearing all the interested parties who may appear, that the acquisition by the petitioner of such remaining stock will be for the public interest, the court shall appoint three disinterested appraisers, and designate the time and place of their proceedings. The appraisers shall meet at the time and place designated, and they or any two of them, after being duly sworn honestly and faithfully to discharge their duties, shall estimate and appraise the value per share of such stock, and shall return to the court their written report of such appraisement, together with the minutes of testimony taken by them. They shall be entitled to the same fees and necessary expenses as are commissioners appointed in proceedings for the condemnation of real property, which fees and expenses shall be paid by the petitioner. Upon confirmation of the report of the appraisers by the court, the court shall make a final order adjudging that upon payments by the petitioner either directly or into court as hereinafter provided, the holders of record of the stock which has been appraised shall cease to have any interest in such stock, and all of their right, title and interest in said stock shall vest in the petitioner. The petitioner may pay the value of the stock as appraised directly to the several holders of record thereof or any of them, upon the surrender to petitioner of the certificates representing the stock paid for with duly executed powers of attorney for transfer to the petitioner, or the petitioner may pay the value as appraised into court for the account of the several holders or any of them. The holders of stock before receiving the amounts so paid into court shall deposit in court for delivery to the petitioner their certificates of stock with duly executed powers of attorney for transfer to the petitioner, but the right, title and interest in the stock shall vest in the petitioner immediately upon the payment into court of the value as appraised. The final order shall direct that after the expiration of sixty days from the entry thereof any holder of stock which has been appraised but has not been paid for either directly or by payment into court may, upon filing in the office of the clerk of the county where the petitioner's principal place of business is situated for delivery to the petitioner the certificate or certificates of such stock with duly executed powers of attorney for transfer to the petitioner, enter a money judgment against the petitioner for the amount at which said stock has been appraised, and may have execution thereon. Upon satisfaction of such judgment all the right, title and interest in and to such stock shall vest in the petitioner and the certificate or certificates with the powers of attorney shall be delivered to the petitioner.

¹⁰ If it appears from such reassessment that such corporation shall have paid an excess of tax under this article for the year for which such reassessment is made, the tax commission shall credit such corporation with such amount. Such credit may be assigned by the corporation in whose favor it is allowed to a corporation liable to pay taxes under this article, and the assignee of the whole or any part of such credit, on filing with the commission such assignment, shall thereupon be entitled to credit upon the books of the tax commission for the amount thereof on the current account for taxes of such assignee, in the same manner and to the same effect as though the credit had originally been allowed in favor of such assignee, or the amount of such credit, without interest, may be refunded to such corporation out of any revenues received under this article to the credit of the state comptroller, at the direction of the state tax commission.

The amount or amounts of such excess shall be charged against the state treasury and the taxing district or districts in the proportions that such excess was originally credited or paid. In case the amount of current revenues credited to any taxing district, under this article, is not equal to the charge against any such taxing district on account of any such refund, further revenues credited to such taxing district shall first be applied to the liquidation of such charge.

§ 7. Section two hundred and nineteen-c of such chapter as added by chapter seven hundred and twenty-six of the laws of nineteen hundred and seventeen and last amended by chapter four hundred and forty-three of the laws of nineteen hundred and twenty-one,¹³ is hereby amended to read as follows:

§ 219-c. **When tax payable.** The tax hereby imposed shall be paid to the state tax commission on or before the first day of January of each year, or within thirty days after notice of the tax has been given as provided in section two hundred and nineteen-b of this chapter if such notice is given subsequent to the first day of December of the year for which such tax is imposed. If such tax be not so paid, or in the case of additional taxes, if not paid within thirty days after notice of such additional tax has been given as provided in section two hundred and nineteen-d of this chapter and such notice of additional tax is given subsequent to the first day of December of the year for which such additional tax is imposed, the corporation liable to such tax shall pay to the state tax commission, in addition to the amount of such tax, or additional tax, ten per centum of such amount, plus one per centum for each month the tax or additional tax remains unpaid, but the state tax commission upon submission to it of satisfactory proof that the failure to pay such taxes, or additional taxes, within the time prescribed in this article, was not willful or evasive, may modify the exaction to not less than one per centum for each month following the due date of the tax. Each such tax or additional tax shall be a lien upon and binding upon the real and personal property of the corporation liable to pay the same¹⁴ until the same is paid in full.

§ 219d, as added by L. 1917, ch. 726, and amended by L. 1921, ch. 443, amended.

§ 8. Section two hundred and nineteen-d of such chapter, as added by chapter seven hundred and twenty-six of the laws of nineteen hundred and seventeen, and last amended by chapter four hundred and forty-three of the laws of nineteen hundred and twenty-one,¹⁵ is hereby amended to read as follows:

§ 219-d. **Corrections and changes.** If the amount of the net income for any year of any corporation taxable under this article as returned to the United States treasury department is changed or corrected by the commissioner of internal revenue or other officer of the United States or other competent authority, such corporation, within ten days after receipt of notice of such change or correction, shall make return under oath or affirmation to the tax commission of such changed or corrected net income, and shall concede the accuracy of such determination or state wherein it is erroneous.

The tax commission shall ascertain, from such return and any other information in the possession of the commission, the entire net income of such corporation for the fiscal or calendar year for which such change or correction has been made by such commissioner of internal revenue or other officer or authority. All the authority conferred on the tax commission by the provisions of section one hundred and ninety-five of this chapter is hereby granted to it in respect to the ascertainment of such entire net income. Such credit may be assigned by the corporation in whose favor it is allowed to a corporation liable to pay taxes under this article, and the assignee of the whole or any part of such credit on filing with the commission such assignment shall thereupon be entitled to credit upon the books of the tax commission for the amount thereof on the current account for taxes of such assignee in the same way and with the same effect as though the credit had originally been allowed in favor of such assignee;¹⁸ or the amount of such credit, without interest, may be refunded to such corporation out of any revenues, received under this article, to the credit of the state comptroller, at the direction of the state tax commission.¹⁹ The amount or amounts of such excess shall be charged against the state treasury and the taxing district or districts in the proportions that such excess was originally credited or paid.¹⁹ In case the amount of

§ 219c, as added by L. 1917, ch. 726, and amended by L. 1921, ch. 443, amended.

§ 9. Section two hundred and nineteen-f of such chapter, as added by chapter seven hundred and twenty-six of the laws of nineteen hundred and seventeen and amended by chapter four hundred and forty-three of the laws of nineteen hundred and twenty-one, is hereby amended to read as follows:

ch. 64.

Section 1. Chapter sixty-four of the laws of nineteen hundred and nine, entitled "An act relating to villages, constituting chapter sixty-four of the consolidated laws," is hereby amended by inserting therein a new section, to be section one hundred and nine-a, to read as follows:

§ 109-a. **Correction of errors in assessment-rolls by village boards in certain villages.** If it shall be made to appear to the village board of any village in a county having a population of more than three hundred thousand according to the last federal or state census or enumeration, adjoining a city of the first class having a population of one million and upwards upon the verified petition of a majority of the assessors of said village;

1. That any taxable property therein has by mistake been placed on the assessment-roll thereof for the current year, at a value different from what the assessors intended for such property; such board may cause the same to be corrected and if the value is increased to cause to be inserted thereon the additional amount of tax or assessment due therefrom and if the value is decreased to cause to be credited thereon so much of the tax or assessment as is represented by the amount of decrease.

2. That any taxable property therein has been omitted from any assessment-roll for the preceding year, such board shall cause the same to be inserted on the roll for the current year at a valuation to be fixed by the assessors in their petition, which shall be the value for the year omitted and shall also cause to be inserted thereon in addition to the amount of tax or assessment for the

current year in a separate column properly designated, the amount of tax or assessment which such property should have borne for the year when such property was omitted, which shall be at the rate per centum of the omitted year.

3. That any taxable property therein has been omitted from the assessment-roll for the current year, such board shall cause the same to be placed thereon at a value to be fixed by the assessors in their petition and shall cause the amount of tax or assessment to be placed thereon which shall be at the rate per centum of the current year.

4. That any taxable property therein has been assessed erroneously or illegally on the assessment-roll for the current year, such board shall cause such value of assessment and the tax or assessment thereon to be cancelled.

5. That any taxable property therein has been assessed in any assessment-roll thereof including the current roll with property of another, or another person, or persons, have become owners of a part or parts of such property since the making of such roll, such board may cause the assessed valuation and the amount of tax or assessment thereon to be apportioned accordingly.

6. That any taxable property therein was indefinitely assessed, or for good and sufficient reason the tax or assessment on the same was not paid, such board may waive the penalties, charges, costs and interest thereon.

A copy of the petition under the first, second or third subdivision of this section, with a notice of the presentation thereof to the village board shall be served in such manner as the village board may direct or approve on the person or corporation alleged to be liable to taxation and the village board shall take no action on such petition unless proof of the manner of service of such petition and notice be made to them by affidavit. The village board shall give to the person alleged to be liable to taxation for such property an opportunity to be heard and on such hearing and review, the village board shall have all the powers that the assessors have in reviewing and correcting the assessment-roll. If under the fourth subdivision of this section any tax or assessment shall be erroneous, such village board shall cause the same to be reassessed in a proper manner. If under the first subdivision of this section the value of the assessment is decreased such board shall cause so much of the tax not due to be refunded if same has been paid. If under the fourth subdivision of this section any tax or assessment is illegal or erroneous, such board shall cause the same to be refunded or adjusted if same has been paid. If under the fifth subdivision of this section any tax or assessment is appropriated, the collector of taxes or the village treasurer, whichever shall be entitled thereto, shall receive the same separately when so apportioned. If under the sixth subdivision of this section any penalty, charge, cost or interest on any tax or assessment is waived, the collector of taxes or the village treasurer whichever shall be entitled thereto shall receive the amount of tax or assessment without such when a certified copy

of the resolution waiving the same is filed with him. If under the fourth subdivision of this section any tax or assessment shall be illegal or under the first subdivision of this section any tax or assessment shall be decreased, or in case of a reassessment of an erroneous tax or assessment, the amount of tax or assessment finally due is less than the amount of tax or assessment as shown on the roll, before such tax or assessment was found to be erroneous, the amount thereof, or the amount of difference of such tax or assessment as the case may be, shall be included in the next levy of taxes made for such village. Any omitted taxable real property added to the rolls, as herein provided, or any reassessment of any tax or assessment as herein provided, or any correction of an error as herein provided, by which the tax is made greater than was the original assessment shall not be a lien on the real property for such additional amount as against purchasers or mortgagees in good faith.

As many of such parts as there be years elapsed since the confirmation of such assessment, with interest at the rate of eight per centum per annum on the amount of the assessment unpaid, shall be paid within ten days after such division as a condition of the extension of time of payment of the remainder as provided in this section. L. 1916, ch. 530, § 101 amended.

§ 101. The board of supervisors of the county of Niagara shall cause a corrected assessment roll of the city of Niagara Falls to be delivered to the treasurer on or before the fifteenth day of December in each year with their warrant in due form of law attached thereto, demanding the said treasurer to receive and collect from the several persons and corporations named in said assessment roll the several sums mentioned in the last column of said roll opposite their respective names, and to pay over the same in the manner directed in said warrant. Said warrant shall direct said treasurer to pay over all moneys therein specified, on or before the first day of February then next ensuing or such part thereof as has been received by him. Upon receiving such assessment roll and warrant, he shall give notice in the official paper of the city of the receipt by him of the same, and that all persons and corporations named therein are required to pay their taxes at his office on or before the first day of February next ensuing; also that for three weeks following the date of such notice, any person or corporation may pay his, her or its county

or state taxes without any percentage or fees thereon; that after the expiration of three such weeks, three per centum shall be added to and collected by said treasurer upon all such taxes received or collected by him from the expiration of such three weeks, to and until the first day of February next ensuing. If any such tax shall remain unpaid on the first day of February after the delivery of the assessment roll and warrant, he shall thereupon cause a written or printed notice to be given to every person resident within the city from whom such tax may be due, specifying the amount and percentage of the tax and requiring the same to be paid on or before the fifteenth day of February of the same year at his office. For persons not residents in said city, a notice to them or to their registered agent, deposited in the post office in Niagara Falls, properly folded and directed to them at their reputed places of residence, with the postage thereupon prepaid, shall be sufficient. Such notice so served shall be deemed a full compliance with the statute requiring a collector of taxes to call at least once on a person taxed, or at his usual place of residence, and demand payment of the taxes charged him. But nothing herein contained shall be deemed to require such notice to be given unknown owners or non-residents of the city, whose residence or reputed place of residence is not known, and who have no registered agent residing in the city. On the fifteenth day of February, the fee additional to the tax then remaining unpaid shall be five per centum. In case any of the said taxes remain unpaid on the fifteenth day of March succeeding the delivery of the assessment roll and warrant to the treasurer, he shall deliver to the county treasurer an account of the taxes so remaining due, with a description of the property liable for the same as described in the assessment roll, and upon making oath before the county treasurer that the sums mentioned in the account remain unpaid and uncollected, and that he had not, on diligent inquiry, been able to discover any goods or chattels belonging to or in the possession of the person charged with or liable to pay such sums whereon he could levy the same, the said treasurer shall be discharged from all liability for the amount thereof, and he shall be credited therewith by the county treasurer.

§ 6. Section one hundred of such chapter is hereby amended to read as follows:

§ 100. **Judgment of foreclosure of tax lien.** In an action to foreclose a tax lien, unless the defendants obtain judgment, the plaintiff shall be entitled to a judgment establishing the validity of the tax lien so far as the same shall not be adjudged invalid and of the transfer of tax lien, and directing the sale of the real property affected thereby, or such part thereof as shall be sufficient to discharge the tax lien, or such item thereof as shall not be adjudged invalid and the interest thereon and all other accrued taxes, assessments and water rents affecting the real property, together with the expenses of the sale and the costs of the action. ⁵ The judgment of foreclosure shall direct the payment of (a) the costs, disbursements and expenses of the foreclosure action and of the sale thereunder; (b) all taxes, assessments, water rates, tax liens or transfers of tax liens for the same, which are a lien against the premises so sold subsequent to the taxes or assessments covered by the lien so foreclosed; (c) all taxes, assessments and water rates or interest acquired from the sale or lease of the premises for the same, which are still unpaid and due and owing to the city as of the date of the taxes for which the tax lien therein was sold, with all interest, penalties and charges thereon; (d) the amount of the tax lien foreclosed or so much thereof as the balance of the proceeds of sale will pay the same; (e) the surplus, if any there be.

1. To the widow of any member of the police force at the time of the passage of this act, or who may hereafter become a member of the police force who shall have been killed while in the actual performance of police duty, or shall have died from the effects of any injury received while in the actual discharge of such duty, provided such death shall not have been caused by misconduct on his part, such sum per annum as may in the discretion of the board of trustees of said fund be deemed proper.

2. To any child or children under sixteen years of age of such member of the police force killed or dying as aforesaid, but leaving no widow, or if a widow, then after her death to such child or children being yet under sixteen years of age, such sum as the board of trustees of said fund may deem proper.

3. To any such member of the police force who, while in the actual performance of police duty, and by reason of the performance of such duty, and without fault or misconduct on his part, shall have become permanently disabled physically or mentally so as to be unfitted to perform full police duty, such sum per annum as the said board of trustees of the pension fund shall deem proper.

4. Any such member of the police force who has or shall have performed police duty for a period of twenty years or upwards upon his own application or upon the certificate of the surgeon of said police force certifying that such member is permanently disabled so as to be unfit for police duty may, in the discretion of the common council with the approval of the commissioner of public safety, be retired from service and placed upon the police pension roll, and therefrom, shall be awarded, granted and paid from said police pension fund by the trustees thereof an annual sum during his lifetime, equivalent to one-half⁹ the full pay of a member of said police force of the rank of the member so retired. 5. Pensions to widows shall terminate when the widow shall remarry and pensions to children shall terminate whenever the children shall, respectively, arrive at the age of sixteen years. The common council may, in its discretion, order any pension granted or any part thereof to cease, except to members of the police force retired after twenty years' service, as hereinbefore provided; but in all such cases the said common council shall file with the city clerk a written statement of the causes which determine them in ordering any pension to so cease, and nothing herein contained shall render the granting or payment of such pension obligatory on the common council, as the trustees of the police pension fund, except as hereinbefore provided.

6. No member of the police force shall be awarded, granted or paid a pension on account of physical or mental disability or disease unless upon the certificate of a competent surgeon who shall have been assigned by the commissioner of public safety, which shall set forth the cause, nature and extent of the disability, disease or injury of each member of the police force who may be placed upon the pension roll, and said certificate shall distinctly state whether or not such disability, disease or injury was incurred or sustained by said member of the police force in the performance of police duty, and such certificate shall in each case be filed with and entered upon the minutes of the common council.

7. The time for the commencement of the two per centum to run shall be at the date of the passage of this act as to members then on the force, and as to those members who may subsequently be appointed it shall commence on the date of their appointment.

§ 10. Section three hundred and five of such chapter, as added by chapter one hundred and twenty-four of the laws of nineteen hundred and nineteen, is hereby amended to read as follows:

Said map shall be a copy of the land map of the county then on file, including all additions to and changes in said land map which have been previously filed, together with the additions or changes intended to be filed on the date of the filing of said new map, and shall thereafter be known as the land map of the county of Nassau and shall become a public record; and every provision of this section so far as the same may be applicable thereto shall apply to said new map with the same force and effect as though said map was prepared under the provisions of section two hereof. The land map previously in use shall remain on file for the purpose of reference.

§ 16. In cases where any instrument shall have been recorded without such designation as is required by section ten of this act, or with an erroneous designation, the said clerk of the county shall, on presentation of proper proof thereof, enter such instrument in the proper index under the proper block number of every block, the designation of which shall have been erroneously stated or omitted, and shall at the same time make a note of such entry and of the date thereof in every place in which such instrument may have been erroneously indexed, opposite the entry thereof, and also upon the record of the instrument and upon the instrument itself, if the same be in his possession or produced to him for the purpose, and the record of such instrument shall be constructive notice as to property in any block not duly designated at the time of such record only from time to time when the same shall be properly indexed.

Correction of entries.

§ 17. No entry in any book or index in said clerk's office shall be erased so as to be illegible, but in case of any correction the same shall be made without destroying the original by drawing a line through such original entry, and in all such cases the date of such correction, attested by the signature of the county clerk or his deputy, shall be entered upon the same page upon which such correction is made, on the margin, opposite such correction.

§ 18. Any person presenting to said county clerk an instrument for record under this act shall pay to said clerk, in addition to the fees now required by law for recording like instruments, the sum of twenty-five cents for each block under which such instrument is required to be indexed, and the sum of one dollar for each block shall be payable whenever an instrument already recorded is required to be reindexed under section sixteen of this act.

Clerk's fees.

§ 19. The provisions of this act shall not apply to the indexing of the general assignments, wills, powers of attorney, executory contracts for the sale or purchase of land or satisfaction of mortgages, except as in the next section provided; but such instruments shall be filed or recorded as now required by law, and when recorded they shall be indexed in separate alphabetical indices.

§ 20. The said board of supervisors is hereby authorized, in its discretion, from time to time to determine the amounts of money not herein otherwise provided for which may be required to carry out the provisions of this act until the first day of January, nineteen hundred and twenty-three, and to appropriate said moneys therefor, and the moneys so appropriated shall be raised by the issue of bonds of the county of Nassau as by law provided.

The board of supervisors of Nassau county is hereby authorized and empowered to enter into a contract with a competent person or persons or corporation for making of the indices in this section provided to be made; subject, however, to the approval of said contract by the county clerk, the cost and expense thereof shall be paid as other county charges are required by law to be paid.

Upon the completion of the said index books, so directed to be prepared, the said clerk shall cause to be reindexed therein subject to his direction, under the sections, blocks and block numbers shown on the land map of said county, and, so far as practicable, on the same general plan as entries are hereinbefore required to be made in the block indices in the office of said clerk, all conveyances, mortgages and other instruments which were recorded or filed in the office of said clerk, prior to the first day of July, nineteen hundred and twenty-three, except executory

The said county clerk shall, when possible, reindex said instruments and liens in this section mentioned upon the plan of block indexing herein provided for, and under the respective sections and blocks on the said land maps in which the land lies, affected by such liens and instruments. The index books, by this section directed to be prepared, shall be suitably indorsed and designated as block indices of re-indexed liens, the indorsements specifying the kind of liens re-indexed in each index book.

cases.

§ 26. If, in the opinion of such county clerk, it shall, in particular cases, be impracticable by reason of the uncertainty of descriptions or otherwise, or if it shall appear to him, for any reason, not advisable to index or reindex some of the instruments and notices of liens by this act directed to be reindexed upon the plan hereinbefore mentioned with reference thereto, said county clerk may, in his discretion, in such cases, as to such instruments and notices, adopt and carry out another plan of indexing or re-indexing which he shall think best, in order to simplify reference to such instruments and notices, and their use as public records.

§ 27. Should the said county clerk think it expedient so to do, he may cause to be prepared nominal indices in lexicographical form of the parties to the instruments mentioned in this act, or to any of them, and of the owners of land against which liens have been filed and of judgment debtors whose names appear on record. The particular form of such lexicographical indices shall be such as said county clerk shall determine, and shall cover such periods and be brought down to such dates as he shall direct in respect to his own office.

Such index books shall be known and designated as the block index of liens, and shall be ruled for entering therein the names of the lienor and of the owner of the property affected, the amount claimed to be due as shown by the notices, and the date of the satisfaction thereof, and said indices shall be of such other general form as said clerk may determine and each of said books indexed on the block plan shall contain entries relating only to the section of which the number and designation is indorsed in said book, and said indices shall be of such other general form as said county clerk may determine. In cases in which it is not practicable, in the opinion of said county clerk, to index some of the liens in this section mentioned, under said blocks, then the said county clerk may prepare such other form of indices as he shall think best. All such books shall be indorsed with their proper designation, and so as to show the liens to be indexed therein, the section and blocks on the land map of the said county to which they relate, and the periods of time covered by them, respectively.

§ 30. For the purpose of carrying out all the various provisions of this act, the county clerk may employ an expert who shall act as superintendent, and such clerks and assistants and other expert persons as may in his judgment be required in his office, provided, however, that all of the expenses, including printing, stationery and material as may be necessary for the purposes of this act, and for carrying out all the provisions of this act, shall not in any event exceed the amount or amounts authorized by the said board of estimate and apportionment, or otherwise specifically provided for by this act, or other existing law.

plan and system of developing water power on the canal system of this state for the operation of canal structures, with such alterations or additions as may be necessary, to the end that all canal structures, not so supplied and served, may be furnished from such state canal development the electric current and energy that may be necessary for their operation, heating and lighting. In order to effect the purposes of this act, the superintendent of public works is hereby authorized and directed to enter upon, control and utilize such waters of the canal system as may be so utilized and developed without detriment to the canal navigation of the state, and as are not by due authority of law possessed by outside agencies; to develop water power therefrom and to generate and develop from such water power electric current, power and energy for use in the operation, heating and lighting of the locks, bridges and other structures belonging to the state on and along the canals or conveniently adjacent thereto.

§ 2. The superintendent of public works shall determine and select the additional point or points on and along the canal system at which, in his opinion, water power may be developed without detriment to the navigation of the canals; but, before beginning any construction work or taking any action toward the development of water power or electric energy at any point or points, he shall submit the plans and specifications therefor to the water power commission created by chapter five hundred and seventy-nine of the laws of nineteen hundred and twenty-one, for its approval. Such plans and specifications shall show the nature and extent of the proposed development, and estimates of the cost. If such commission shall determine, after a public hearing upon notice, that such plans and specifications are adapted to properly develop the water power at the point or points selected by the superintendent of public works, and that the probable benefits to the state will justify the cost, and not otherwise, it shall approve the same. Such approval shall not be limited as to duration, but may be revoked or modified by act of the legislature, subject to contract rights then existing, if any, entered into pursuant to this act, for the sale of electrical current or energy. The superintendent of public works, notwithstanding any other provision of this act, shall not begin any construction work, acquire any property or take any action toward the development of water power or hydro-electric power at any point or points, other than the making of surveys and the preparation of maps, plans, specifications and estimates, without having obtained such approval. If such approval be granted, the superintendent of public works may proceed with the development of water power in accordance with such plans and specifications and may purchase, lease, construct or otherwise acquire power plants for the development of electric current and energy from such water power and may construct, acquire or lease such tunnels, flumes, conduits, dams, intakes, raceways, power canals or other devices that may be necessary for the flowage, storage and utilization of water for the generation of electric current; and, sub-

ject to the provisions of this act, may construct transmission lines and distributing systems for the transmission and distribution of power, electric current or energy to and from state structures, and may construct any and all buildings, structures, plants, power stations and devices whatsoever required, together with all fixtures, furnishings, machinery, appliances, apparatus and equipment whatsoever appurtenant and necessary to the development of water power and the generation of electric current and energy from the canal waters.

§ 3. Whenever in his judgment the development of water power at any point on the canals so requires, the superintendent of public works in the name and on behalf of the state shall have, possess and exercise the rights and power of acquiring the fee of real estate and rights, interests and easements therein, including riparian rights, water and water rights not specifically exempt from the provisions of this act, and such other property subject to condemnation which he may deem essential or appropriate to the carrying out of the provisions of this act, by the condemnation thereof, under the right and power of eminent domain by proceedings under the condemnation law, provided, however, that property to be taken by condemnation under this section shall not include any water power that is actually owned by outside agencies and has been materially developed and power therefrom is available for sale to the public at the time the condemnation proceeding is begun. Nothing herein contained shall be construed as prohibiting or preventing the acquisition by the superintendent of public works, on behalf of the state, of any water power plant or materially developed water power site under agreement entered into by the superintendent of public works with the owner or owners thereof in the same manner as provided in the next section for the making of agreements with owners of property taken and appropriated for the purposes of this act, but existing permits relative to the use of canal waters shall not be affected by this act but such permits shall continue in force until formally revoked and terminated by the superintendent of public works in accordance with their respective provisions.

Acquisition
of property
and rights.

§ 4. The superintendent of public works shall have authority to enter upon and take possession of any lands, structures or waters, the acquisition of which in his judgment shall be necessary for the purposes of this act.

Authority

take pos-
session of
property;
description,
notice to
owner.

An accurate survey and map and description of such lands, structures or property, or the amount to be taken or acquired shall be made by the state engineer and surveyor on his request. The superintendent of public works shall endorse on such description a certificate stating that the lands, structures, or waters, or property described therein are necessary for and have been acquired by the state pursuant to the provisions of this act. Such description and certificate shall be filed in his office and a copy thereof certified by him shall thereupon be served upon the owner, together with a notice of the filing and the date of filing such description and such certificate in the office of the superintendent

of public works; and from the time of such service, the entry upon and appropriation by the state of the property described in said notice for the use and purposes above specified shall be deemed complete and thereupon such property shall be deemed to be the property of the state. Such notice shall be conclusive evidence of an entry and appropriation by the state, but the service thereof shall raise no presumption that the lands and rights therein mapped or described are private property. A duplicate of such notice and affidavit of due service thereof on such owner shall be recorded in the record of deeds and conveyances in the office of the clerk of any county where any of the property described therein may be situated, and the record of such notice and of such proof of service shall be evidence of the due service thereof. The superintendent of public works, upon the presentation by such owner of verified inventories showing the value of such property, may, subject to the approval of the governor, enter into an agreement with the owner of any lands, water or other property so taken and appropriated, for the value thereof, and as to the amount of any damage resulting from the appropriation for which the state shall be legally liable. If such agreement shall be made, and approved by the governor, the superintendent of public works shall deliver to the owner a certificate stating the amount due to him on account of such appropriation, and a duplicate of such certificate shall be delivered to the comptroller. The amount so agreed upon shall be paid by the treasurer upon the warrant of the comptroller, after title to said property has been certified by the attorney-general of the state, upon an abstract to be furnished by said claimant which shall show a good title to said property so appropriated by the state in said claimant, free from all incumbrances, dower right or liens of any name or character. If the superintendent of public works is unable to agree with the owner upon the value of any property so taken or appropriated, or on the amount of damages resulting therefrom, such owner, within two years after the service upon him of the notice of appropriation, as above specified, may present to the court of claims a claim for the value of such property so appropriated and any damages resulting therefrom for which the state shall be legally liable. The court of claims shall have jurisdiction to hear and determine such claims and make an award thereon. Any final award made upon such claim so filed against the state shall be paid in the manner provided by law, by the comptroller, for the payment of awards made by the courts of claims. When damages are awarded and it appears that there is any lien or incumbrance on the property appropriated, the comptroller may deposit the amount awarded in any bank in which moneys belonging to such fund may be deposited, to the account of such award, to be paid and distributed to the persons entitled to the same as ordered by the supreme court. Whenever any lands or waters or any use thereof is necessary for the carrying out of any improvement or works herein provided for, and the same are in possession of, or being used by, any person or corporation under any privilege hereto-

fore granted by the state, by the canal commissioners, the canal board, the superintendent of public works or otherwise, and which is revocable by the state by revocation, cancellation or annulment of any lease or permit or otherwise, or where said lands or use are so held under a term which has expired, the superintendent of public works shall have power to revoke such privilege on behalf of the state, or the department, board or official issuing the same and to re-enter said lands and no damages shall be awarded against the state on account thereof.

The superintendent of public works also is authorized to appropriate, take possession of, use, improve and control, for the purposes of this act, any of the lands belonging to the state for canal purposes and also any and all lands under the jurisdiction of the commissioners of the land office when said commissioners of the land office shall consent thereto, provided, however, in the latter case he shall make and file with the commissioners of the land office his certificate that such unappropriated state lands are suitable for carrying out the purposes of this act, and, in his judgment, essential to the fulfillment thereof.

Authority to use lands belonging to state.

§ 5. When the necessary site or sites are in the possession of or under the control or jurisdiction of the superintendent of public works, he may build, construct, erect and excavate in, upon, through or under said lands, structures, easements and interests, and maintain and operate any and all suitable piers, dams, canals, channels, conduits and raceways for the conducting, flowing, securing and fall of, storing and utilizing of water for power purposes, and also to build, construct and erect any and all buildings, structures, works, plants and power stations, and to furnish and equip the same with all necessary fixtures, machinery, appliances and apparatus of whatsoever kind necessary for the complete operation thereof, together with the extension, improvement, enlargement or modification of any existing state water power development plant; and also to build, construct and erect any and all transmission lines which he may deem essential or appropriate for the generation, development and utilization of water power, and for the generation, development, storage, utilization, transforming and transmission of electric current and energy therefrom.

General powers of superintendent of public works.

§ 6. The superintendent of public works also shall have power to transform and transmit such electric power and energy on, over, through, along, under or across any lands or premises, streets, avenues, alleys, highways, canals, rivers, water courses, bridges, viaducts, railways and public places, to any state structure or building at which such electric power and energy is proposed to be used or consumed.

Power to transmit electric power.

§ 7. The superintendent of public works is authorized to construct, maintain and operate in conjunction with any line which may be erected or used by him for the transmission of electric current and energy, conduits, cables and wires for the transmission of messages on or along the canal system of the state, together with the necessary cross-arms, fixtures and other necessary

system.

The Norwich water board is hereby authorized and empowered, subject to the provisions and conditions specified in section five of this act, for and in the name of the city of Norwich, to acquire by purchase or condemnation, or to construct, and maintain, control and operate a system of water works to furnish the city of Norwich and its inhabitants with water; and except as herein otherwise provided, may employ engineers, surveyors, superintendents, officers, agents and such other persons as may be necessary for said purposes, and fix their compensation and terms of employment and discharge them at will. The said board may also contract for, purchase and acquire by deed or otherwise in the name of the city of Norwich, all lands, water easements, property tenements, hereditaments, rights, privileges and franchises to any ponds, lakes, springs, streams, and any and all sources of water supply whatsoever; also to any and all dams, reservoirs, mains, pipes, conduits, hydrants, machinery and all other real and personal property whatsoever necessary for the acquisition or construction and for the maintenance, control and operation of said water works, and to contract for the construction of said water works or any part thereof, and for supplying any and all necessary materials therefor. Said Norwich water board is hereby authorized and empowered, subject to the conditions and provisions specified in section five of this act, to acquire by purchase or condemnation, for and in the name of the city of Norwich, the existing water system, and control, maintain and operate the same. Subject to the provisions of section five of this act, the said board may acquire said existing water system by purchase, provided that the price thereof shall be agreed upon between the owners of the property sought to be acquired and the said Norwich water board and shall have been approved by a majority of the taxpayers as hereinafter provided; but upon failure so to agree, the said Norwich water board is authorized and empowered, subject to provisions of section five of this act, to institute proceedings for the condemnation of said existing water system under the condemnation law, and in that manner, subject to the provisions of section five of this act, vest the title of said property in said city of Norwich. The said Norwich water board is further authorized, subject to the provisions of section five of this act, to acquire by purchase or condemnation proceedings any other or further lands, water rights, rights of way, or other property wheresoever situated, which it shall deem necessary in order

to supply water for the purposes of this act, and to contract for such property and to construct such works as in its discretion may be necessary.

§ 4. Chapter seventy-three of the consolidated laws, known as the condemnation law, shall govern and will be applicable in all proceedings taken under this act for the condemnation of property, where the same is not inconsistent with the provisions of this act.

Application of condemnation law.

The commissioners appointed by the court in any condemnation proceeding commenced under this act shall receive such compensation in addition to necessary expenses as may be fixed by the court appointing such commissioners, at the time of their appointment. The entry of the final order or judgment in condemnation proceedings shall not become operative or effective as a lien or otherwise against the city of Norwich until the award therein contained shall have been approved by a majority vote of the resident taxpayers of said city voting at a special election as hereinafter provided. In case of the rejection of the condemnation award by the taxpayers at a special election held as provided in section five of this act, the court shall set aside the report of the condemnation commissioners, and upon the application of the Norwich water board, after the question has been submitted to, and approved by a majority vote of the entire number of votes cast thereon at a taxpayers' election held as provided in section five of this act, shall appoint new commissioners for the purpose of a rehearing. In case of the rejection of any condemnation award on any hearing or rehearing, the defendant shall be entitled to the cost and allowances fixed by the final order.

Compensation of commissioners.

Taxpayers, election to approve condemnation award.

If the award of the commissioners on such rehearing or any subsequent rehearing ordered by any court is rejected by the taxpayers at a special election, the court shall set aside such report and then, and not until then, the Norwich water board is authorized and empowered to submit to a vote of the taxpayers, as provided in this act, a proposition to construct a new water works system.

Submission of proposition to construct new system.

§ 5. The Norwich water board shall have power and authority to purchase the existing water system at an agreed or stated price therefor; or to condemn the same or to build, construct and operate new water works; and to control, maintain and operate any plant purchased, acquired or constructed; but no condemnation proceeding shall be instituted, nor shall any application of the Norwich water board for the appointment of commissioners in a second or subsequent condemnation proceeding be made, nor shall the purchase, condemnation award, or determination to build and construct a water works system, be or become effective, nor shall bonds for the payment therefor be issued as in this act provided, until the said proposition shall have been adopted by receiving in favor thereof a majority vote of the entire number of votes cast thereon at a taxpayers' election held in and for said city of Norwich in accordance with the provisions of the

The common council of the city of Norwich shall, at its next regular meeting after the receipt from the Norwich water board of a certified copy of any such proposition, submit to the resident taxpayers of said city of Norwich at a special election to be held in and for said city within sixty days thereafter any such proposition which may be duly certified by the Norwich water board to the common council of said city. The common council of said city shall, at or before its next regular meeting after such election, canvass the returns of the vote on such proposition so submitted, and declare the results thereof, and certify the said result to the Norwich water board. Any and all such special elections are hereby authorized and directed to be held in and for said city of Norwich, the cost and expense thereof to be charged against said city, including the cost of submission of any question or proposition thereof. Every proposition submitted to the taxpayers under the provisions of this act shall include a statement of the maximum amount to be raised therefor, including all necessary expenses of carrying such proposition into effect. In case of the rejection by the taxpayers, at a special election held, as provided in this section, of any proposition so submitted, the Norwich water board may within one year thereafter submit to the taxpayers in the same manner as hereinbefore provided such other proposition as in the judgment of said Norwich water board it may be advisable to submit. The construction of a new water system shall not be submitted to the taxpayers as provided in this act, until after the question of the purchase of the existing water system at the agreed price, and the question of the acquisition of the existing water system on the condemnation award, shall each respectively have been submitted to and rejected by the majority vote of the entire number of votes cast thereon at a taxpayers' election held in and for said city of Norwich in accordance with the provisions of the charter of said city governing taxpayers' elections.

§ 6. Whenever the Norwich water board shall determine and decide to purchase, condemn or build a water works system to be owned by said city of Norwich, and a proposition therefor has been carried and adopted by the taxpayers of said city as provided in the last preceding section, it shall certify to the common council of the city the estimated amount so needed, not exceeding, however, the total amounts so stated in the proposition adopted by the taxpayers at the special election held as aforesaid, and the purpose or purposes for which required; whereupon it shall be the duty of the common council of the city of Norwich by a resolution to cause bonds for the amount so certified to be issued in the name and upon the credit of the city of Norwich, which shall be executed by the mayor and city chamberlain and countersigned by the city clerk, and attested by the seal of the city. The faith and credit of the city of Norwich are hereby pledged for the payment of both principal and interest of any bonds issued under and pursuant to the provisions of this act. Said bonds

shall be issued in such form and in such denominations or amounts as the common council may deem expedient, but not less than one hundred dollars each, with interest not exceeding six percentum per annum, payable semi-annually; both principal and interest to be made payable at the office of the city chamberlain or at any bank or trust company to be designated by the common council and to be specified in each bond and coupon. Said bonds shall be so classified and issued, in accordance with the constitution of the state of New York; that said bonds shall mature in not to exceed twenty years of the date of issue thereof; and for said issue of bonds a sinking fund shall be created on the issue of said bonds, and for their redemption by raising annually a sum which will produce an amount equal to the sum of the principal and interest of said bonds at maturity. No bonds issued under this act shall be sold at less than par and accrued interest and must be sold to the highest bidder and in the same manner provided by the charter of the city of Norwich. The proceeds of said bonds, or any of them, as soon as received, shall be paid over to the treasurer of said Norwich water board and credited to a fund which shall be known as the "water bond account" and said treasurer shall immediately upon receipt of the same deposit such proceeds in such bank, banks or trust company as shall be designated by resolution of the Norwich water board, and paid out at such times and in such manner as city expenditures are made. The Norwich water board may, however, at any time, by resolution and order issued in the manner aforesaid, transfer any funds from any bank, banks or trust company to any other bank, banks or trust company. The funds so transferred and all interest accruing thereon shall be held and paid out by such bank, banks or trust company only in the manner above provided. If, after the issue of the bonds hereinbefore provided for, it shall appear to said Norwich water board that a larger amount than the amount hereinbefore provided for is needed in order to acquire an adequate and safe supply of water, and in order to acquire and own a water works system by purchase, condemnation or construction, or the extension thereof, said Norwich water board shall from time to time certify to the common council of the city the estimated additional amounts so needed. In such case it shall be the duty of the common council to issue a second and further issue of bonds, provided such subsequent issue has been ratified and approved at a taxpayers' election called and held in the same manner in which the original issue was authorized; and such subsequent issue of bonds and the proceeds thereof shall be subject to all the provisions of this act relating to the first issue of bonds therein authorized.

The Norwich water board, except as herein otherwise provided, shall have power to make all contracts necessary or incidental to the execution of the powers conferred by this act, but no contract or agreement for labor or materials, or either of them, requiring an expenditure of more than five hundred dollars shall be entered into except in case of absolute necessity, or except for the employment of officers, agents, engineers, counsel and other employees of the board and except as herein otherwise directed, without first advertising at least once a week for two successive weeks in two newspapers published in the city of Norwich and such other papers and periodicals as said board may direct, for proposals to enter into contract for the work or materials required. All such contracts shall be let to the lowest responsible bidder, who shall furnish such security for the faithful performance of the contract as shall be approved by the board; but the board may, as many times as it shall determine, reject any or all of such bids in its discretion and readvertise for proposals. Each proposal received shall be publicly opened in the presence of the board, and each proposal received and each contract entered into by the board, or the copies thereof, shall be filed with the clerk of said board, and each bid must be accompanied with such security as said board shall prescribe. In the event that the Norwich water board rejects all of such bids, it may, if it believes that the work can be done more economically by the Norwich water board, determine, in its discretion, to cause the work to be done under its direction and that of the Norwich water board employees charged with such duty.

except from
bond issues.

§ 11. The amount derived from receipts from all sources except bond issues shall be applied:

1. To the payment of the necessary cost of maintaining, managing and operating the said system of water works.

2. To provide a sinking fund for the payment of the principal and interest on the bonds issued under the provisions of section seven of this act and for which a sinking fund is required to be created. Said sinking fund shall be managed by the board of water commissioners and shall be invested in the same kind of securities as those in which savings banks of this state are by law authorized to invest the money deposited therein.

3. To the payment of the interest falling due upon all other bonds issued under the provisions of this act.

4. To the payment of the cost of necessary extensions and additions.

After all such obligations shall have been paid and discharged, if there shall remain any surplus of income, it shall be applied to the purchase or payment of the bonds issued pursuant to the provisions of this act, which are not payable from the sinking fund. Any bonds so purchased or paid shall be marked canceled by the Norwich water board, and shall be delivered to the city chamberlain. In any year in which said income shall be insufficient for the purposes of maintaining and operating the said system of water works, and for the payment of the interest falling due on said bonds, and providing a sinking fund, the common council of the city of Norwich shall make due provisions by tax for the payment of the deficiency which shall be raised in any year in addition to the aggregate limit as specified and provided by the charter of the city of Norwich and such deficiency shall be assessed, levied and raised in the same manner as other general taxes of said city, and the Norwich water board shall annually certify to the common council of said city on or before the last regular meeting of the common council held in September in each year, the amount to be so raised.

Tax to pay

§ 12. After the city of Norwich shall in any manner become the owner of its water works system, and any extensions thereof are deemed necessary by the Norwich water board, and no funds are available for such necessary extensions from the income, receipts or earnings of said water works or from any other source herein provided, the Norwich water board may thereupon certify such facts to the common council of the said city together with a description of such proposed extension and a statement of the amount needed therefor, and if the common council concur therein, said common council shall raise the same by taxation in the next succeeding annual tax levy in addition to the items and aggregate specified in section three hundred and thirty-three of title fourteen of chapter thirty-four of the laws of nineteen hundred and fourteen up to an amount not exceeding one thousand dollars in any one year; or if the requisite amount exceeds said sum of one thousand dollars, the common council shall submit the proposition to a taxpayers' election as provided herein and after approval may issue bonds for the amount so approved, which bonds shall be issued in the name and on the credit of the city of Norwich. § 13. Whenever the Norwich water board shall determine to purchase, condemn or construct a water works system to be owned by said city, and whenever the common council of said city has, pursuant to the provisions of this act, authority to issue any bonds, said common council may, instead of issuing bonds in the first instance, borrow temporarily from time to time such sum or sums as may be necessary, and authorize the mayor and clerk of said city to borrow the same temporarily and issue certificates of indebtedness therefor which shall be a valid indebtedness against said city, until bonds shall be issued by the common council of said city under and pursuant to the provisions of this act, to replace and take up such certificates of indebtedness and such sums so borrowed and interest thereon, provided, however, that no such temporary loan shall be made or perfected for a period longer than two years.

Such rents shall be a lien on the real property on which the water is used. All moneys and incomes which shall be received by the board for water or on account of said system of water works shall be deposited to the credit of a fund to be known as "water fund account" in the bank, banks or trust companies designated as city depositories by the common council and shall be paid out in the same manner as provided in section six of this act for paying out the proceeds of the water bond account. Said commissioners, their representatives and employees are authorized at all times to enter into any building or place where water is used from supply pipes to examine as to the pipes, water, quantity of water used, and manner of using it. Said board may sell to any corporation or individual outside of the city the right to make connections with the mains for the purpose of using water therefrom and fix the price and conditions therefor, but said water board shall not permit such

The said common council may aid such enforcement by ordinance. The said water board may prosecute in its own name for all violations of said rules, regulations and ordinances.

By-laws, rules and regulations in relation to water works.

§ 16. The moneys derived from the penalties and water rates provided by this act shall be paid to the treasurer of said water board, and shall by him be immediately deposited to the credit of the water fund account in the bank, banks or trust companies designated by the common council and shall be applied as provided in this act.

§ 17. No obligation shall be incurred or money expended, or issue of bonds certified under this act by the Norwich water board, except by resolution duly passed by the concurring vote of at least four members of the board. § 18. All judgments against said commissioners in their name of office, and judgments against them where the transaction upon which the action was brought shall have been in the performance of their duties as commissioners, shall be deemed judgments against said city and shall not be enforced against the individual property of any of the said commissioners.

Judgments against commissioners.

§ 19. The Norwich water board shall keep books, showing the cost of the acquisition, construction and maintenance of said water works and of extending the same, and all its collections, receipts, expenditures, proceedings or doings, and shall make a report thereof to the said council at the first regular meeting of said council in the month of January in each year, and as often as the common council may require; and shall furnish at all times such other or further information as to the business and affairs of the board as may be required by the common council.

§ 22. The Norwich water board is hereby authorized and empowered to incur all necessary expenses not exceeding the amount hereinafter specified in investigating the value of the water works system and property, now or hereafter owned or possessed by any existing corporation or company organized to supply the city of Norwich and its inhabitants with water or having or claiming any right so to do; including its system, franchises, sources of supply, utility, profits, income and value. Said Norwich water board is also authorized and empowered to incur all necessary expenses not exceeding the amount hereinafter specified in investigating the cost of condemnation of said water works system, and the cost and expense of constructing a new water works system, and of investigating sources of water supply. Render annually to the board of supervisors, a verified account of all moneys received and expended by them, or under their direction, and of all their proceedings in such manner and form as may be required by the board; if required by the board of supervisors more frequent reports must be given covering fractional parts of a year.

f. Submit annually to the proper fiscal authorities of the county an estimate of the funds required to carry out the purposes of this article; such estimate shall be furnished before the annual meeting of the board of supervisors for appropriating moneys and levying taxes.

g. Be subject to the supervision, inspection and visitation of the state board of charities, and make such reports as the state board of charities may require. Any person who has knowledge that relief is being granted in violation of the requirements of this article, may file a verified complaint, in writing, with the state board of charities, setting forth the particulars of such viola-

tion, and said state board of charities shall have power, after proper investigation, to make such orders as it may deem just and equitable and such order shall be complied with by the board.

The state board of charities may visit children for whose care and protection the board is responsible, and may order the return of children to the board if found to be unsuitably cared for.

h. Each allowance or grant of relief shall be made by the affirmative vote of at least three members of the board present at any meeting, and may be increased, diminished or totally withdrawn in the discretion of the board.

j. An application for allowance or grant of relief may be made directly to the board or to any member.

k. A full and complete record shall be kept in every case coming either directly or indirectly within the jurisdiction of the board; such record to be available to the proper authorities of county interested therein.

2. Power and duties. The board may

a. Grant an allowance to any dependent widow or to any mother whose husband is an inmate of a state institution for the insane or confined under a sentence of two years or more of actual confinement in a state prison, or to any mother whose husband is totally incapacitated by physical disability or ailment. No such allowance shall be made to any person unless the board of child welfare deems such person to be a proper person mentally, morally and physically to care for and bring up the child or children for whose benefit such allowance is made. No such allowance shall be made to any person unless such person shall have been for at least one year prior to application therefor a resident of the county wherein she applies for an allowance and is either a citizen of the United States or the mother of a child or children born in the United States whose father has been a resident of the state for at least two years and has declared his intention to become a citizen of the United States within a period of five years immediately preceding his decease or commitment.

An allowance made by the board shall not be for a longer continuous period than six months without renewal, which allowance may be continued from time to time at the same or different amounts, for similar periods or less, either successively or intermittently or may be revoked at the pleasure of the local board of child welfare.

Before granting an allowance the board shall not only determine that the mother is a suitable person to bring up her own children and that aid is necessary to enable her to do so, but further that if such aid is not granted the child or children must be cared for in an institutional home.

Such an allowance or allowances shall not exceed the amount or amounts which it would be necessary to pay to an institutional home for the care of such child or children.

* So in original. [No paragraph "i".]

b. Receive as public charges upon the county, city or town all dependent children who require and are legally entitled to public support in said county, city or town outside their own homes.

c. Receive as public charges upon the county any children committed to it by a court or magistrate of competent jurisdiction.

d. Provide for the mental or physical examination and, if required, the necessary medical or surgical care of any child who may come under the care or supervision of the board and whom the board has reason to suspect of mental or physical defect or disease, such examination to be made by physicians or and surgeons designated by the board.

e. Place children received as public charges in a home or an institution of the same religious faith as that of the child, when practicable, either directly or through a duly authorized association, agency, society or institution.

The provision herein as to the religious faith of the child shall be interpreted literally, so that in the care, custody, protection and religious welfare of the child his religious faith shall be preserved and protected by the board.

f. Ascertain the financial ability of the parents or custodians of the children who become public charges and collect toward the expense of such children's care such sum as the parent or custodian are able to pay.

g. Collect from parent or custodian whose children have been committed to the board by any court or magistrate such sums as they are ordered by such court or magistrate to pay for the maintenance of such children. The board shall also report wilful failure to comply with such order to said court or magistrate for action against such parent or custodian.

h. Upon receipt of an application for relief or an allowance immediately notify the supervisor of the town or the commissioner of charities, welfare or other like officer in the city, where the applicant for allowance or subject of relief is stated to reside.

i. Enter into contracts with duly authorized associations, agencies, societies or and institutions to receive and care for children entrusted to them by the board.

j. All the powers and duties of the superintendent of the poor and the overseers of the poor and of the commissioners of charities, welfare, and all other officers exercising like functions in relation to dependent children, are hereby vested solely in the board. As soon as the said board shall officially inform the county superintendent of the poor, the overseers of the poor, and the city commissioners of charities, welfare, and all other officers exercising like functions that it is organized and prepared to carry out its duties as herein prescribed, all such officers and departments shall thereupon deliver to said board all the records of the children under their care.

3. General. (a) Upon public announcement by the board that it has begun to exercise the authority and duties vested in it by this article, all children then in an institution other than a public controlled one, or and all children in a home through commitment

or placement by any poor law official, court or magistrate shall, ipso facto, come under the jurisdiction of this board, and have the status of children committed by the board to such respective institution or home. And no such child or any child subject to the provisions of this article and who is in a home or an institution shall be discharged, transferred or changed therefrom by any association, agency, society or institution having to do with children in this state, whether or not such association, agency, society or institution is approved and now visited, inspected and supervised by the state board of charities, except upon notice to and order of the board.

(b) Commitment of a child other than to a public controlled institution, or the placement of a child in custody other than its parents, must be made to a duly authorized association, agency, society, institution, or in a home, or with a person, of the same religious faith as that of the child, when practicable.

This provision as to religious faith shall be interpreted literally so that in the custody, care and protection of the child, his religious faith shall be preserved and protected by the board.

An association, agency, society or institution authorized and empowered to act herein shall be "a duly authorized association, agency, society or any institution" as defined in this article.

The home in which a child is placed by the board shall be subject to visitation, inspection and supervision as the state board of charities may provide.

No person shall place or accept for placement any child except upon notice and order of the board of the county or city wherein the child is then domiciled.

No corporation, association, agency, society or institution unless duly authorized, as defined in this article, shall place or accept for placement any child, except upon notice and order of the board of the county or city wherein the child is then domiciled.

The power and authority given to corporations, associations, agencies, societies and institutions under general laws and to corporations, associations, agencies, societies and institutions in special charters shall not be abrogated or nullified, except as provided in this article.

(c) Every person, corporation, association, agency, society or institution who shall release or place out a child within or without this state shall keep and preserve a record of the full name, and the actual or apparent age of such child, the names and actual residence of its parents or lawful custodians so far as known and the name and address of the person, corporation, association, agency, society or institution with whom such child is released or placed. If such person, corporation, association, agency, society, or institution shall subsequently remove such child from the custody of the person, corporation, association, agency, society or institution with whom it was released or placed, the fact of such removal and the disposition made of such child shall be entered upon such record. A duplicate copy of the record in the first instance and the subsequent removal or removals of such child

shall be filed within ten days therefrom, with the state board of charities. Failure to comply with this section shall be a misdemeanor.

§ 158. (1) **Appropriations and limitations for purposes of article.** The board of supervisors of a county, to which this article is applicable, shall annually appropriate and make available for the board of child welfare and include in the tax levy of such county such a sum as, in their discretion and judgment, may be needed to carry out the provisions of this article, but should the sum so appropriated be expended or become exhausted, during the year and for the purposes for which it was appropriated, by reason of extraordinary and unanticipated emergencies or conditions, additional sums may be appropriated by such boards as occasion demands to carry out the provisions of this article, which, in counties, such additional appropriations shall be paid from funds in the county treasury, but, should there be no such funds available therefor, the county treasurer shall borrow a sufficient sum to pay such appropriations in anticipation of taxes to be collected therefor; it is further provided that no board of child welfare shall expend or contract to expend under the provisions of this article or otherwise, any public moneys not specifically appropriated as herein provided; the board of supervisors of any county may determine, as provided in section one hundred and thirty-eight of the poor law, whether or not the actual expense for the relief of widowed mothers and their children and of dependent children under this article shall be a charge upon the county or upon the respective city or and towns thereof. Each such board of child welfare shall, from time to time, audit and cause to be paid all expenses for administration and the wages and salaries of its employees from moneys appropriated for the purpose.

(2) **Penalties.** A person who shall procure or attempt to procure, directly or indirectly, any allowance for relief or other benefit under this article, for or on account of a person not entitled thereto, or member, officer or employee of the board, or shall knowingly or willfully pay or permit to be paid any allowance or other benefit to a person not entitled thereto, shall be guilty of a misdemeanor.

§ 159. **Appeals.** Any person aggrieved by any order of the board under the provisions of this article, may, within twenty days after the date and entry of such order appeal from any order of the board to the supreme court in the county, in which the "board" is located. Such appeal may be heard by a justice at chambers or at special term.

Upon such appeal the justice shall make such order of notice to those interested as he shall deem necessary. Copies of such notices shall be served upon such persons, associations, corporations, agencies, societies or and institutions as the court may direct and upon the board of child welfare.

§ 159-a. **Effect of decision as to validity of article.** If any provision of this article be held unconstitutional or otherwise in-

valid, such holding shall be deemed in no wise to affect the validity or impair any provision of article seven-a of this chapter.

§ 2. All existing boards of child welfare including those established by special acts in the counties of Dutchess and Suffolk are hereby continued. Existing boards continued.

§ 3. This act shall take effect on the first day of September, nineteen hundred and twenty-two. In effect Sept. 1, 1922.

of law; (g) who habitually uses obscene or profane language; or (h) who so deports himself as to wilfully injure the morals or health of himself or others.

3. "Juvenile delinquency" is the commitment by a child under the age of sixteen years of any of the offenses enumerated in the foregoing definition of a delinquent child.

4. The words "neglected child" shall mean a child under sixteen years of age (a) who is without proper guardianship; (b) who is abandoned; (c) whose parents, guardian or person with whom the child lives, by reason of cruelty, mental incapacity, immorality or depravity is unfit to properly care for such child; (d) who is under unlawful or improper supervision, care, custody or restraint by any person; (e) who wanders about without lawful occupation or restraint; (f) whose parents, guardian or custodian neglect and refuse, when able to do so, to provide necessary medical, surgical, institutional or hospital care for such child; (g) who engages in any occupation for engaging in which an adult may be punished by law or is found in any place for permitting which an adult may be punished by law; (h) who is in such condition of want or suffering or is under such improper guardianship or control as to injure the morals, or and health of himself or others.

5. 9. The words "a home" shall include a family boarding home and or a family free home.

§ 3. **Establishment of children's courts.** A children's court is hereby established in each county of the state, except as limited by section one of this act.

§ 4. **Judge.** In every county except those to which the provisions of this act are specifically made not applicable, the electors

of the county shall, at the next general election following the taking effect of this act, choose a judge of the children's court of such county who shall serve for such term and be paid such salary and whose successor or and successors shall be chosen in the same manner as the law provides for a county judge; provided, however, that where it shall appear from a certificate filed with the secretary of state by the county judge, or judges, or by a majority of them and the board of supervisors of such county on or before the first day of August preceding such election that the judicial business of such county will not in their opinion justify the election of a judge of the children's court and that the county judge or judges or special county judge of such county already in office can adequately perform the duties of judge of the children's court in addition to the duties already imposed by law, no such election shall be held in such county, and in such case the county judge or judges or such special county judge shall perform the additional duties herein conferred.

In counties where a judge of the children's court is not elected and where the county judge sits as judge of said court, such county judge shall, in consideration of the additional duties herein imposed upon him, be paid by the county, compensation in addition to his regular salary, as follows: in counties having, according to the last federal or state census or enumeration, fifty thousand inhabitants or less, five hundred dollars; having more than fifty thousand and not more than one hundred thousand inhabitants, seven hundred and fifty dollars; having more than one hundred thousand and not more than one hundred and fifty thousand inhabitants, one thousand dollars; having more than one hundred and fifty thousand inhabitants, one thousand five hundred dollars.

If there be more than one county judge in any county in which no judge of the children's court is to be elected, as above provided, such judges may, by vote or agreement, designate or assign one of their number to be the judge of the children's court, and such designation or assignment shall be for the full term, or remainder of term, for which he was elected or appointed. Whenever a judge is thus assigned two certificates of such assignment shall be issued by the judges making the same, one of which shall be given to the judge thus designated or assigned, and the other shall be filed with the county clerk. Any judge so designated or assigned may, upon filing a formal request with his colleagues, be relieved of such assignment. In the absence or disability of the judge of the children's court, a county judge may preside or act in his stead, and in case of the inability of the latter to act, the surrogate, if there be one in such county, may serve temporarily as judge of the said court.

§ 5. **Jurisdiction.** 1. Children. The children's court in each county shall have within such county exclusive original jurisdiction of all cases or proceedings involving the hearing, trial, parole, remand or commitment of children actually or apparently under the age of sixteen years for any violation of law, and in all cases involving juvenile delinquency; children who are material wit-

nesses, as provided by law; children who are mental defectives, as provided by law; improper guardianship, or neglected children, as provided herein. Subject to the limitations herein provided, the court also shall have jurisdiction in proceedings to determine the question of the rightful custody of children whose custody is subject to controversy, as related to their immediate care.

The "court" shall have like jurisdiction and authority as is now conferred on "county courts" as concerns "adoption" or and "guardianship."

2. Adults. Whenever the welfare of a child is involved, the children's court in each county shall have within such county exclusive original jurisdiction, subject to the jurisdiction of a court of record in a civil action or proceeding, to inquire into, hear and determine the liability of any person who abuses, neglects or wilfully fails to provide for the proper maintenance of a wife or and child; of any person charged with abandonment or non-support of a wife or and child; of any parent of any child committed pursuant to any provision of law, or of any other person required by law to support or maintain such a child.

And the court may take evidence in any such hearing or proceeding and may render judgment thereon. If judgment be rendered affirming such liability, the court may examine into the ability of any such person or persons adjudged liable to pay for the maintenance, in whole or in part, of such wife or child, and if satisfied that such person is able to contribute toward their support, may, by order, require of any such person the weekly payment toward their maintenance or support of such sum of money and in such manner as the court shall deem fair and equitable. If the sum paid shall be for the maintenance of a child committed by the court, it must be credited to the agency, association, society, or and institution, or to the city, town or county or state maintaining the child.

a. Any violation of any order made pursuant to the provisions of this section (five) shall be punishable as a misdemeanor as provided by law, but the court may, in its discretion, proceed with and adjudicate upon it as a contempt of court.

b. Proceedings under this subdivision may be instituted by a duly authorized agency, association, society or and institution or and by an interested party or on the court's own motion, and a reasonable opportunity to appear shall be afforded the respondent; and to secure or to compel the attendance of any necessary person the court may issue a summons or in a proper case a warrant or other process. The proceeding shall, however, be in the nature of a civil proceeding and shall not require a judgment of "disorderly person" to authorize the making of an order; and such order when made shall be enforceable and subject to execution in all respects as provided by title eight of part six of the code of criminal procedure respecting the support of poor persons.

3. The court shall have exclusive original jurisdiction in the hearing and determination of bastardy cases, without associating an additional judge or justice, and shall have jurisdiction to

issue a warrant and make or withhold an order of filiation authorized by law in such proceedings or make any other or further order pertaining thereto as provided by law.

4. Except as herein otherwise provided, the court shall have original jurisdiction to hear, try and determine all cases less than the grade of felony, which may arise against any parent or other adult responsible for or who contributes to the delinquency of or neglects any child; or who is charged with any act or omission in respect to any child, which act or omission is a violation of any state law or municipal ordinance.

5. The court shall also have exclusive original jurisdiction in all cases against persons charged with a failure to obey any order of the court made in pursuance of the provisions of this section.

6. The court shall have power to punish, in the manner and subject to the limitations prescribed by article nineteen of the judiciary law, any person guilty of a criminal contempt.

The jurisdiction herein given to children's courts shall in no wise be deemed to include any matter or proceeding involving alone the religious faith of a child, other than as herein provided, or matters or proceedings having to do with separation or and divorce or any matter or proceeding involving the property rights of children or and adults over and in which the surrogate or and supreme courts have jurisdiction; nor shall it impair the jurisdiction conferred on the supreme court, relating to mental deficiency.

ARTICLE II.

PRELIMINARY PROCEDURE.

Section 10. Petition.

11. Issuance of summons.
12. Service of summons.
13. Arrest; transfer from other courts.
14. Procedure.

§ 10. **Petition.** The parent or custodian of any child, a child welfare board or any public official charged by law with the care of the poor, or and a duly authorized agency, association, society or and institution or and any interested person having knowledge or information that a child is without proper guardianship or is a neglected or a delinquent child or otherwise within the jurisdiction of the court may institute a proceeding by filing with the court a petition verified by affidavit, stating such facts as bring the child within the jurisdiction of the court, and praying the court for action in conformity with the provisions of this act. The title of the proceeding shall be "Children's Court, County of, in the matter of, a child under sixteen years of age." The petition shall include the name and residence of the child and of the parents, if known to the petitioner, or the name and residence of the person having the guardianship, custody, control or supervision of such child, if the same be known to the petitioner, or shall set forth that they are unknown if that be the fact.

§ 11. **Issuance of summons.** Upon the filing of a petition the judge may, either forthwith or after investigation, cause a summons, signed by him or by the clerk of said court, to be issued, requiring the child and the parent or parents, custodian or other persons having control of the child, to appear in court at a time and place named, to show cause why such child should not be dealt with according to the provisions of this act. Whenever it shall appear to the judge that an order addressed to an adult is necessary for the welfare of such child, similar summons shall be issued and served upon such adult if he is not already in court.

§ 12. **Service of summons.** Service of summons shall be made by the delivery of a true and attested copy thereof to the person summoned. If after reasonable effort personal service shall not have been made, such substituted service, by publication or otherwise, as the judge may order, shall be sufficient. Service of said summons must be made at least twenty-four hours before the time stated thereon for such appearance, but the judge, if requested by a parent, or in case there is no parent, by the person having the custody of the child, shall not proceed with the hearing earlier than three days after the service.

If the person cited as herein provided shall fail without reasonable cause to appear and abide the order of the court, he may be proceeded against as for contempt of court. In case the summons cannot be served or the parties served fail to obey the same, and in any case when it shall be made to appear to the judge that such summons will be ineffectual, or that the welfare of the child requires that the parent, custodian or the child shall be brought forthwith into the custody of the court, a warrant may be issued on the order of the court either against the parent or other person having custody of the child, or with whom the child may be. The sheriff or other lawful officer of the county shall serve all papers or and warrants, as directed by the judge. The expense incurred in serving any papers shall be a county charge.

§ 13. **Arrest; transfer from other courts.** Nothing in this act shall be construed as forbidding the taking into custody with or without a warrant of any child as now or hereafter may be provided by law; or as forbidding the issuing of warrants as provided by law. Whenever a child less than sixteen years of age is brought before any magistrate in the county such magistrate shall transfer the case to the juvenile court, and direct that the child be forthwith delivered to said court. All papers and processes relating to the case in the hands of such magistrate shall be forthwith transmitted to the court and shall become part of its records. The court shall thereupon proceed to hear and dispose of such cases in the same manner as if the proceedings had been instituted in the court upon petition as hereinabove provided. Between the time of the arrest of such child and its appearance before the court, such child shall, if not released, be detained subject to the orders of the court as hereinafter provided.

§ 14. **Procedure.** Where the method of procedure in a case or proceeding in which the court has jurisdiction is not provided in

this act, such procedure shall be the same as provided by law, or and by rules formally adopted by the court within the scope of this act.

ARTICLE III.

HEARINGS; ADJUDICATIONS.

Section 20. Custody of child; release.

21. Place of detention.
22. Hearing; judgment.
23. Mental and physical examinations; treatment.
24. Modification, setting aside or vacating of judgment.
25. Religion of custodial persons and agencies.
26. Placements; commitments; records.
27. Power and jurisdiction of other courts.

§ 20. **Custody of child; release.** If it appears from the petition that the interest of justice requires the immediate apprehension of the child, the judge may endorse or cause to be endorsed upon the summons an order that the officer serving the same shall at once take such child into custody or he may issue a warrant as provided by law.

In the case of any child who has been taken into custody, the court may discharge such child in accordance with law, or pending the final disposition of any case, such child may be released on bail or in the custody of a parent, the guardian or other person or a duly authorized agency, association, society or and institution having it in charge or may be placed in the custody of a probation officer or a duly authorized agency, association, society or and institution or other person appointed or designated by the judge, to be brought before the court at the time specified. When not released as herein provided, such child, pending the hearing of the case, shall be detained in such place of detention as is hereinafter provided.

§ 21. **Place of detention.** No child coming within the provisions of this act shall be placed in or committed to any prison, jail, lock-up, or other place where such child can come in contact at any time or in any manner with any adult convicted of crime or under arrest and charged with crime. Unless the county shall have provided suitable and permanent accommodations for the detention of children held for hearing or as a witness, the court or the judge, for the purpose of this act, may arrange for the board of such children temporarily in a private home or in the custody of some fit person, subject to the supervision of the court, or the court or judge may arrange by order with any one or more "duly authorized associations, agencies, societies or institutions" maintaining a suitable place of detention for children in said county to provide temporary care in such place of detention for any child detained.

A reasonable sum shall be appropriated by the board of supervisors of the county for the care of such children, so detained by the court.

§ 22. Hearing; judgment. Upon the return of the summons or other process or after any child has been taken into custody, and at the time set for the hearing, the court shall proceed to hear and determine the case in a summary manner. The court may adjourn the hearing from time to time and inquire into the habits, surroundings, conditions and tendencies of the child. At any stage of the proceedings the judge may, in his discretion, appoint any suitable person to be the guardian ad litem of the child for the purposes of the proceeding.

The court, if satisfied by competent evidence, may adjudicate the child to be delinquent, neglected or without proper guardianship, and render judgment, complying with the provisions herein as to the religious faith of the child as follows:

(a) Suspend sentence.

(b) Parole or and place the child on probation to remain in his own home or in the custody of a relative or a duly authorized agency, association, society or and institution, or and other fit person, subject to the supervision of the probation officer and the further orders of the court; or

(c) Commit the child to the care and custody of a suitable institution maintained by the state or any subdivision thereof, or and to the care and custody of a duly authorized association, agency, society or institution.

(d) Continue the case and place the child in its own home or in the custody of a relative or a "duly authorized association, agency, society or institution," for a certain designated period under order of the court;

(e) Discharge the child to the custody of the superintendent of the poor, child welfare board, or to such other officer, board or department as may be authorized to receive children as public charges, who shall provide for such child as in the case of a destitute child or as otherwise authorized by law; or

(f) Render such other and further judgment or make such other order or commitment as the court may be authorized by law to make.

§ 23. Mental and physical examinations; treatment. The court in its discretion, either before or after a hearing, may cause any child within its jurisdiction to be examined by a physician or psychologist appointed or designated for the purpose by the court. If it shall appear to the court that any child within its jurisdiction is mentally defective, he may cause such child to be examined as provided in the mental deficiency law and if found to be a mental defective as therein defined, he may commit such child in accordance with the provisions of said law. Whenever a child within the jurisdiction of the court and under the provisions of this act appears to the court to be in need of medical or surgical care a suitable order may be made for the treatment of such child in its home, a hospital or other suitable institution, and the expenses thereof, when approved by the court and duly audited, shall be a charge upon the state, the county or the proper subdivision thereof; but the court may adjudge that the person or per-

sons charged with the liability under the laws to support such child shall pay a part or all of the expenses of such treatment as provided in section forty of this act.

§ 24. **Modification, setting aside or vacating of judgment.** Any order or judgment made by the court in the case of any child committed, by virtue of any proceeding other than that of juvenile delinquency, may be vacated and set aside or modified, as provided by law. Any parent, guardian, or and a duly authorized agency, association, society or and institution, or and the next friend of any child who has been or shall hereafter be committed by the court to the custody of an institution, corporation, board, association, society or person, may at any time file with the court a petition verified by affidavit setting forth under what conditions such child is living, and that the application for the release of the child has been made to and denied by such institution, corporation, agency, association, society or person, or that such institution, corporation, agency, association, society or person has failed to act upon such application within a reasonable time. A copy of such petition shall at once be served upon such institution, corporation, association, agency, society or person, or and upon the superintendent of the poor, or such other officer, board or department having the custody of the child whose duty it shall be to file a reply to the same within five days. If, upon examination of the petition and reply, the court is of the opinion that a hearing should be had, it may, upon reasonable and due notice to all concerned, proceed to hear the facts and determine the question at issue, and may return such child to the custody of its parents or guardian or direct such institution, corporation, association, agency, society or person to make such other arrangements for the child's care and welfare as the facts of the case may require.

In any juvenile delinquency proceeding, the court may stay execution, set aside or arrest judgment, or grant a new trial or hearing, on any of the grounds authorizing any court of criminal jurisdiction so to do; provided, that this court may, in the exercise of its powers of protection over the child, make such an order regardless of whether a motion therefor was made before or after final judgment or commitment. The court may entertain an application to that effect by a duly authorized agency, association, society or and institution, or and by any interested person acting on behalf of the child, or may act on its own motion on giving proper notice to interested parties or to any agency, association, society or and institution having custody of the child.

The court may at any time during the progress of a proceeding arising under any provision of this act vacate any commitment previously made where it can be shown to the satisfaction of the court that a mistake of fact was made in adjudicating the child's religion; or may on its own motion or on application, after giving reasonable notice to interested parties and to the agency, association, society or and institution having custody of the child, proceed with judgment, consistent with the religion of the child, as if such erroneous commitment had not been made or make such other or further order as may to the court seem just.

The judge of said court shall have the power officially to visit any institution to which a child may be remanded or committed by the children's court of his county.

§ 25. **Religion of custodial persons and agencies.** Commitment of a child to an authorized agency, association, society or and institution, other than an institution supported and controlled by the state or a subdivision thereof, or the placement of a child in a family, a home or in the custody of a person other than that of its parents, or and guardianship given, or and adoption out, must be made to, or and with a person, persons, a family, a home, or and to or by, or through, a "duly authorized association, agency, society, or and institution," of the same religious faith as that of the child, when practicable. This provision shall be interpreted literally, so that in the care, protection, or and discipline of the child, his religious faith must be preserved and protected by the court.

If a child is committed, placed in custody, placed out, adopted or guardianship given to a person, in a home, or to an agency, association, society, institution other than one of its own religious persuasion and faith, the order so directing shall recite the facts to the effect there was no proper person, guardian, custodian, home, agency, association, society or and institution of its own religious persuasion and faith available and willing to accept the child.

This section shall not be construed, however, as to prevent the remanding of a child during the pendency of proceedings to a society for prevention of cruelty to children, to a county detention home, nor to the placing of a child in a hospital for necessary treatment. An association, corporation, agency, society or institution authorized and empowered to act herein shall be a "duly authorized association, agency, society or and institution" as defined in this act.

Any child placed or committed under order of the court shall be subject to visitation, inspection and supervision as the state board of charities may provide and require.

§ 26. **Placements; commitments; records.** No corporation, association, agency, society or institution shall release, place or commit or accept for placement or and commitment any child unless duly authorized as required and defined in this act.

No person shall release, place or commit or accept for placement or commitment any child, except upon order of the children's court of the jurisdiction or and the board of child welfare of the county or any city.

Other than children committed to a publicly controlled institution no child subject to the provisions of this act and who is in a family, home or institution shall be released, discharged, transferred or changed except upon order of the court.

Every person, corporation, association, agency, society or and institution who shall release, place out or replace a child within or without this state shall keep and preserve a record of the full name and the actual or apparent age of such child, the names and

address of its parent or lawful custodian so far as known and the name and residence of the person, corporation, association, agency, society or and institution with whom such child is released or and placed or and committed. If a person, corporation, association, agency, society or institution shall subsequently place, release or and remove such child from whence it was placed or released the fact of such removal and the disposition made of such child shall be entered upon such record. A duplicate copy of the record in the first instance and the subsequent removal or removals of such child shall be filed with the state board of charities within ten days therefrom. Failure to comply with the provisions of this section shall be punishable by law as a misdemeanor. The provisions of this section shall apply to children released, placed or committed to agencies, associations, societies or and institutions located outside this state.

This act shall be construed to the end that the care, custody and discipline of the children brought before the court shall approximate as nearly as possible that which they should receive from their parents, and that as far as practicable they shall be treated not as criminals but as children in need of aid, encouragement and guidance.

The power and authority given to corporations, associations, agencies, societies or and institutions under general laws and to corporations, associations, agencies, societies or and institutions in special charters shall not be abrogated or nullified, except as provided in this article.

§ 27. **Power and jurisdiction of other courts.** Nothing in this act shall be held to deprive county courts, courts of special sessions, police courts and magistrate's courts from holding the same or concurrent jurisdiction with this court to hear and dispose of cases embraced within subdivisions four and five of section five of this act, which are pending in those courts when this act takes effect, but such cases may be transferred to the children's court for hearing and determination therein. Nothing herein shall be construed as abridging the jurisdiction of the supreme court, nor as abridging the authority of the supreme court, county court, or surrogate's court, to grant adoption, or to appoint guardians, as now provided by law.

(2) To appoint a chief probation officer and other probation officers; provided, however, that the judge may appoint any agent, officer, or representative of a "duly authorized association, agency, society or institution as a volunteer probation officer to act either in a specific case or generally as the court may order, but no such volunteer probation officer shall be a chief probation officer or receive pay from public funds for his services;

The officers, clerks and assistants of the various county courts shall, by virtue of holding such offices, hold like official positions respectively in such children's courts. But nothing contained herein shall forbid the appointment of additional officers and employees, when necessary. Notice of such appointment or discharge and the date thereof shall be given in writing by the judge to the board of supervisors at its next regular meeting after such appointment or discharge. The compensation of every such clerk, stenographer, court attendant, probation officers and physician, shall be fixed by the board of supervisors. § 37. **Co-operation of officials and organizations.** It is hereby

made the duty of every county, town or municipal official or department in each county to render assistance and co-operation within his or its jurisdictional power to further the objects of this act. All institutions or other agencies to which any child coming within the provisions of this act may be sent are hereby required to give such information concerning such child to the court as the judge may require for the purposes of this act. The court is authorized to seek the co-operation of all societies or organizations, public or private, having for their object the protection or aid of children, to the end that the court may be assisted in every reasonable way to give the child within its jurisdiction such care, protection and assistance as will best conserve its welfare.

The court may, after issuance and service of an order to show cause upon the parent or other person having the duty under the law to support such child, adjudge that such parent or other person shall pay in such manner as the court may direct such sum as will cover in whole or in part the support of such child, and wilful failure to pay such sum punishable by law as a misdemeanor may, in the discretion of the court, be punished as for a criminal contempt of court. When a person liable to such payment on order, as herein provided, is before the court in the proceeding relating to the commitment a formal order to show cause may be dispensed with in the discretion of the court.

* So in original. [Does not conform to section heading.]

§ 41. **Expenses and disbursements.** The " court " shall annually submit to the board of supervisors of the county an estimate of the funds required to carry out the purposes of this article. Such estimate shall be furnished at such time before the annual meeting for appropriating moneys and levying taxes as may be specified by the board. As soon as the " court " is ready to function it shall notify in writing the board of supervisors and submit in writing a budget for the " court " to function until the next fiscal year of the county. § 42. **Judge may hold court in any place in county; may appoint commissions.** The judge may arrange to hold court at such times and places in the county as in his opinion seems desirable, but such sessions shall not be held in conjunction with sessions of the county court at which cases against adults are heard or at which business other than that provided for by this act is transacted. He may, in his discretion, appoint a commission to take testimony or receive evidence in the manner and under such limitations as to the court may seem fit, and report the same to the court for its determination. Such testimony or evidence may be received by the court with the full force and effect governing the receiving or taking of evidence or testimony by commission. The reasonable expenses of such commission, when approved by the court, and duly audited, shall become a charge against the county.

§ 43. **Appeals.** An appeal may be taken from any final order or judgment of the court to the appellate division of the supreme court of the respective department within thirty days after the entry of said order or judgment, except that an appeal may be taken from a final order requiring payment for support within thirty days after the entry of such an order to the supreme court in the county in which the " court " is located and may be heard by a justice at chambers or at special term. The court shall have power to devise and publish rules to regulate the procedure in cases coming within the provisions of this act and for the conduct of all probation and other officers of the court in such cases. The court may devise and cause to be printed for public use such forms for records and for the various petitions, orders, processes, and other papers in the cases coming within this article as shall meet the requirements thereof.

§ 45. **General provisions; court records; construction.** In the hearing of any case coming within the provisions of this act the general public may be excluded and only such persons and a duly authorized agency, association, society or and institution admitted thereto as have a direct interest in the case. All cases in which children are directly involved or appear shall be heard separately and apart from the trial of cases against adults. A room separate and apart from the regular courtroom shall be provided for the use of the children's court, together with suitable quarters for the use of the judge, the probation officers and other employees of the court.

The court shall maintain a full and complete record of all cases brought before it. All records may be withheld from indiscriminate public inspection in the discretion of the judge, but such records shall be open to inspection by the parent, guardian, next friend or attorney of the child. Any duly authorized agency, association, society or and institution to which a child is committed may cause an inspection of the record of investigation to be had and may in the discretion of the court obtain a copy of the whole or a part of such record.

No adjudication under the provisions of this act shall operate as a disqualification of any child subsequently to hold public office or as a forfeiture of any right or privilege or to receive any license granted by public authority; and no child shall be denominated a criminal by reason of such adjudication, nor shall such adjudication be denominated a conviction. Neither the fact that a child has been before the children's court for hearing, nor any confession, admission or statement made by him to the court or to any officer thereof while he is under the age of sixteen years, shall ever be admissible as evidence against him or his interests in any other court.

All provisions of the penal law or code of criminal procedure or other statutes inconsistent with or repugnant to any of the provisions of this act shall be considered inapplicable to the cases arising under this act. All statutes and laws, not inconsistent with these provisions, relating to courts exercising general jurisdiction shall apply with full force and effect, except as herein otherwise specifically provided. Chapter four hundred and eighty-nine, laws of nineteen hundred and fifteen, is hereby repealed.

§ 46. **Existing children's courts continued; adoption of act in certain counties.** The children's courts heretofore established in the counties of Chautauqua, Monroe, Ontario and in the city of New York and in the cities of Buffalo and Syracuse are hereby continued in full force and effect as if this act had not been enacted. Provided, however, that in any county, including the whole of any such city within its territorial limits, the board of supervisors may by a majority vote adopt this act as applicable to such county, outside the limits of such city.

If such affirmative action be taken by a board of supervisors in any such county on or before July first, nineteen hundred and twenty-two, then all the provisions of this act shall be in full force and effect in such county, limited, however, in its application, except as to process, to that part of the county outside of such city within its territorial limits. Thereafter any such board of supervisors in any year may by a majority vote determine as hereinabove provided and when such determination is had on or before July first in any year, the provisions of this act shall apply and the court begin to function on January first of the succeeding year, and if after July first and before January first in any year, the provisions of this act shall apply and the court begin to function one year from January first succeeding such affirmative action.

§ 47. **When courts to function; appropriations.** The children's court in any county established by the provisions of this act shall, where no judge is required to be elected by virtue of the provisions of this act, begin to function on the first day of November, nineteen hundred and twenty-two. In any county wherein it shall become necessary to elect a judge of the children's court, such judge notwithstanding any other provisions of law shall take office on the first day of December, nineteen hundred and twenty-two, and his term of office shall continue for the number of years after the first day of January, nineteen hundred and twenty-three, that constitutes a full term of a county judge in such county, and the court in such county shall begin to function on the first day of January, nineteen hundred and twenty-three. In a county where no newly elected judge is required, the judge or judges of such county shall meet at least thirty days before November first, nineteen hundred and twenty-two, and proceed to perfect plans necessary to carry into effect the provisions of this act, and the opening of the children's court on said November first, nineteen hundred and twenty-two. On the first day of December, nineteen hundred and twenty-two, the elected judge and the county judge or judges in the county where a judge is elected under the provisions of this act shall meet and proceed to perfect plans necessary to carry into effect the provisions of this act, and the opening of the children's court on said first day of January, nineteen hundred and twenty-three. The board of supervisors of a county is hereby authorized and required to appropriate and raise any moneys needed, and may if

necessary authorize the issue of bonds where other moneys are not available sufficient to comply with the provisions of this act.

§ 48. **When act takes effect.** This act shall take effect May first, nineteen hundred and twenty-two.

§ 66. Change of name of business, transportation and membership corporations. Any corporation now existing or hereafter organized under the business corporations law, the transportation corporations law or the membership corporations law, or organized under any law repealed by either of those laws, may at any time change its name, provided such change has been authorized by vote of the holders of record of at least two-thirds of the entire capital stock issued and outstanding, irrespective of class or classes of stock; or if the corporation is one authorized to issue any or all of its shares without nominal or par value, then by vote of the holders of record of at least two-thirds of the entire number of shares issued and outstanding, irrespective of class or classes of shares; or if it is a nonstock corporation, then by vote of at least two-thirds of its members ¹ present, in person or by proxy, at the meeting. A vote required by this section shall be taken at a meeting of the stockholders, shareholders or members specially called for that purpose. No such corporation shall assume a corporate name which shall contain any word or words prohibited by law to a corporation of like character. Unless the corporation is a charitable or benevolent corporation, the name which the corporation proposes to assume shall have such word or words, abbreviation, affix or prefix therein or thereto, as will clearly indicate that it is a corporation as distinguished from a natural person, firm, association or co-partnership.

therein, by the substitution of the new name, without costs and without prejudice to the action or proceeding.

§ 2. This act shall take effect immediately.

Section 1. Sections twenty-nine and thirty of chapter two hundred and seventy-five of the laws of eighteen hundred and ninety-nine, entitled "An act to revise the charter of the city of Gloversville," as amended by chapter two hundred and eighty-one of the laws of nineteen hundred and fourteen¹ is hereby amended to read as follows:

§ 29. **Chamberlain, his powers and duties.** The chamberlain shall be collector and treasurer of the city of Gloversville. He shall receive, safely keep, and properly disburse, as hereinafter stated, all moneys belonging to said city or which may be collected from the taxable inhabitants and property thereof. He shall receive from all officers authorized to receive money, fees, fines, or penalties of said city all moneys so received by them or any of them. Suitable books shall be provided by the city for his use, in which he shall enter daily each and every item of his receipts and disbursements in such a manner as to exhibit the several amounts paid by or to him under each class of purposes or funds for which money shall be raised or may be raised by tax or collected for licenses, water rents, or otherwise in said city, with the name of each person, by, to, or from whom, and on what accounts, the same was received or paid. He shall also be the custodian of all securities, obligations and other evidences of debt belonging to said city. It shall be his duty personally to collect and receive at his office in said city all taxes and assessments laid upon said city by the common council thereof or by the board of supervisors of Fulton county. All moneys collected and received by him by virtue of his office shall be deposited in such bank or banks as shall be approved by the common council, board or department of said city to which such moneys belong; and all such moneys so deposited shall be subject only to the orders of the common council, board or department controlling the same, signed and countersigned by the officers of said common council, board, or department as provided by this act, and accepted by the chamberlain; excepting, however, that the moneys collected by him for state and county taxes shall be deposited in such bank

¹ Section 29 subsequently amended by L. 1920, ch. 122.

or banks as shall be approved by the mayor, and such moneys shall be drawn from said bank or banks only upon the order of the chamberlain, countersigned by the mayor. All orders drawn for said moneys or deposits, except those drawn upon the state and county funds, shall be numbered consecutively and shall specify for what purposes the amount stated is to be paid and to what fund it is chargeable. He shall, whenever required by the common council, furnish to them a detailed report of the amounts received by him, the sources from which they are received and the amounts credited to each particular fund, together with a detailed statement of all payments made by him, the persons to whom same were paid and the particular fund to which such payments were charged. He shall keep his office in such convenient place in said city as the common council may provide, where he shall attend during the business hours of each day, Sundays and legal holidays excepted, unless otherwise directed by the common council. All the books and records of his office shall be produced upon reasonable demand and shall be open for the inspection of any officer or taxpayer of said city, and he shall permit copies and transcripts to be made and taken thereof by any such officer or persons. All fees, fines, commissions, and interest money received by him on account of collections made by virtue of any tax warrant or otherwise, shall be paid by him into the general contingent fund of the city; and any willful neglect or refusal by him to collect or receive any fee, fine, or commission belonging to the city, or any willful neglect of his duties as such chamberlain, shall be deemed a violation of the duties of his office and subject him to suspension by the mayor and removal from office by the common council upon the complaint of any taxpayer, as provided in section one of this title. The chamberlain shall receive an annual salary² to be fixed by the common council in full payment of his services under this act, to be paid to him in monthly installments. Before he enters upon the discharge of his duties he shall execute to the city a bond in the penal sum of ten thousand dollars with two or more sureties approved by the common council, which bond shall be joint and several in form and accompanied by an affidavit of each surety subjoined thereto to the effect that he is a resident and a free holder within the county of Fulton and is worth the sum stated therein over all his debts and liabilities which he owns or has incurred, and exclusive of property exempt by law from levy and sale under execution. Said sureties shall so justify in an aggregate sum equal at least to the penalty of the bond. Said bond shall be conditioned only that the chamberlain will faithfully discharge the duties of his office and execute and collect the taxes in all assessment-rolls and warrants delivered to him by the common council; such bond when approved by the common council shall be filed and entered in the office of the clerk of Fulton county in the manner prescribed by law for filing and entering bonds of county treasurers; and every such bond shall

be a lien on all real estate held jointly or severally by the parties executing it, within the county of Fulton, and continue to be such lien until its conditions, together with all costs and charges which may accrue by the prosecution thereof, shall be fully satisfied. A true copy of such bond shall be filed in the city clerk's office. Before the delivery to the chamberlain of each assessment-roll and warrant for the collection of a city or school tax, he shall execute to said city a bond in the penal sum of twenty-five thousand dollars, with two or more sureties, which bond shall be in form of execution similar to the bond hereinbefore mentioned, except that it shall be conditioned that said chamberlain shall account for and pay over all moneys which shall come to his hands by virtue of the assessment-roll and warrant delivered to him as aforesaid. The sureties on such bonds shall justify in the same manner as provided with respect to the bond first above mentioned in this section, and the same shall be approved by the common council and filed and entered in the county clerk's office, as in the case of said former bond, and be a lien upon the real estate of the parties executing the same in like manner. But in the discretion of the common council, any bond or undertaking required to be executed by the chamberlain may be executed, or the conditions thereof guaranteed, by a company duly organized or authorized to guarantee the fidelity of persons holding positions of public trust, in lieu of sureties as above provided. The common council in lieu of any other bond or undertaking required of the chamberlain by this act, except the one first above mentioned, may at its option direct the said chamberlain to procure from an approved company or companies, organized and authorized as aforesaid, a bond or undertaking to the city, or a guarantee of said chamberlain's bond or undertaking, in the penal sum of twenty-five thousand dollars, conditioned that the city shall be protected and saved harmless from all loss by embezzlement, larceny, or wrongful disposition by the chamberlain of any of the moneys of the city coming into his hands or received by him by virtue of his office. The common council is authorized to pay the expense of any bond or undertaking or guarantee procured from such company or companies as aforesaid. The common council may require of the chamberlain such other bond or undertaking as it shall deem expedient or necessary, which other bond or undertaking shall be in such form and penalty, with such conditions and sureties as shall be prescribed by the said common council. The chamberlain shall settle annually with the common council or as often as the common council shall direct, for all assessment-rolls and tax warrants issued to him by the common council or board of supervisors of Fulton county and produce the proper vouchers for the disbursement of moneys collected thereby and thereupon receive from said common council a satisfaction and discharge of the bond or bonds, in whole or in part, given by him for the collection of said warrants and assessment-rolls. At the expiration of his term of office he shall settle his accounts with the common council or a

committee duly appointed thereof, and shall pay over to his successor in office all moneys remaining in his hands and deliver to him all assessment-rolls, books, and papers appertaining to the affairs of the city in connection with the duties of his office. Said common council shall thereupon execute and deliver to him a proper satisfaction of the bond and bonds of said chamberlain. Any chamberlain who shall appropriate moneys, securities, obligations or other evidences of debt, or keep and retain any document, book, paper, or other property belonging to said city or the school district thereof, or be guilty of any other violation or neglect of duty in office not amounting to a felony under the laws of the state shall be guilty of a misdemeanor and punished in the same manner and subject to the same penalties as provided by law in the case of county treasurers.

§ 30. **City clerk, his powers and duties.** The clerk of said city shall have custody of the seal, records, books and papers of said city, except as otherwise provided by this act; he shall attend all the meetings and act as clerk of the common council; and he shall record all ordinances, rules, regulations, by-laws, resolutions, and proceedings of the common council and proceedings at elections of said city. He shall, under the direction of the common council, correct all clerical errors in the assessment-rolls of said city relating to the description or valuation of property, except as modified by this act, and extend, with the assistance of the appointive assessor, the said assessment-rolls, as required by this act. The books and papers of his office shall be produced upon reasonable demand for the inspection of any elector or taxpayer of said city, and upon like demand and tender of fees at the rate of ten cents per folio therefor he shall furnish a certified copy of any paper or record filed or kept with him as such clerk. He shall permit any such elector or taxpayer to make transcript and take copies of any such paper or record in his office under such reasonable restrictions and regulations as may be necessary for the preservation and care of the originals. His office is hereby declared a town clerk's office, for the purpose of depositing, filing, and entering of record therein all books and papers, including chattel mortgages, required by law to be deposited, filed and entered of record in a town clerk's office; and he shall, in and for the said city, possess the powers, discharge the duties, and receive the fees of a town clerk. He shall keep an accurate account of all moneys received by him belonging to the city, and shall within ten days after receipt by him of such moneys, pay the same to the chamberlain, for which he shall take a receipt from such chamberlain, and file the same in his office, and have such receipts ready at all times and submit the same for the examination of the common council or any member thereof or the mayor of the city whenever required to do so. He shall sign all licenses granted by the common council, and sign all orders drawn upon the chamberlain by direction of the common council, for payment of moneys belonging to the city, and shall keep in separate books, furnished by the city for that purpose, an accurate record of all

such licenses and orders, specifying in the book of orders the number of each order, the purposes for which it was issued, including the number of the voucher and the date of the resolution directing its issue; and in the book of licenses, to whom granted, for what time and purpose, and the amount paid therefor. He shall also keep such other books and perform such other duties as may be required by this act, or by the common council. He shall, if required so to do by the common council, report in writing to any regular meeting thereof the amount of all orders drawn by it on the several funds in the hands of the chamberlain since the last regular meeting, or since his last report thereon. He shall receive in payment for his services, such amount as may be fixed by the common council,³ payable monthly, and no other fee or reward from said city. In case of his absence from any meeting of the common council, or in case of his absence or inability to discharge the duties of his office, or in case of his death, one of the aldermen shall be designated by the mayor to discharge the duties of said clerk at such meeting or meetings or until his successor is appointed; and during his absence or disability or in case of his death until his successor is appointed, the mayor may designate another person to discharge his duties as a deputy clerk, and who shall upon compliance with all the provisions of this act required of said clerk, possess all the powers and discharge all the duties of said clerk during such absence or disability and for such period draw a salary equal to that which the clerk for such period would be entitled, to be deducted from the salary of the clerk. Before entering upon the duties of his office said clerk or deputy clerk shall execute to the city of Gloversville a bond in such form and penalty and with such sureties as the common council may direct and approve, conditioned that he will faithfully and honestly discharge the duties of his office, and account for and pay over all moneys which shall come into his hands as such officer; and the common council shall cause the same, with their approval certified by the mayor thereon, to be filed with the clerk of Fulton county and entered on record in the same manner as provided for the recording of bonds of town collectors. Said clerk shall also perform the duties required and receive the fees of town clerks under the provisions of the justice court act relating thereto,⁴ except that he shall deliver to the recorder, and each justice of the peace of said city, a certified copy of each list filed with him under the provisions of the civil practice act and the rules of civil practice relating thereto,⁵ and such lists so served upon such recorder and each justice shall be taken and deemed as one list for all the

The board of trustees shall convert such bonds into money at not less than their par value or may obtain temporary loans on the same and the proceeds therefrom shall be used only for the payment of two-thirds of the cost of such macadamizing or paving. The board of trustees shall have no power or authority to incur any expense or contract any debt for the macadamizing or paving of any of the streets of the village of Ossining except out of the general expense fund, after the expenditure of the said sum of two hundred thousand dollars. But a further issue of bonds, and a further expenditure of money for the macadamizing and paving of said streets

§ 109. **Release of surety.** 1. The surety or sureties, or the representatives of any surety or sureties, upon the bond heretofore or hereafter executed, or any trustee, guardian, executor, administrator or other fiduciary, taken as prescribed in this act, shall be entitled as a matter of right to be, and shall be, discharged from liability as hereinafter provided, and to that end, on notice to the principal named in such bond, may apply to the court that accepted such bond, praying to be relieved from liability as such surety or sureties, for the act or omission of such

principal, occurring after the date of such order relieving such surety or sureties, and that such principal be required to give new surety and to account, whereupon a citation shall be issued citing such principal to attend upon such application. Pending the hearing of such application, the court may restrain such principal from acting except to preserve the trust estate, until further ordered.

2. Upon the hearing of such application, if the principal does not file a new bond in the usual form to the satisfaction of the court, the court must make an order requiring the principal to file a new bond within such reasonable time, not exceeding five days, as the court in such order may fix. If such new bond shall be filed upon such hearing or within the time fixed by such order, the court must thereupon make a decree or order requiring the principal to account for all his acts and proceedings to and including the date of such order, and to file such account within a time fixed, not exceeding twenty days, and releasing the surety or sureties making such application from liability upon the bond for any act or default of the principal, subsequent to the date of such decree or order. If the principal fail so to file such new bond within the time specified, a decree or order must be made revoking the appointment of such principal or removing him and requiring him to so account and file such account within twenty days.

3. If the principal fail to file his account as in this section provided, such surety or sureties, or the representatives thereof, may make and file such account with like force and effect as though made and filed by such principal, and upon the settlement thereof credit shall be given for all commissions, costs, disbursements, and allowances to which the principal would be entitled were he accounting, and allowance shall be made to such surety or sureties or representative for the expense incurred in so filing such account and procuring the settlement thereof.

4. After filing the account as required or permitted in this section, the court, upon the petition of the principal or surety or sureties or the representatives of any such surety or sureties, must issue a citation addressed to all persons interested in the estate or trust funds, to show cause at a time and place therein specified, why such account should not be judicially settled; and upon the trust fund or estate being found intact or made good and paid over or properly secured, the surety or sureties shall be discharged from any and all further liability, and the court shall settle, determine, and enforce the rights and liabilities of all parties to the proceedings. CHAPTER 585

AN ACT to amend the charter of the city of Tonawanda, in relation to the collection of taxes.

Accepted by the City.

Became a law April 11, 1922, with the approval of the Governor. Passed, three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Title eighteen of chapter three hundred fifty-seven of the laws of nineteen hundred and five is hereby amended, by inserting therein after section three thereof, eight new sections, to be three-a to three-h, both inclusive, to read, severally as follows:

§§ 2a-2h
added to
L. 1905,
ch. 257,
tit. 18.

§ 3-a. **Notice of unpaid taxes; demand of payment.** If any such tax shall remain unpaid after the expiration of ninety days from the first publication of the notice specified in section three of title eighteen of this act, the city treasurer shall forthwith serve or cause to be served upon the persons against whom such tax remains charged a written notice requiring him to pay the same to the city treasurer within ten days from the service of such notice. Such notice may be served upon any such persons personally, or by leaving at his residence in said city, or by depositing it in the post-office in said city, properly enclosed in a postpaid wrapper, directed to him at his reputed place of residence. It shall not be necessary to make any other demand of payment of said tax.

§ 3-b. **Sale of land for unpaid taxes.** Whenever any such tax, penalty or interest, or any part of either of them, shall remain unpaid on the first day of December, and the common council shall not direct the collection of the same by foreclosure, it may direct that the city treasurer proceed to advertise and sell the lands upon which the same was imposed for the payment of such tax, penalty or interest, or the part remaining unpaid, and the expense of such sale, as hereinafter prescribed, shall also be made a charge upon such lands.

§ 3-c. **Notice of sale of land for taxes.** The city treasurer shall cause to be published a notice of such sale containing a description of the lands to be sold as it appears on the tax roll and specifying the time and place of sale, in the official newspaper of the city, once a week for at least six consecutive weeks, immediately prior to the day of sale, and shall also post such notice of sale in at least three public places in the city at least forty-two days before the day of sale. On the day named the city treasurer shall commence the sale of such lands, and shall continue such sale from day to day until the whole thereof shall be sold. Before the sale the owner of any parcel of land, or his representative, or any person interested therein, may avoid the sale thereof by paying the tax or taxes to the city treasurer with all accrued interest, fees, additions and expenses,

§ 3-d. **Manner of conducting sale of land for taxes.** Each parcel shall be sold at public auction to the highest bidder. The purchasers on such sale shall pay the amounts of their respective bids to the city treasurer immediately after each parcel shall be struck off. In case a purchaser shall fail to pay the amount of his bid, as herein prescribed, the city treasurer shall forthwith offer the parcel for sale again, and proceed as though it had not been struck off. Should there be no bid of the amount due on any lot or parcel of land to be sold, then the city treasurer shall bid in the same for the city, and the city is hereby authorized to acquire said parcels, and the common council shall have the care and control of all such parcels and may lease or sell and convey the same. As soon as practicable after the sale, the city treasurer shall prepare and execute in duplicate, as to the parcel sold, a certificate of such sale, describing the parcel purchased by a brief general description of the location, boundary and estimated quantity thereof, and stating the fact of the sale, the name of the purchaser, the sum paid therefor, the amount due thereon at the time of the sale, the name of the person or persons against whom such tax was assessed and the name of the reputed owner thereof. One of said duplicates shall be delivered to the purchaser, or, in case the parcel was struck off to the city, then it shall be retained by the city treasurer. The city treasurer shall deliver the other duplicate certificate to the clerk of the county of Erie who shall file said certificate in his office and record the same in a book kept for that purpose, and shall index the certificate in the name of the person to whom the parcel was assessed, the name of the reputed owner thereof, and in the name of the purchaser in the same book and manner as deeds are required by law to be indexed. The county clerk shall be entitled to receive a fee of fifty cents for each certificate so filed and recorded, which fee shall be paid by the city treasurer and shall be a part of the expenses of the sale of the parcel. If from any cause the city treasurer shall be unable to attend at the time and place of sale, the city clerk of said city may conduct the sale with the same force and effect as though made by the city treasurer.

§ 3-e. **Disposition of proceeds of sale.** The proceeds of the sale of each parcel, other than those struck off to the city, shall be applied to the payment of the expenses of the sale as herein provided, and the extinguishment of the tax, penalty or interest for which it was sold, and if there shall be any residue, the city treasurer shall hold the same until the owner of the premises at the time of the sale shall redeem them from the sale as herein provided, and the city treasurer shall pay such owner the surplus. In all other cases the city treasurer shall hold the same until after the period of redemption shall have expired and then he shall pay such surplus, and the person or persons entitled thereto shall be ascertained in the same manner and by the same proceedings as in the case of surplus on statutory foreclosure of a mortgage on real estate. In case any taxes shall be assessed and levied on real estate which has been sold for taxes, subsequent to

such sale, and before the redemption thereof or conveyance thereof to the purchaser and the same shall be unpaid, the city treasurer may deduct the amount thereof from any surplus in his hands of the sum bid for the same, if there be any surplus; if there be no surplus or the same shall be insufficient to pay such taxes, the person redeeming shall pay the same, otherwise the purchaser shall pay the same before he shall receive his conveyance of the same.

§ 3-f. **Redemption of lands.** The owner of, or any person interested in or having a lien upon, any parcel or lot so sold, may redeem the same from such sale at any time within two years by paying to the city treasurer for the use of the purchaser or his assigns or, if they shall have been redeemed by any person other than the owner thereof, then for the use of such person, the sum mentioned in the certificate as having been bid for the premises, with interest thereon at the rate of ten per centum per annum from the day of the sale, together with any tax or assessment upon said parcel or any part thereof that the said purchaser or assigns or persons before redeeming shall have paid between the day of sale and the day of redemption, with interest at the rate of ten per centum per annum upon such tax or assessment from the time of payment. The time during which such redemption may be made shall not commence to run against infants or incompetent persons, until the termination of their disability. In case of the redemption of any land sold for taxes, as herein provided, by the person who was the owner thereof at the time of the sale, the city treasurer shall give such owner a receipt for the amount paid by him to effect such redemption, and on the production thereof by such owner to him, the county clerk shall cancel the certificate of sale by a proper entry at the foot of the record of such certificate in his office.

§ 3-g. **Notice of redemption.** At least three months before the expiration of the time for the final redemption of any parcels or lots so sold, the city treasurer shall commence the publication of a notice of redemption from such sales, which shall show the year when the sale took place, and the last day for the redemption of the lands not already redeemed by the owners, without other or further description, and such notice shall be published at least twice in each of said three months, in the official newspaper of the city. A copy of such notice shall be served personally on the owner or the occupant of the lands, or, if unoccupied, posted on the premises, at least twenty days before the expiration of such time for final redemption. The publication and service of such notice shall bar and preclude any and all persons except the purchaser on such sale, or his assigns, or the person finally redeeming, from claiming any interest in or lien upon such lands or any part thereof, in case the said lands shall not be redeemed from such sale hereinbefore provided.

§ 3-h. **Conveyance of lands sold for taxes.** If any parcel or lot so sold shall not be redeemed as herein provided, the city treasurer, immediately after the expiration of the said two years,

shall execute and deliver to the purchaser, his heirs or assigns, or to the city or its assigns, or to the person finally redeeming, as the case may be, a conveyance of the real estate so sold, which conveyance shall vest in the grantee an estate in fee, subject only to the liens, if any, of unpaid taxes or assessments thereon. The city treasurer executing such conveyance shall be entitled to demand and receive from the grantee two dollars for preparing every such conveyance, but all purchases made for the city in any year shall be included in one conveyance, and no fee shall be charged therefor. Every such conveyance shall be executed by the city treasurer and the execution thereof shall be acknowledged before some officer authorized to take and certify acknowledgments of instruments for record in said county, and such conveyance shall be conclusive evidence that the sale and subsequent proceedings were regular and presumptive evidence that all the previous proceedings were regular and according to law. Any such conveyance may be recorded in like manner and with like effect as any other conveyance of real estate. The said grantee or his assigns, or the city or its assigns, as the case may be, shall be entitled to have and to possess the granted lands from and after the execution of such conveyance, and may cause the occupants of such lands to be removed therefrom and the possession thereof delivered to them in the same manner and by the same proceedings and by and before the same officers as in the case of a tenant holding over after the expiration of his term without permission of his landlord.

§ 2. This act shall take effect immediately.
